Feldman,2008-10-01 An eviscerating look at the state of journalism in the age of the 24 hour news cycle by a Pulitzer Prize winning television critic and a veteran news correspondent No Time To Think focuses on the insidious and increasing portion of the news media that due to the dangerously extreme speed at which it is produced is only half thought out half true and lazily repeated from anonymous sources interested in selling opinion and wild speculation as news These news item can easily gain exposure today assuming a life of their own while making a mockery of journalism and creating casualties of cool deliberation and thoughtful discourse Much of it is picked up gratuitously and given resonance online or through CNN Fox News MSNBC and other networks which must in this age of the 24 hour news cycle feed the beast In dissecting this frantic news blur No Time to Think breaks down a number of speed driven blunders from the insider perspective of Charles Feldman who spent 20 years as a CNN correspondent as well as the outsider perspective of Howard Rosenberg who covered the coverage for 25 years as TV critic for The Los Angeles Times No Time to Think demonstrates how today s media blitz scrambles the public s perspective in ways that potentially shape how we think act and react as a global society The end result effects not only the media and the public but also the government leaders we trust to make carefully considered decisions on our behalf Featuring interviews ranging from former NBC News anchor Tom Brokaw to internet doyenne Arianna Huffington to PBS stalwart Jim Lehrer to CNN chief Jonathan Klein to a host of former presidential press secretaries and other keen eyed media watchers this incisive work measures lasting fallout from the 24 hour news cycle beginning in 1980 with the arrival of CNN right up to the present **Lesson Plans: William Shakespeare**

Dunstan closeted freshman future bestselling author and frequently blushing teenager is on a quest to find himself find love and live happily ever after Sounds easy enough right But when the opportunities for failure are endless it doesn't take much to turn your life upside down And that's not exactly what you need when you try to catch someone's eye without attracting everyone's attention Cupid Painted Blind is a heartbreaking heartwarming and occasionally hilarious roller coaster ride through an awkward freshman's first few weeks of high school that will appeal to readers of all ages who enjoy Young Adult LGBTQ fiction

New Science of Learning Myint Swe Khine, Issa M. Saleh, 2010-06-16 The earliest educational software simply transferred print material from the page to the monitor Since then the Internet and other digital media have brought students an ever expanding low cost knowledge base and the opportunity to interact with minds around the globe while running the risk of shortening their attention spans isolating them from interpersonal contact and subjecting them to information overload The New Science of Learning Cognition Computers and Collaboration in Education deftly explores the multiple relationships found among these critical elements in students increasingly complex and multi paced educational experience Starting with instructors insights into the cognitive effects of digital media a diverse range of viewpoints with little consensus this cutting edge resource acknowledges the double edged potential inherent in computer based education and its role in shaping students thinking capabilities Accordingly the emphasis is on strategies that maximize the strengths and compensate for the negative aspects of digital learning including Group cognition as a foundation for learning Metacognitive control of learning and remembering Higher education course development using open education resources Designing a technology oriented teacher professional development model Supporting student collaboration with digital video tools Teaching and learning through social annotation practices The New Science of Learning Cognition Computers and Collaboration in Education brings emerging challenges and innovative ideas into sharp focus for researchers in educational psychology instructional design education technologies and the learning sciences
