Schwarz, 2014-01-02 A groundbreaking study of ten difficult years in the life of America's most important newspaper From false stories about weapons of mass destruction in Iraq to growing competition from online and twenty four hour cable news the first decade of the twenty first century was not particularly kind to the New York Times In this groundbreaking study of the recent life and times of America's most important newspaper Daniel R Schwarz describes the transformation of the Times as it has confronted not only its various scandals and embarrassments but also the rapid rise of the Internet and blogosphere the ensuing decline in circulation and print advertising and the change in what readers want and how they want to get it Drawing on more than forty one on one interviews with past and present editors including every living executive editor senior figures on the business and financial side and publisher Arthur Sulzberger Jr Schwarz discusses virtually every aspect of the contemporary Times from columnists to cultural coverage He explains how in response to continuous online updating and twenty four hour all news radio and television the Times has become much more like a daily magazine than a traditional newspaper with increased analysis as opposed to reporting of the news as well as value added features on health travel investing and food After carefully tracing the rise of the Times's website Schwarz asks whether the Times can survive as a print newspaper whether it can find a business model to support its vast print and online newsgathering operation and whether the Sulzberger family can survive as controlling owners He also asks whether the Times in its desperate effort to survive has abandoned its quality standards by publishing what he calls Timeslite and Timestrash Writing as a skeptical outsider and devoted lifelong reader Schwarz concludes that the Times is the worst newspaper in the world except for all the others Endtimes is a must read for Times readers as well as anyone interested in the radical change in print and broadcast media in the rapidly evolving Internet Age A balanced grappling with big issues and tumultuous changes in journalism and at The Times between 1999 and 2009 CHOICE Fascinating Schwarz raises many questions about the future of printed newspapers and about how Americans will stay informed about news Charleston Gazette Mail Endtimes is a product of brain and heart passion for its subject yes but also clear eyed critique of that subject's strengths and weaknesses Huntsville Times Schwarz is diligent in his research and his interviews He puts the Times on the couch and gives us a very thorough psychoanalysis Washington Independent Review of Books Struggling to maintain its journalistic preeminence in a world of accelerating change the New York Times has often stumbled but not yet fallen Scrupulously researched judiciously argued and accessibly written Endtimes provides a sympathetically critical account of the Times's strengths and weaknesses as it responds to the economic technological cultural and political challenges of our day No one alarmed by the threatened survival of quality journalism can afford to ignore this trenchant book Martin Jay author of The Virtues of Mendacity On Lying in Politics Daniel Schwarz's lucid well researched and passionate book reminded me of the saying that the best

criticism comes from admirers who are willing to tell us our faults Benefiting from his own extensive interviews with key players in the Times s story including Max Frankel Arthur Sulzberger Jr and Howell Raines Schwarz offers a complex judicious history of a prominent American cultural institution as it responds to a period of crises and turmoil in print journalism Pulling no punches Schwarz laments the current version of the paper s fluff lack of gatekeeping and news judgment and failure to stand up to government At the same time he appreciates how the Times remains after more than a century a preeminent source of information This is a lover s quarrel at its best Daniel Morris Purdue University Dan Schwarz is a knowing reader and a master teacher Endtimes shows that he is a great student of journalism as well He takes us on a roller coaster ride from the era of the New York Times s cultural ascendancy to the current financial crisis over its very existence And he looks into the Times s future too Everyone who cares about the news in America should read this book Barry Strauss author of The Spartacus War Dan Schwarz writes with terrific energy about an important subject the threat posed by today s flood of information to the integrity and even the existence of what is arguably the world s most influential newspaper Not every reader will agree with his criticisms of the paper s leadership or his prescriptions for its survival But every reader will be deeply informed and sharply challenged by his well documented narrative and his provocative argument Steven Knapp The George Washington University The American Teacher ,1885 *Summary of The Deadline essays by Jill Lepore* GP SUMMARY,2023-09-01 DISCLAIMER This book does not in any capacity mean to replace the original book but to serve as a vast summary of the original book Summary of The Deadline essays by Jill Lepore IN THIS SUMMARIZED BOOK YOU WILL GET Chapter astute outline of the main contents Fast simple understanding of the content analysis Exceptionally summarized content that you may skip in the original book Jill Lepore a renowned historian and writer has contributed significantly to public discourse with her insightful essays in The Deadline Lepore s work explores topics such as lockdowns race commissions and the loss of life highlighting the nation s techno utopianism frantic fractiousness and unprecedented aimlessness The Deadline challenges the nature of the essay and history by striking a balance between political and personal aspects showcasing Lepore s exceptional skills and insights *The Internet Consumer Bible* Tess Read,Calum Chace,Simon Rowe,2012-05-31 The Internet Consumer Bible is the most authoritative guide to the internet available Far more than a directory this book shows you whether novice or experienced web surfer which sites can help you and which sites are a waste of time Taking you through every aspect of life and showing how to save hundreds of pounds and release hours of valuable time for other activities the book also looks at what you can t do on the web or what you can still do better offline Chapters finish with a list of sites in the area providing a brief description of what the site does and a star rating of 1 5 for how good each is There are five major sections 1 Basics Chapters in this section include what is a good website getting started unmetered access ADSL virus programmes firewalls screening software mobile internet and interactive TV 2 Lifestages Chapters in this section include births and young children education dating marriage and divorce
