Resonance Biblical Texts Speaking To 21st Century Inquirers:

Resonance Harry T. Cook, 2011 The word bible means library And like the anthology commonly known by that title this book is a small library of translations and paraphrases of 24 biblical texts The author has chosen to treat these texts much as an archaeologist does shards from a dig examining them closely within their original context **Images of Light** Sharon R. Chace, 2013-01-11 Suitable for Advent or Lent these meditations on pictorial images of light are navigational aids in the ascent to trust in the triumph In a relatively late in life synthesis of her interests in art and religion Sharon R Chace explores art that evokes the light of a star inclusion forgiveness caring healing speaking truth to power transfiguration and resurrection Questions for individual or group consideration invite further reflection and discussion about the art and personal experiences Living in the light is a way to participate in God like healing love Being lights in the world can help one another sustain trust in the implicit meaning of Christmas and Easter that is in the prologue of the Gospel of John 1 1 5 The Gospel writer concludes with a declarative sentence of promise The light shines in the darkness and the darkness did not overcome it **Divining Gospel** Jeff W. Childers, 2020-03-23 Ancient manuscripts of John s Gospel containing hermeneiai have long puzzled scholars provoking debate about their origins purpose and use The fragmentary nature of the early evidence has impeded progress towards a better understanding of these specialized books The present study shows that these books are Divining Gospels editions of John s Gospel incorporating lot divination materials for use in fortune telling The study centers on material presented here for the first time the text and translation of a unique sixth century Syriac manuscript the earliest and most complete example of a hermeneia Gospel An analysis of the Syriac along with evidence from Greek Coptic Latin and Armenian versions show they all preserve vestiges of the same apparatus disseminated widely at an early time throughout many different Christian communities These books must be situated squarely within the development of divinatory practices in early and late antique Christianity However they represent a true hermeneutic a method by which interpreters brought the potency of the Bible to bear on the everyday concerns of people who consulted them for help Furthermore the Divining Gospel draws on the special aura that John s Gospel held in the Christian imagination both as text and as textual object An analysis of the interplay between the biblical text and sacred codex the oracles the ritual practitioner and the client enrich our appreciation of this distinctive hermeneutic Contextualizing these materials in popular use illuminates the fraught relationships between the ecclesial establishment ritual experts operating on the margins of orthodox respectability and lay clients seeking knowledge and help **Colonial Mediascapes** Matthew Cohen, Jeffrey Glover, 2014-04-01 In colonial North and South America print was only one way of communicating Information in various forms flowed across the boundaries between indigenous groups and early imperial settlements Natives and newcomers made speeches exchanged gifts invented gestures and inscribed their intentions on paper bark skins and many other kinds of surfaces No one method of conveying meaning was privileged and written texts often relied on nonwritten modes of

communication Colonial Mediascapes examines how textual and nontextual literatures interacted in colonial North and South America Extending the textual foundations of early American literary history the editors bring a wide range of media to the attention of scholars and show how struggles over modes of communication intersected with conflicts over religion politics race and gender This collection of essays by major historians anthropologists and literary scholars demonstrates that the European settlement of the Americas and European interaction with Native peoples were shaped just as much by communication challenges as by traditional concerns such as religion economics and resources

Gender and Power in Medieval Exegesis Theresa Tinkle, 2010-09-15 Gender and Power in Medieval Exegesis analyzes the nexus of gender and power in biblical commentaries from the fifth to the fifteenth century focusing on crucial moments in the development of exegesis The argument pursues the literary trope of the woman on top through major literary exegetical works Augustine's Confessions Jerome's Against Jovinian the Fleury Slaughter of Innocents and Chaucer's Wife of Bath's Prologue Theresa Tinkle reveals how the authoritative woman in these works can signify either a troubling disruption of ordained social order or an admirable inversion of order that sets the Church apart from dominant culture Establishing a feminist historicist perspective this book situates exegesis in history and exposes the cultural pressures behind exegetes' decision making

