A War of Logistics Charles R. Shrader, 2015-10-23 Following the French reoccupation of Indochina at the end of World War II the pro Communist Vietnamese nationalists or Viet Minh launched a grassroots insurgency that erupted into a full fledged war in 1949 After nearly ten years of savage combat the western world was stunned when Viet Minh forces decisively defeated the French Union army at the battle of Dien Bien Phu in May 1954 Logistics dominated every aspect of the First Indochina War dictating the objectives the organization of forces the timing and duration of the operations and even the final outcome In *A War of Logistics* Charles R Shrader meticulously examines both French Union and Viet Minh logistical units during the period of active conventional warfare as well as external support provided to the French by the United States and to the Vietnamese by China Although the Vietnamese had few advantages over their opponents their military leaders brilliantly employed a highly committed network of soldiers and civilians outfitted to accommodate the challenging terrain on which they fought Drawing on extensive research such as declassified intelligence documents the reports of French participants and accounts by Viet Minh leaders including Vo Nguyen Giap and Ho Chi Minh *A War of Logistics* provides in depth coverage of the often ignored but critically important topic of logistics in modern military campaigns
