Restorative Justice Prison As Hell Or A Chance For Redemption:

Restorative Justice Jennifer Furio, 2002 America keeps expanding its prisons despite the lack of any credible evidence to show that this punitive view of justice provides safer communities and reduces crime But how is this justice system serving us This book is an introduction to the concept and practice of restorative justice by Jennifer Furio who captured America's heart with her letter exchanges with murderers Proceedings of the International Conference on Law, Economic & Good Governance (IC-LAW 2023) Abdul Kadir Jaelani, Irwansyah Irwansyah, Fokke Fernhout, Agus Raharjo, Mohd Rizal Palil, Hilaire Tegnan, Okid Parama Astirin, Sutarno Sutarno, Venty Suryanti, Pranoto Pranoto, Robbi Rahim, 2024-02-21 This is an open access book The position of Indonesia and most countries in IMF calculations facing the same challenges Each country requires the legal instruments of a good and reliable system of Government to guard against the worst possible economic turmoil Good governance is an insistence of the constitution in the economic Article 33 paragraph 5 subsequently published Constitution Number 30 Year of 2014 on Government Administration contains 17 principles of a good governance One of the important points of the principle is a government without corruption and manipulation of policy concepts in order to provide access to consolidation in politics and economy The latest Transparency International report for 2023 shows that Indonesia's corruption perception index was recorded at 34 points on a scale of 0 100 in 2022 This is a 4 point decrease from the previous year This decline in the CPI also brought down the ranking of Indonesia's CPI globally It was noted that Indonesia's CPI in 2022 ranked 110th In the previous year Indonesia's CPI was ranked 96th globally Good Governance is all aspects related to the control and supervision of the power of the Government in carrying out its functions through formal and informal institutions To implement the principles of Good Governance and Clean Government the Government must implement the principles of accountability and efficient resource management Good and clean governance will contribute to economic growth and economic growth will have an impact on human development During the last decades of 20th century the needs for a good governance has given some impacts and became a recurring theme in literature related to human development The intervention of government or the quality of government become crucially important in relation to the high achievement of human development Whereas an effort in improving society's welfare is through economic development One of dominant aspects in economic development is through legal development Good law or policy in such country will have some impacts to the existence of good economic growth because supremacy of law is one aspect of a good governance Law supremacy is an important institution which is related to economic growth because rule of law ensures personal safety property rights unbiased contract enforcement stability of politics freedom of speech and control of corruption According to those various issues and debates on economic legal development and good governance then the Doctoral Program of the Faculty of Law Sebelas Maret University needs to hold an international conference as a place in exchanging some academic ideas in order to contribute to those legal issues with a theme INTERNATIONAL CONFERENCE ON LAW ECONOMICS

AND GOOD GOVERNANCE

In the Sphere of the Personal: New Perspectives in the Philosophy of Persons James

Beauregard, Simon Smith, 2016-05-01 The papers in this collection were originally presented at the 13th International Conference on Persons held at the University of Boston in August 2015 This biennial event founded by Thomas O Buford and Charles Conti in 1989 attracts a host of international scholars both the venerable and the aspiring It is widely regarded as the premier event for those whose research concerns the philosophical tradition known as personalism That tradition is perhaps best known today in its American and European manifestations although there remains a small but fiercely defended stronghold in Britain Personalism is not an exclusively Western development however its roots are also found in India China and Japan What unites these disparate intellectual cultures may seem quite small There is little if any methodological or doctrinal consensus among them They are all however responses to the impersonal and depersonalising forces perceived to be at work in philosophy theology and most recently the natural and political sciences Their common aim is to place persons at the heart of these discourses to defend the idea that persons are the metaphysical epistemological and moral bottom line the vital clue to knowledge of self reality and all conceivable values The authors in this collection do not simply reflect upon this tradition they put it to work on a range of philosophical and theological problems both classical and contemporary problems of free will personal identity and the nature of reality as well as the very current concerns of environmental philosophers bio and neuro ethicists Their perspectives too are many and varied so offer profound insights into key debates among other philosophical traditions such as the Kantian Hegelian phenomenological and process schools
