Peter B. Lavelle

Sheng Shi Wei Yan Hou Bian 15 Juan Volume 8 Chinese Edition:

The Profits of Nature Peter B. Lavelle, 2020-03-03 In the nineteenth century the Qing empire experienced a period of profound turmoil caused by an unprecedented conjunction of natural disasters domestic rebellions and foreign incursions The imperial government responded to these calamities by introducing an array of new policies and institutions to bolster its power across its massive territories In the process Qing officials launched campaigns for natural resource development seeking to take advantage of the unexploited lands waters and minerals of the empire's vast hinterlands and borderlands In this book Peter B Lavelle uses the life and career of Chinese statesman Zuo Zongtang 1812-1885 as a lens to explore the environmental history of this era Although known for his pacification campaigns against rebel movements Zuo was at the forefront of the nineteenth century quest for natural resources Influenced by his knowledge of nature geography and technology he created government bureaus and oversaw state funded projects to improve agriculture sericulture and other industries in territories across the empire His work forged new patterns of colonial development in the Qing empire's northwest borderlands including Xinjiang at a time when other empires were scrambling to secure access to resources around the globe Weaving a narrative across the span of Zuo's lifetime *The Profits of Nature* offers a unique approach to understanding the dynamic relationship among social crises colonialism and the natural world during a critical juncture in Chinese history between the high tide of imperial power in the eighteenth century and the challenges of modern state building in the twentieth century

Imagining the People Joshua A. Fogel, Peter Gue Zarrow, 1997-10-20 Chinese mainland and Taiwan European Japanese Canadian and North American scholars address a subject of increasing interest in modern Chinese and world history the emergence of a modern citizenry While much attention has focused to date on the rise of the modern Chinese nation little or none has been directed at the important concomitant element of a politically active citizenry and what that might mean in a Chinese context After a detailed introduction by the editors on this theme in Western and East Asian theory and practice each essay examines a thinker or group of thinkers from the crucial transition period in modern China 1890-1920 and assesses their views on how China might forge a modern society with a participatory political citizenry

Confucianism and Sacred Space Chin-shing Huang, 2020-12-01 Temples dedicated to Confucius are found throughout China and across East Asia dating back over two thousand years These sacred and magnificent sanctuaries hold deep cultural and political significance This book brings together studies from Chin-shing Huang's decades long research into Confucius temples that individually and collectively consider Confucianism as religion Huang uses the Confucius temple to explore Confucianism both as one of China's three religions with Buddhism and Daoism and as a cultural phenomenon from the early imperial era through the present day He argues for viewing Confucius temples as the holy ground of Confucianism symbolic sites of sacred space that represent a point of convergence between political and cultural power Their complex histories shed light on the religious nature and character of Confucianism and its status as official religion in imperial China

Huang examines topics such as the political and intellectual elements of Confucian enshrinement how Confucius temples were brought into the imperial ritual system from the Tang dynasty onward and why modern Chinese largely do not think of Confucianism as a religion A nuanced analysis of the question of Confucianism as religion Confucianism and Sacred Space offers keen insights into Confucius temples and their significance in the intertwined intellectual political social and religious histories of imperial China

The Beauty and the Book Ellen Widmer, 2020-03-23 Women entered the book trade in significant numbers in China during the late sixteenth century when it became acceptable for women from good families to write poetry and seek to publish their collected poems At about the same time a boom in the publication of fiction began and semiprofessional novelists emerged This study begins with three case studies each of which probes one facet of the relationship between women and fiction in the early nineteenth century It examines in turn the prefaces written by four women for a novel about women the activities of a woman editor and writer of fiction and writings on fiction by three leading literary women Building on these case studies the second half of the book focuses on the many sequels to the Dream of the Red Chamber one of which was demonstrably written by a woman and the significance of this novel for women As Ellen Widmer shows by the end of the century women were becoming increasingly involved in the novel as critical readers writers and editors And if women and their relationship to fiction changed over the nineteenth century the novel changed as well not the least in its growing recognition of the importance of female readers

A History of Ancient Chinese Geoscience Wenheng Yang, Qinye Yang, 2025-04-30 This book studies the history of geoscience in ancient China Building on a comprehensive review of the historical development of Chinese geoscience the authors map out the trends and patterns in the development of geoscience thereby filling a research gap in this field and laying the groundwork for a systematic study of the history of Chinese geoscience The Chinese version of this book was selected as a key national book planning project under China's 12th Five Year Plan and was funded by the National Publication Foundation It also won the 6th China Outstanding Publication Award Encompassing historical accounts of both geography and geology the book explores the origin development and prosperity of ancient Chinese geoscience It introduces a wide range of topics covering a time span from the primitive societies to the Late Qing dynasty In each time period as well as discussion of the contexts topics include the mainstream schools of thought scientific discoveries and their significance scholarly works well known experts major research activities research institutes educational programmes academic journals scientific instruments and knowledge exchange The book also deals with the history of several neighbouring disciplines such as climatology cartology hydrology geomorphology and mineral petrology The authors provide an exceptionally detailed description of geoscience in embryo the forming of early knowledge of the Earth in primitive society For the first time philosophers geoscientific understanding of the world and the findings of historical mineralogy and petrology are brought to the fore supported by data from various sources including ancient literature archives and documentation archaeological sites cultural artefacts and modern experimental

evidence The novel design of contextualising each phase of development in its unique social political conditions is unprecedented and of high academic and social value Marked by its specialised interpretation and scientific rigour this work proves to be unparalleled in revealing the reciprocity between scientific innovation and societal transformation thus providing valuable lessons and inspiration for future geoscientists As a reference book on the history of geoscience it aims to provide specialist guidance for professionals in the field of geoscience geoscience historians and researchers university teachers and students in relevant disciplines and teachers of geography or science in primary or secondary schools

The Battle for Manchuria and the Fate of China Harold M. Tanner, 2013-03-18 A well organized and excellently researched work H War on one of the crucial battles of China s civil war In the spring of 1946 Communists and Nationalist Chinese were battled for control of Manchuria and supremacy in the civil war The Nationalist attack on Siping ended with a Communist withdrawal but further pursuit was halted by a ceasefire brokered by the American general George Marshall Within three years Mao Zedong s troops had captured Manchuria and would soon drive Chiang Kai shek s forces off the mainland Did Marshall as Chiang later claimed save the Communists and determine China s fate Putting the battle into the context of the military and political struggles fought Harold M Tanner casts light on all sides of this historic confrontation and shows how the outcome has been and continues to be interpreted to suit the needs of competing visions of China s past and future A genuine addition to our knowledge about this battle and the Chinese civil war in general Mark Wilkinson Virginia Military Institute
