Christ and the Created Order Zondervan, 2018-05-08 According to the Christian faith Jesus Christ is the ultimate revelation not only of the nature of God the Creator but also of how God the Creator relates to the created order The New Testament explicitly relates the act of creation to the person of Jesus Christ who is also a participant within creation and who is said by his acts of participation to have secured creation's ultimate redemption from the problems which presently afflict it Christian theology proposes that Jesus Christ the incarnate Word and Wisdom of God the agent in whom the Spirit of God is supremely present among us is the rationale and the telos of all things time space as we experience and explore it nature and all its enigmas matter itself Christology is thus utterly fundamental to a theology of creation as this is unfolded both in Scripture and in early Christian theology For all this the contemporary conversation about science and faith tends to a remarkable degree to neglect the significance of Jesus Christ focusing instead on a generic God of wonder or God of natural theology Such general theism is problematic from the perspective of Christian theology on many levels and has at times led to a more or less deistic theology the impression that God has created the world then largely left it to itself Such a theology is far removed from classical Christian renderings of creation providence redemption and eschatology According to these the theology of creation is not just about remote beginnings or the distant acts of a divine originator Rather the incarnate Jesus Christ is himself remarkably the means and the end for which creation itself exists If we would think aright about our world study it and live within it wisely we must reckon centrally with his significance What might such a bold claim possibly mean and why is Jesus Christ said by Christian theology to be so important for understanding God's overall relationship to the created order What does this importance mean for science Christ and the Created Order addresses these questions by gathering insights from biblical scholars theologians historians philosophers and scientists This interdisciplinary collection of essays reflects on the significance of Jesus Christ for understanding the created world particularly as that world is observed by the natural sciences Contributors to Christ and the Created Order include Marilyn McCord Adams Richard Bauckham Deborah Haarsma Paul Moser Murray Rae James K A Smith Norman Wirzba N T Wright and more **A New Reading of**

Jacques Ellul Jacob Marques Rollison, 2020-09-10 This book presents an original and dynamic reading of the twentieth century French sociologist and theological ethicist Jacques Ellul Adopting Ellul's use of presence as a hermeneutical key to understanding his work it examines the origins of Ellul's approach to presence in his readings of Kierkegaard and the biblical book of Ecclesiastes highlights the central structural role of presence in Ellul's theological ethics and elucidates a crucial turning point in Ellul's theology following a personal crisis in Ellul's faith and life Drawing from numerous unpublished and untranslated texts Jacob Marques Rollison argues that this crisis involves confrontation with a critique of presence manifest in Ellul's reading of and engagement with Michel Foucault Marques Rollison distills Ellul's sociological critiques and theological responses to this crisis presenting Ellul's evolving theology against the background of major shifts in French

intellectual life In doing so the author simultaneously calls for renewed engagement with Ellul s prophetic thought critically appraises Ellul s dialectical theology and Marxist inheritances and develops a robustly Protestant approach to theological communication ethics for our time **Ancient World: Reader, 5th ed.** , *Reading Karl Barth* Chris Boesel,2023-01-04 Reading Karl Barth provides a cluster of major themes and signposts by which to orient one s reading of Barth s theology It assists readers in a recognizing and understanding what Barth is doing theologically and why and how he is doing it and b assessing the extent to which Barth s theology is or is not a fruitful resource for their own context as individuals and communities of faith The distinctive value of the book s approach lies in its demonstration of the ways in which Barth s theology in both his own time and in ours cuts both ways to the theological left and right This involves identifying various theological logics that constitute the diverse and conflictual landscape of shared Christian identity and faith both in Barth s time and in our own enabling readers to recognize not only where and why Barth is located in that landscape but also where and why they themselves are located together with their respective faith communities This makes the book of particular interest to individuals and communities of faith who feel themselves homeless in today s polemical polarization between theological conservatives and theological progressives especially those who are hungry for the possibility of a progressive socio political vision of the gospel rooted in relatively traditional confessions of Christian faith **Introducing Story-Strategic Methods** Robert Strauss,2017-03-17 The purpose of Introducing Story Strategic Methods is to awaken us in the cross cultural context Our natural tendency is to be asleep to our own cultural values and core worldview assumptions This tendency applies as well to our expectations in the cross cultural context For example in what ways would a justice pattern of culture orient our speech and behavior To what degree is a justice pattern of culture different from an honor pattern of culture The book asserts that culture matters in effective communication Going further to what degree does a story told from the Bible nullify the power of culture Often we assume that the biblical story trumps culture It does not The book affirms rigorously that culture is much more powerful than we first suppose If in fact culture trumps the biblical story Therefore understanding and skills are required for effective engagement across cultures Strategic storytelling is a twelve step methodology that addresses the problems of miscommunication and syncretism that plague the cross cultural context It offers a step by step solution that promises success Insights are firmly rooted in Scripture and equally grounded in empirical research from the social sciences The stories told throughout the book are true The answers are compelling Did it Really Happen? Jonathan A. Wood,2019-09-04 The Bible makes remarkable claims about people and events in world history Creation Adam and Eve Israel s escape from Egypt the rise and fall of Israel s kingdom the birth of the Messiah Jesus Christ s life death and resurrection the growth of the church all points of interest by scholars for the historical veracity of the Scriptures Yet the Bible does not appear to present the acts of God in history for the purpose of vindicating historical accuracy of the text The Bible is a story that reveals the living God through inspired writings that communicate the meaning

of historical events In light of the Bible as the revelation of God and the high stakes of historical veracity for the claims of the Bible how should Christians approach the interpretation of the Scriptures in a faithful way Carl F H Henry offers guidance as a foremost theologian regarding God revelation and the Scriptures In Did it Really Happen Jonathan Wood engages the thought of Carl Henry in dialogue with the major alternatives to revelation history and the biblical text The value of Carl Henry s approach is shown to provide a path forward for affirming the historicity of the Bible while interpreting the text well
