Responsible Selves Women In The Nordic Legal Culture:

Responsible Selves Kevat Nousiainen, Asa Gunnarsson, Johanna Niemi-Kiesilinen, Karin Lundström, 2018-12-20 This title was first published in 2001 In the Nordic countries women are considered equal to men Advanced social and economic rights are often given as the explanation for the equality In this volume Nordic feminist legal scholars give a more contradictory image of gender equality The gendered construction of the legal subject and the legal understanding of gender have a two pronged potential both to change and to reproduce gender relations Nordic women have been considered responsible for upholding the gendered social system as responsible selves rather than as individuals engaged in rights discourse The authors claim with examples that the belief in equality has made certain discriminative practices difficult to recognize and conceptualize Also a transformation of the social welfare system puts the collective equality policies to the test **Nordic**

Law in European Context Pia Letto-Vanamo, Ditlev Tamm, Bent Ole Gram Mortensen, 2018-12-12 Nordic law is often referred to as something different from other legal systems At the same time it is a common belief that the Nordic countries share more or less the same legal tradition and are very similar in their approach to the law Considering both of these points of view the book tells a story of how Nordic law and Nordic legal thinking differ from other legal systems and how there are many particularities in the law of each of the Nordic countries making them different from each other The idea of Nordic law also conceals national features The basic premise of the book is that even if strictly speaking there is no such thing as a Nordic common law it still makes sense to speak of Nordic law and that acquiring a more than basic knowledge of this law is interesting not only for comparative lawyers but also helpful for those working with Nordic lawyers and dealing with questions involving law in the Nordic countries *Prostitution Policy in the Nordic Region* May-Len Skilbrei, Charlotta Holmström, 2016-04-08 There is great interest internationally in the development of prostitution policies in the Nordic countries after Sweden Norway and Iceland have introduced general bans against buying sex whilst selling sex remains legal In addition there is a partial ban against buying sex in Finland This is a different approach from that of several other European countries where we have seen a decriminalisation of third party involvement in prostitution as well as to that of the USA which criminalises both the buying and selling of sexual services Thus the Nordic countries are often treated as representatives of a Nordic model of prostitution policies In this book the first on the subject Skilbrei and Holmström argue that these models of policies or policy regimes tend to ignore the trajectories contexts and consequences of the full range of approaches to prostitution thus they are too simplistic and static Prostitution policies in the Nordic countries are multifaceted and dynamic and cannot be represented as following a straight path and detached from empirical contexts Their analysis treats Nordic prostitution policies both as a product of history of current national and Nordic debates and of international obligations and changes in the international and national prostitution markets Furthermore they argue that a broad understanding of the relevant context is necessary so as to place Nordic prostitution policies within broader policy

concerns related to gender class ethnicity sexuality social welfare immigration and organised crime as well as to neoliberal forms of governance *Nordic Equality at a Crossroads* Eva-Maria Svensson, 2019-06-04 Originally published in 2004

Nordic Equality at a Crossroads makes a major contribution to the debates on equality and difference in contemporary Europe In this absorbing work feminist legal scholars from four Nordic countries provide a critical account of the latest legal policies in these countries linked with gender in equality such as public financing of children s homecare regulation of the labour market towards substantive equality and the reforms concerning violence against women These issues are matters of concern everywhere in Europe and the solutions adopted in the Nordic countries will be of interest to all policy makers The increasing multiculturalism and the shift toward greater market orientation however have challenged the traditional Nordic equality policies The authors argue that a structural and contextual analysis of inequality also in the field of law is necessary to encounter the challenge of pluralism *Nordic Equality and Anti-Discrimination Laws in the Throes of Change* Anne Hellum, Ingunn Ikdahl, Vibeke Strand, Eva-Maria Svensson, 2023-08-18

The Nordic states were among the first in the world to enact general gender equality and anti discrimination laws with low threshold enforcement mechanisms Today the Nordic countries top the World Economic Forum s Gender Gap Index but they have still not succeeded in closing the gender gap This book draws a diverse and complex picture of the long uneven and unfinished process towards substantive equality in four Nordic countries Sweden Finland Norway and Iceland It presents the Nordic gender equality model s systematic use of three measures overarching gender policies legislation that has an explicit or implicit impact on gender relations and gender equality and anti discrimination laws with low threshold enforcement systems What potentials and limitations do the Nordic gender equality and anti discrimination law regimes have to combat individual discrimination and structural inequality Can these regimes function as a driver of political legal economic cultural and social change and as a corrective to laws policies and practices that uphold existing inequalities and if so to what extent Can weaknesses in the equality and anti discrimination laws and the way they are enforced hamper efforts to close remaining gender gaps Rather than looking at the Nordic gender equality laws and policies in isolation the book situates their development and transformative potential within a changing European and international political and legal landscape *Legal Stagings* Kjell Å Modéer, Martin Sunnqvist, 2012

