Re-living Britain in the 1940s Robin Wichard, 2023-01-24 The 1940s remains an iconic period in world history and retains a fascination for so many Re enacting the 40s is becoming increasingly popular but there is little available information explaining how to start in the hobby This book is the first to offer enthusiasts of the 40s a way to advance their interest whether it be military or civilian Each chapter deals with a different aspect of re enacting from civilian roles including children to military roles with many different potential impressions explored for each area Each chapter is lavishly illustrated with many previously unseen color photographs of contemporary re enactors and events There are further chapters introducing those people who portray wartime political and military leaders as well as those who bring back to life some of the most iconic musicians and

performers of the period For those choosing to enter the hobby through ownership of a civilian or military vehicle that is also covered with many examples of some of the most well known vehicles Each chapter offers a brief contextual history with detailed notes on where to obtain uniform and equipment some of the best groups to join as well as links to related sites and recommendations for wider reading No book can cover every single possible role but this offers an excellent starting point for further research and involvement while stressing the need to always remain respectful of those we seek to commemorate

The Gas Mask in Interwar Germany Peter Thompson,2023-05-25 A history of the gas mask in Germany from first use in combat in 1915 to the eve of the Second World War Peter Thompson traces how the development and proliferation of chemical protective technologies like the gas mask produced new subjective relationships to danger risk management and mastery in the modern age of mass destruction

At Home and under Fire Susan R. Grayzel,2012-01-09 Although the Blitz has come to symbolize the experience of civilians under attack Germany first launched air raids on Britain at the end of 1914 and continued them during the First World War With the advent of air warfare civilians far removed from traditional battle zones became a direct target of war rather than a group shielded from its impact This is a study of how British civilians experienced and came to terms with aerial warfare during the First and Second World Wars Memories of the World War I bombings shaped British responses to the various real and imagined war threats of the 1920s and 1930s including the bombing of civilians during the Spanish Civil War and ultimately the Blitz itself The processes by which different constituent bodies of the British nation responded to the arrival of air power reveal the particular role that gender played in defining civilian participation in modern war
