Booklist's 1000 Best Young Adult Books since 2000 Gillian Engberg, Ian Chipman, 2014-05-15 With the explosion in YA publishing it's harder than ever to separate good books from the rest. Booklist magazine's editors' deep and broad knowledge of the landscape offers indispensable guidance, and here they bring together the very best of the best books for young adults published since the start of the 21st century. Drawing on the careful judgment of expert YA librarians, this book includes a foreword by best-selling YA lit authority Michael Cart who demonstrates how we have entered a new golden age of books for young adults. Collects reviews which showcase the most stimulating contemporary YA titles. Features an essay in each section grouped by genre, presenting an overview and examining relevant trends. Indexes selections by author, title, and genre for handy reference. The thoughtful professional review coverage for which ALA's Booklist is known makes this volume an ideal tool for YA readers' advisory and collection development. *Confessions of a Wanna-Be Megachurch Pastor: I was wrong about the Seeker-Sensitive Movement*, American English File 3e Level 4 Student Book Christina Latham-Koenig, Clive Oxenden, Jerry Lambert, 2020-07-28 American English File Second Edition retains the popular methodology developed by world-renowned authors Christina Latham-Koenig and Clive Oxenden: language motivation, opportunity, grammar, vocabulary, and pronunciation practice. In every lesson, students are equipped with a solid foundation for successful speaking. Plus, an array of digital resources provides even more choice and flexibility. Students can learn in the classroom or on the move with Online Practice language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests, which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way.
