Present Past Richard Terdiman, 2018 This book is about memory about how the past persists into the present and about how this persistence has been understood over the past two centuries Since the French Revolution memory has been the source of an intense disquiet Fundamental cultural theories have sought to understand it and have striven to represent its stresses

Memory Cultures Selma Leydesdorff, Katharine Hodgkin, 2017-07-12 In recent years memory has attracted increasing attention From analyses of electronic communication and the Internet to discussions of heritage culture to debates about victimhood and sexual abuse memory is currently generating much cultural interest This interdisciplinary collection takes a journey through memory in order to contextualize this current memory boom Memory Cultures focuses on memories outside in the many fields within which understandings of memory have been produced It focuses less on memory as an object whose inner workings are to be studied and more on memory as a concept It traces the genealogies of our contemporary Western understandings of memory through studies of the early modern arts of memory It also discusses nineteenth century evolutionary museums and the modernist explorations of artists and writers Here it explores the differences between Western and non Western concepts of the lived past and compares understandings of memory in history psychoanalysis and anthropology The volume is divided into five parts Believing the Body Propping the Subject What Memory Forgets Models of the Mind What History Forgets Memory and Time and Memory Beyond the Modern Individual essays by many of the foremost international scholars in memory studies trace memory's intimate association with identity and recognition with cities with lived time with the science of the mind with fantasy and with the media Memory Cultures will be of essential interest to those working in the fields of cultural studies history and also anthropology

Memory in Early Modern Europe, 1500-1800 Judith Pollmann, 2017-08-05 For early modern Europeans the past was a measure of most things good and bad For that reason it was also hotly contested manipulated and far too important to be left to historians alone Memory in Early Modern Europe offers a lively and accessible introduction to the many ways in which Europeans engaged with the past and practised memory in the three centuries between 1500 and 1800 From childhood memories and local customs to war traumas and peacekeeping it analyses how Europeans tried to control mobilize and reconfigure memories of the past Challenging the long standing view that memory cultures transformed around 1800 it argues for the continued relevance of early modern memory practices in modern societies

History, Memory, and the Literary Left John Lowney, 2006-10 In this nuanced revisionist history of modern American poetry John Lowney investigates the Depression era's impact on late modernist American poetry from the socioeconomic crisis of the 1930s through the emergence of the new

social movements of the 1960s Informed by an ongoing scholarly reconsideration of 1930s American culture and concentrating on Left writers whose historical consciousness was profoundly shaped by the Depression World War II and the Cold War Lowney articulates the Left's challenges to national collective memory and redefines the importance of late modernism in American literary history The late modernist writers Lowney studies most closely Muriel Rukeyser Elizabeth Bishop Langston Hughes Gwendolyn Brooks Thomas McGrath and George Oppen are not all customarily associated with the 1930s nor are they commonly seen as literary peers By examining these late modernist writers comparatively Lowney foregrounds differences of gender and sexuality race and ethnicity and social class and region while emphasizing how each writer developed poetic forms that responded to the cultural politics and socioaesthetic debates of the 1930s In so doing he calls into question the boundaries that have limited the scholarly dialogue about modern poetry No other study of American poetry has considered the particular gathering of careers that Lowney considers As poets whose collective historical consciousness was profoundly shaped by the turmoil of the Depression and war years and the Cold War's repression or rewriting of history their diverse talents represent a distinct generational impact on U S and international literary history

Memory Dmitri Nikulin, 2015-07-30 In recent decades memory has become a dominant topic in philosophy politics history science literature and the discussions of trauma and the Holocaust This volume shows how the concept of memory has been used in different historical circumstances and how it has changed throughout the history of philosophy *Martyrdom and Memory* Elizabeth Castelli, 2004-10-15 Martyrs are produced Elizabeth Castelli suggests not by the lived experience of particular historical individuals but by the stories that are later told about them And the formulaic character of stories about past suffering paradoxically serves specific theological cultural or political ends in the present *Martyrdom and Memory* explores the central role of persecution in the early development of Christian ideas institutions and cultural forms and shows how the legacy of Christian martyrdom plays out in today's world In the pre-Constantinian imperial period the conflict between Roman imperial powers and the subject Christian population hinged on competing interpretations of power submission resistance and victory This book highlights how both Roman and Christian notions of law and piety deployed the same forms of censure and critique each accusing the other of deviations from governing conventions of gender reason and religion Using Maurice Halbwachs's theoretical framework of collective memory and a wide range of Christian sources autobiographical writings martyrologies and saints' lives sermons art objects pilgrimage souvenirs and polemics about spectacle Castelli shows that the writings of early Christians aimed to create public and ideologically potent accounts of martyrdom The martyr's story becomes a usable past and a living tradition for Christian communities and an especially effective vehicle for transmitting ideas about gender power and sanctity An unlikely legacy of early Christian martyrdom is the emergence of modern martyr cults in the wake of the 1999 shootings at Columbine High School Focusing specifically on the martyr cult associated with one of the victims *Martyrdom and Memory* argues that the Columbine story dramatically

expresses the ongoing power of collective memory constructed around a process of rendering tragic suffering redemptive and meaningful In the wake of Columbine and other contemporary legacies of martyrdom s ethical ambivalence the global impact of Christian culture making in the early twenty first century cannot be ignored For as the last century s secularist hypothesis sits in the wings religion returns to center stage with one of this drama s most contentious yet riveting stars the martyr Consuming Traditions Elizabeth Outka,2009 Examples of faux authenticity abound in today s marketplace Trading on the commercial appeal of the ersatz real however is far from a twenty first century invention As Consuming Traditions investigates the allure of commodified nostalgia and the selling of the genuine article emerged as powerful forces in early twentieth century Britain Elizabeth Outka redefines the debates surrounding literary modernism and the market as she explores the marketing of authenticity a crucial but overlooked development in the history of modernity With an interdisciplinary approach that probes novels plays advertisements and architecture Consuming Traditions presents a convincing case for how the commodified authentic the selling of objects and places allegedly free of commercial taint marks a critical turn in modern culture and offers a new way to understand literary modernism and its complex negotiation of tradition and novelty Drawing on cultural studies theories of consumerism and works by Shaw Forster Woolf Joyce and others Outka examines how literature both enacted and critiqued the larger revolution in material culture BOOK JACKET