Radical Human Ecology Rose Roberts, 2016-04-08 Human ecology the study and practice of relationships between the natural and the social environment has gained prominence as scholars seek more effectively to engage with pressing global concerns In the past seventy years most human ecology has skirted the fringes of geography sociology and biology This volume pioneers radical new directions In particular it explores the power of indigenous and traditional peoples' epistemologies both to critique and to complement insights from modernity and postmodernity Aimed at an international readership its contributors show that an inter cultural and transdisciplinary approach is required The demands of our era require a scholarship of ontological depth an approach that can not just debate issues but also address questions of practice and meaning Organized into three sections Head Heart and Hand this volume covers the following key research areas Theories of Human Ecology Indigenous and Wisdom Traditions Eco spiritual Epistemologies and Ontology Research practice in Human Ecology The researcher researched relationship Research priorities for a holistic world With the study of human ecology becoming increasingly imperative this comprehensive volume will be a valuable addition for classroom use

Expectations of Justice in the Age of Augustine Kevin Uhalde, 2013-03-26 Augustine bishop of Hippo between 395 and 430 and his fellow bishops lived and worked through massive shifts in politics society and religion Christian bishops were frequently asked to serve as intellectuals legislators judges and pastors roles and responsibilities that often conflicted with one another and made it difficult for bishops to be effective leaders *Expectations of Justice in the Age of Augustine* examines these roles and the ways bishops struggled to fulfill or failed to fulfill them as well as the philosophical conclusions they drew from their experience in everyday affairs such as oath swearing and in the administration of penance Augustine and his near

contemporaries were no more or less successful at handling the administration of justice than other late antique or early medieval officials. When bishops served in judicial capacities they experienced firsthand the complex inner workings of legal procedures and social conflicts as well as the fallibility of human communities. Bishops represented divine justice while simultaneously engaging in and even presiding over the sorts of activities that animated society: business deals, litigations, gossip and violence, but also made justice hard to come by. Kevin Uhalde argues that serving as judges even informally compelled bishops to question whether anyone could be guaranteed justice on earth even from the leaders of the Christian church. As a result, their ideals of divine justice fundamentally changed in order to accommodate the unpleasant reality of worldly justice and its failings. This philosophical shift resonated in Christian thought and life for centuries afterward and directly affected religious life from the performance of penance to the way people conceived of the Final Judgment.

Written Reliquaries Leslie K. Arnovick, 2006-01-01 LC number 2006049945 Philology James Turner, 2015-09-15 A prehistory of today's humanities from ancient Greece to the early twentieth century. Many today do not recognize the word, but philology was for centuries nearly synonymous with humanistic intellectual life, encompassing not only the study of Greek and Roman literature and the Bible but also all other studies of language and literature as well as history, culture, art, and more. In short, philology was the queen of the human sciences. How did it become little more than an archaic word? In *Philology*, the first history of Western humanistic learning as a connected whole ever published in English, James Turner tells the fascinating, forgotten story of how the study of languages and texts led to the modern humanities and the modern university. The humanities today face a crisis of relevance if not of meaning and purpose. Understanding their common origins and what they still share has never been more urgent. *The Story of England* Michael Wood, 2010-09-30 A VILLAGE AND ITS PEOPLE THROUGH THE WHOLE OF ENGLISH HISTORY The village of Kibworth in Leicestershire lies at the very centre of England. It has a church, some pubs, the Grand Union Canal, a First World War Memorial, and many centuries of recorded history. Bought in the thirteenth century by William de Merton, who founded Merton College, Oxford, it also lodges 750 years of village history. Michael Wood tells the extraordinary story of one English community over fifteen centuries, from the moment that the Roman Emperor Honorius sent his famous letter in 410 advising the English to look to their own defences to the village as it is today. He builds on this unique archive, enlisting the help of Kibworth's inhabitants in a village-wide archaeological dig and the first complete DNA profile of an English village. The story of Kibworth is the story of England itself: a Who Do You Think You Are for the entire nation. Better than any historian, for decades Wood brings home not just the ways in which buildings, landscapes, and written texts may be read, but the sensual beauty of encounters with them. TLS