In this book a group of lawyers and legal historians help to identify the new Nordic legal map which is under construction This book is a collection of papers addressing legal staging and most of the articles combine theoretical approaches to the visibility of law with practical experiences and effects The texts show that law is so much more than law in action and law in books law is also part of a visual culture It contributes to that culture and is in turn analyzed maintained and criticized by that culture At the same time the cultural manifestations of law change the way we understand law and thus change law itself **Exploiting the Limits of Law** Åsa Gunnarsson, Eva-Maria Svensson, 2016-04-22

Moving beyond the question of whether an area of scholarly investigation can truly be characterized as legal *Exploiting the Limits of Law*

combats the often unhelpful constraints of law's subject matter and formal processes Through a process of reflection on the limits of law and repeated efforts to redraw them this book challenges the general sense of pessimism among feminists and others about the usefulness of law as an instrument of change The work combines theoretical analysis of the law's boundaries with investigation of the practical settings for changing legal and policy environments Both the empirical focus of this volume and its underlying theoretical concern with the limits of the law and its gender implications render it of interest to legal scholars throughout the world whether of EU law feminism social policy or philosophy *European Perspectives on Attrition in Sexual Offenses* Rahime Erbas, 2023-07-17 Many factors contribute to attrition in sexual offense cases from victim reluctance to systemic barriers This book examines the attrition of sexual offenses across seven countries Bosnia and Herzegovina Germany Italy Spain Sweden the UK and Türkiye Using various jurisdictions and legal systems sheds light on how those systems' distinctive features impact investigation and adjudication Through the critical analyses of various sexual offenses and statistical data *European Perspectives on Attrition in Sexual Offenses* demonstrates how cases continue to attrite through their journey from commencement to the finalization within the European criminal justice systems This book would be of interest to scholars studying criminology criminal justice and law as well as practitioners within the criminal justice and legal professions

The Marital Economy in Scandinavia and Britain 1400-1900 Maria Ågren, 2017-03-02 Marriage today is our prime social and legal institution Historically it was also the principal economic institution This collection of essays offers a wealth of original research into the economic social and legal history of the marital partnership in northern Europe over a 500 year period Erickson's introduction explores the concept of the marital economy and sketches the legal and economic background across the region Chapters by Greta Gudrun Andersson Agnes Arnsdóttir Inger Döcker Elizabeth Ewan Rosemarie Fiebranz Catherine Frances Hanne Johansen Ann Catrin Ståhlman Anu Pylkkänen Hilde Sandvik and Jane Whittle are organized according to the three economic stages of the marital life cycle forming the partnership managing the partnership and dissolving the partnership In conclusion Michael Roberts explores how the historical development of modern economic theory has removed marriage from its central position at the heart of the economy

Rape in the Nordic Countries Marie Bruvik Heinskou, May-Len Skilbrei, Kari Stefansen, 2019-10-29 The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780429467608> has been made available under a Creative Commons Attribution NonCommercial No Derivatives 4.0 license While the Nordic countries are listed at the top in most international rankings of gender equality and citizens' feelings of security studies on the prevalence of sexual victimisation present a different picture suggesting that the very countries that have invested much in establishing gender equality actually see a high prevalence of sexual violence This book sheds light on the phenomenon and construction of rape and other forms of sexual violence within the Nordic region exploring the ways in which rape and sexual violence are dealt with through criminal law and considering governmental policies aimed at combatting it with a special focus on legal regulations and

developments Thematically organised it offers new research on perpetrators victimhood criminal justice and prevention Multi disciplinary in approach it brings together the latest work from a range of scholars to offer insights into the situation in the five Nordic countries asking how and why rape and other forms of sexual violence occur whilst also addressing the timely issues of online sexual cultures BDSM and the grey areas of sexual offences As such it will appeal to scholars of sociology criminology and law with interests in gender and sexual violence
