Dimensions of the Fantastic Daniel Ferreras Savoye,2023-05-29 Not to be confused with fantasy or the supernatural the fantastic is in actuality its own beast and perhaps the most deeply frightening of all narrative modes From Dracula and Nightmare on Elm Street to Carrie and Them the fantastic has become an ideal vehicle to denounce deep cultural dysfunctions that affect not only the way we understand reality but also how we construct it This work studies the various dimensions of the fantastic mode examining the influences of iconic authors such as H P Lovecraft and Jean Ray and addressing key narrations such as Guy de Maupassant's The Horla and Jordan Peele's Get Out It explains why the fantastic is not about ghosts or monsters but about the incomprehensible sides of our own reality and the terrifying unknown **The Mammoth Book of Cthulhu** Paula Guran,2016-04-14 For more than 80 years H P Lovecraft has inspired writers of horror and supernatural fiction with his dark vision of humankind's insignificant place in a vast uncaring cosmos At the time of his death in 1937 Lovecraft was virtually unknown but from early cult status his readership expanded exponentially his nightmarish visions laying down roots in the collective imagination of his readers Now this master of the macabre is accepted as part of the literary mainstream as an American author of note and the impact of his work on modern popular culture in literature film television music the graphic arts gaming and theatre has been profound As Stephen King wrote in Danse Macabre the shadow of H P Lovecraft underlies almost all of the important horror fiction that has come since Today Lovecraft's themes of cosmic indifference the utter insignificance of humankind minds invaded by the alien and the horrors of history remain not only viable motifs for modern speculative fiction but are more relevant than ever as we explore the mysteries of a universe in which our planet is infinitesimal This outstanding anthology of original stories from both established award winning authors and exciting new voices collects tales of cosmic horror inspired by Lovecraft from authors who do not merely imitate but reimagine re energize and renew the best of his concepts in ways relevant to today's readers to create fresh new fiction that explores our modern fears and nightmares From the depths of R Lyeh to the heights of the Mountains of Madness some of today's best weird fiction writers traverse terrain created by Lovecraft and create new
