Responsible Business OLIVER LAASCH, Roger Conaway, 2017-09-08 As sustainable development becomes an increasingly important strategic issue for all organizations there is a growing need for management and executive education to adapt to this new reality This textbook provides a theoretically sound and highly relevant introduction to the topic of socially and environmentally responsible business The authors take a competence based approach to responsible management education The book aims to go beyond the traditional domains of teaching and towards the facilitation of learning across key competences Each chapter in this book has a section dedicated to exercises that cover five core competences know think do relate be to enable self directed transformative learning Drawing from the classic background theories such as corporate sustainability business ethics and corporate social responsibility these concepts are applied to the most up to date practices The book covers an international perspective featuring cases from countries all around the world has a strong theoretical basis and fully integrates the topics of sustainability responsibility and ethics The book includes a wide variety of tools for change at individual company and systemic levels Published with the Principles for Responsible Management Education PRME a United Nations Global Compact supported initiative this is both an essential resource for business students at all levels and self study handbook for executives

The Routledge Companion to Responsible Business Stefan Markovic, Adam Lindgreen, François Maon, Cristina Sancha, 2025-08-22 Contemporary companies are expected to behave ethically and responsibly toward their stakeholders and to provide social and environmental good Key stakeholder groups including employees consumers investors and public authorities increasingly demand that companies deliver products and services in responsible yet economically sound manners and act in accordance with moral obligations and financial requirements Such mounting societal expectations and institutional pressures relate to complex concerns including environmental and climate impact working conditions and human rights both locally and overseas In this context as companies now appear to commit to comprehensively tackle ethical social environmental and economic challenges concerns increasingly are raised as to whether most companies in the end can indeed contribute to societal and environmental good and transform how they operate to create value responsibly considering the success and impact of so called corporate social responsibility or sustainability policies In recent decades while some companies have advanced on their social and environmental responsibility journey other companies have engaged in ethical social and environmental initiatives in manipulative and insincere way or merely as a rhetorical tool to maintain legitimacy Together with governments and business partners these companies are largely failing to deliver for society and the environment Subsequently more than ever before understanding what it means to do business responsibly and how business actors can engage constructively in ways that support the development of resilient business practices forms and organizations that contribute to generate positive impact for society and the environment and generate the type of economic value needed to address the key challenges of this

century is central On this background this edited volume sheds light on different crucial themes and approaches spanning historical conceptual operational critical practical and prospective considerations that have animated the field of business and society in the last decades and that are instrumental or have the potential to drive constructive research discussions and business efforts The central aim of the book is to set the research agenda for the next five to seven years to redefine existing areas within the context of international research and to highlight emerging research areas in need of further investigation representing a prestige reference work providing an overview of the subject area of responsible business primarily for academics researchers postgraduate students as well as reflective practitioners

Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate

the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness

Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment

Principles of Business & Management Oliver Laasch, 2024-03-07 In light of seismic global events including the Covid 19 pandemic the Black Lives Matter movement the war in Ukraine and extreme weather incidents propelled by climate change there has never been a more important time to learn about management in ways that not only benefit business but also help confront the world's challenges support people and planet and contribute to peace and prosperity for all Fully revised and once again endorsed by the UN's Principles for Responsible Management Education PRME initiative this popular textbook equips you with the skills to become a responsibly ethically and sustainably minded business professional Featuring two brand new chapters on Behaving and Digitalizing over 50 new and updated case studies pioneer interviews and practitioner profiles as well as a wide range of exercises and worksheets the book also integrates the UN's Sustainable Development Goals SDGs to help promote sustainable development as essential to business and management today This essential textbook can be used for a wide range of courses from introductory business management to responsible sustainable management business ethics business and society and corporate social responsibility CSR Oliver Laasch is a Chaired Professor of Responsible Management at ESCP Business School and an Adjunct Professor of Social Entrepreneurship at the University of Manchester

