Resilience Facing Down Rejection And Criticism On The Road To Success:

Resilience: Facing Down Rejection and Criticism on the Road to Success Mark McGuinness, 2012-10-21 Read this book and you will be bulletproof Steven Pressfield best selling author of THE WAR OF ART and TURNING PRO If you want to achieve something original and meaningful with your life you MUST learn to deal with rejection and criticism If you re an artist of any kind your work will be rejected by editors curators and other gatekeepers And each time you put it in front of the public you expose yourself to criticism If you re an entrepreneur you face rejection by potential customers partners and investors Those same people won t hesitate to criticize you if they are unhappy justified or not If you re chasing your dream job you ll receive your share of rejection letters And once you land the job taking flak when things go wrong is part of the deal If you re an athlete or sports player it s a battle to get on the team And you ll hear about it from all sides your coach your team mates and so called supporters if they think your performance isn t up to scratch If you re a campaigner for change you face inertia resistance and hostility from everyone with an investment in the status quo No wonder most people choose not to rock the boat Between them rejection and criticism can rob you of your dream Many people set out on their chosen path full of hope and inspiration only to turn back because they couldn t deal with the emotional impact of crushing rejections and vicious criticism If you want to avoid joining the legions of also rans you ll need to find practical effective ways to deal with rejection and criticism Anyone who says don t take it so personally doesn t understand what it s like when you are hit by a major rejection or biting criticism At least to begin with it s almost impossible NOT to take it personally for very good psychological reasons To deal with rejection and criticism you need to acknowledge the pain and find ways to bounce back from the impact In short you need to develop resilience In Resilience Mark McGuinness explains why your reactions to rejection and criticism are completely understandable and how to deal with them effectively Through stories from his own experience as well as those of famous people who faced rejection and criticism on the road to their success he will show you that you are far from alone in suffering from rejection and criticism And he draws on years of experience as a coach to give you practical advice that has been road tested with hundreds of people facing similar challenges to you You will learn Why rejection and criticism hurt so much Several ways you may be making rejection worse without realising it How to keep going in spite of multiple rejections Why your inner critic is potentially your best friend When to ignore the critics and when to listen Whether and how to respond to insults and abuse Why success is harder than it looks and how to deal with it This is not a theoretical book it s packed with practical tips and techniques you can apply to your own challenges right away Whether you re just setting out in the middle of your journey or dealing with the unexpected challenges of success Resilience will show you how to keep moving forward Resilience will take you a few hours to read its lessons will help you for the rest of your life Topics resilience creativity rejection criticism success *Motivation for Creative People* Mark McGuinness, 2015-10-15 This is a How To manual at the highest level from a man who has lived the life and has watched and

worked intimately with hundreds of others who've done the same Indispensable reading for anyone in a creative field who is seeking to achieve not just a flash of brilliance but a lifelong career Steven Pressfield bestselling author of *The War of Art* I love my work so much I would do it for free Many creative people have uttered these words in a moment of enthusiasm they express the joy of creative work But they also hint at some of the pitfalls that lie in wait for creatives In one sense creative people have no problem with motivation We fall in love with our creative work and pursue a career that allows us to do what we love every day Psychological research confirms what we know in our hearts we are at our most creative when we are driven by intrinsic motivation working for the sheer joy of it regardless of rewards Focusing on extrinsic motivation such as money fame or other rewards can kill your creativity If you don't feel excited by the task in front of you it's impossible to do your best work no matter what rewards it might bring You may be determined not to sell out but selling yourself short can be just as damaging And when it comes to public recognition comparisonitis and professional jealousy can consume far too much of your creative energy Working for love is all well and good but if you're a creative professional you can't ignore the rewards you need money to enjoy your life and to fund your projects You may not need to be famous but you do need a good reputation within your professional network And if you're in a fame-driven industry you need a powerful public profile whether or not you enjoy the limelight There's a precious balance at play get it wrong and you could seriously damage your creativity and even your career For the past twenty years creative coach Mark McGuinness has helped hundreds of creatives like you to overcome these challenges In his latest book *Motivation for Creative People* Mark helps you rise to these challenges and create a fulfilling and rewarding creative career All the solutions he shares have been tested with real people in real situations including ways to stay creative and in love with your work even under pressure overcome Resistance to tackling your creative challenges reclaim your creative soul if you wander off your true path stop selling yourself short and start reaping the rewards of your creativity attract the right kind of audience for your work cultivate an outstanding artistic reputation avoid destroying your creativity through attachment to money fame reputation and other rewards surround yourself with people who support your creative ambitions avoid getting stuck in unhealthy comparisonitis or professional jealousy balance your inspiration ambition desires and influences in the big picture of your creative career *Motivation for Creative People* is the perfect guide to figuring out your different motivations and how they affect your creativity and career The book is packed with practical advice and inspiring stories from Mark's own experience his transformative work with coaching clients and famous creators and creations including Stanley Kubrick Dante The Smiths Shakespeare kabuki drama and *Breaking Bad* If you are serious about succeeding in your creative career while staying true to your inspiration read *Motivation for Creative People* *Productivity for Creative People* Mark McGuinness, 2016-09-15 **The Successful Author Mindset** Joanna Penn, 2018-08-11 Being a writer is not just about typing It's also about surviving the roller coaster of the creative journey Self doubt fear of failure the need for validation perfectionism writer's block comparisonitis overwhelm

The Denial of Nature Arne Johan Vetlesen,2015-02-11 A study of the increasingly precarious relationship between humans and nature this book seeks to go beyond work already contributed to the environmental movement It does so by highlighting the importance of experiencing rather than merely theorizing nature while realizing that

such experience is becoming increasingly rare thus reinforcing the estrangement from nature that is a source of its ongoing human caused destruction In his original approach to environmental philosophy the author argues for the reinstatement of nature s value outside of its exploitative usefulness for human ends Such a perspective emphasizes the extent to which the environmental problem is a concrete reality requiring urgent action based on a multi sensuous appreciation of humans dependence on nonhuman lifeforms Designed as an accompaniment to undergraduate and postgraduate research The Denial of Nature draws on empirically informed literature from the social sciences to examine what life is really like for humans and nature in the era of global capitalism The book contends that capitalist society exploits nature both in the form of human capital and natural capital more relentlessly than any other and offers an environmental philosophy which actively opposes current developments Through discussions of the work of Teresa Brennan Theodor Adorno Martin Heidegger and Hans Jonas and through a radical critique of the nature deficit in Jürgen Habermas theory of capitalist modernity The Denial of Nature relies on insights from Critical Realism to bring together several seldom linked philosophies and suggest a new approach to the heavily discussed question of environmental ethics Arne Johan Vetlesen is Professor of Philosophy at the University of Oslo Norway and the author of twenty books among them Perception Empathy and Judgment An Inquiry into the Preconditions of Moral Performance 1994 Closenes An Ethics with H Jodalen 1997 Evil and Human Agency 2005 and A Philosophy of Pain 2010