Inspirational Guide for the Implementation of PRME Alan Murray, Denise Baden, Paul Cashian, Alec Wersun, Kathryn Haynes, 2017-09-08 Since the inception of the United Nations Global Compact sponsored initiative Principles for Responsible Management Education PRME in 2007 there has been increased debate over how to adapt management education to best meet the demands of the 21st century business environment While consensus has been reached by the majority of globally focused management education institutions that sustainability must be incorporated into management education curricula the relevant question is no longer _why_ management education should change but _how_ The PRME initiative is set to increase to 1 000 signatories worldwide by 2015 Alongside encouraging new institutions to participate in the initiative the Inspirational Guide volumes aim to cultivate and inspire actively engaged PRME participants The Guides have been written with the aim of enabling participants to transition from a global learning community to an action community Following the two previous volumes of the Inspirational Guide for the Implementation of PRME the PRME UK and Ireland Chapter have compiled this volume which collects the experiences of some of the PRME UK and Ireland Chapter institutions The guide answers some of the most frequently asked questions concerning the implementation of PRME and celebrates some of the best examples of innovation and leadership by highlighting real world examples from the most engaged signatories in the UK and Ireland

Sustainable Development and Finance in Europe Małgorzata Janicka, Artur Sajnog, 2025-06-09 Sustainable development is a major challenge of our times The conditions necessary for sustainable transformation cut across all economic entities and sectors that operate on macro and micro economic scales both nationally and internationally The subject of sustainability has been represented in the public space for years but there are few studies available on the practical implementation of the related goals and most publications focus on the issues of green finance and the environment A particularly large information gap relates to the role of sustainable finance in achieving sustainable development which has been underestimated for years This book characterizes and evaluates how stock markets operate in European Union EU countries in terms of the sustainable development of public companies The book addresses two key research areas Firstly it provides an analysis of the legal and institutional environment of the EU stock markets in the sustainable reconstruction of the European economy and secondly it assesses the conditions for EU public companies to implement environmental social and governance ESG non financial reporting requirements and how the ESG indicators based on these function The book presents the methodology for constructing ESG indicators with particular emphasis on Refinitiv which is one of the largest databases in this area and the most recognizable on a global scale The book is a valuable source of knowledge on the conditions and consequences of changes in the financial markets especially the stock markets and is addressed primarily to the academic community but may also be informative engaging and useful for various stakeholders in the business sector including enterprises institutional and individual investors and financial institutions

Cranfield on Corporate Sustainability David Grayson, 2017-09-08 Business schools have a special contribution to make in developing globally responsible critical and independent thinking future leaders and managers In fact the Cranfield School of Management acknowledges this as one of its important responsibilities Its core ideology is to transform the practice of learning and create leaders who action their knowledge and become stewards of the common good Such thinking forms the basis of this book and its theme of developing responsible and ethical leaders for next generation enterprises These leaders will be passionate purposeful and responsible their primary aim will be to make a difference in the lives of people and create sustainable value premised on sound ethical values This book aims to provide a roadmap both for business students the leaders of tomorrow and for existing and engaged leaders who need support coaching and counselling to address the challenges of the sustainability agenda With contributions from more than thirty Cranfield faculty and associates across multiple management disciplines the book emphasizes the need for cross disciplinarity when confronting sustainability dilemmas Many corporate responsibility practitioners find themselves isolated from core business issues Conversely many managers in traditional departments have little or no knowledge of what sustainability and corporate responsibility means to their day to day role Today there is an urgent need for learning for conversation and for sustainability to become embedded throughout an organization s DNA Cranfield strives to prepare its students for a work milieu that is increasingly complex diverse technologically interconnected socially networked and where economic and political power shifts see emerging market economies assuming significant global prominence This makes for exciting challenges but also requires new mind sets for the next generation of business men and women Corporate responsibility and the tough ethical and governance choices managers have to grapple with where there are no easy answers means that business education must embrace the stakeholder model Leaders need to be able to negotiate their way with confidence around multiple perspectives and conflicting and common interests of stakeholders such as employees and managers shareholders trade unions suppliers and civil society organisations Business schools need to generate understanding of and sensitivity to this

new and changing world of work Today the challenge for business schools and business itself is to establish a new maxim the business of business is sustainable business Cranfield on Corporate Sustainability is designed to stimulate debate about what sustainable development means for business and therefore on what business schools across the globe should research teach and advise This unique book is a manifesto for a new holistic embedded approach to corporate sustainability management education
