Pdf Immigration Detention Risk Human Rights:

Immigration Detention, Risk and Human Rights Maria João Guia, Robert Koulisch, Valsamis Mitsilegas, 2016-02-24 This book offers a brand new point of view on immigration detention pursuing a multidisciplinary approach and presenting new reflections by internationally respected experts from academic and institutional backgrounds It offers an in depth perspective on the immigration framework together with the evolution of European and international political decisions on the management of immigration Readers will be introduced to new international decisions on the protection of human rights together with international measures concerning the detention of immigrants In recent years International Law and European Law have converged to develop measures for combatting irregular immigration Some of them include the criminalization of illegally entering a member state or illegally remaining there after legally entering Though migration has become a great challenge for policymakers legislators and society as a whole we must never forget that migrants should enjoy the same human rights and legal protection as everyone else [Immigration Detention in the European Union](#) Izabella Majcher, Michael Flynn, Mariette Grange, 2020-03-04 This book offers a unique comparative assessment of the evolution of immigration detention systems in European Union member states since the onset of the refugee crisis By applying an analytical framework premised on international human rights law in assessing domestic detention regimes the book reveals the extent to which EU legislation has led to the adoption of laws and practices that may disregard fundamental rights and standards While emphasizing policies and laws adopted in response to the refugee crisis the volume also shows how these policies have evolved and in many cases grown more restrictive even as the crisis has begun to recede from the borders of many European countries To sharpen awareness of contrasting developments across the region the book s country chapters are organised into geographic sections that reveal how variations in migration pressures have in some cases resulted in contrasting detention practices even as the EU directives have sought to harmonise immigration laws A critical focus of the book are the evolving domestic norms related to grounds for detention length of detention non custodial alternatives to detention the treatment of children and conditions of detention With its systematic and comparative assessment of immigration detention regimes across the EU the book will be helpful for both academics and practitioners who seek a comprehensive guide to the evolution of one of today s more important human rights dilemmas states efforts to control global migration *Immigration Detention and Social Harm* Michelle Peterie, 2024-07-31 This interdisciplinary edited collection is the first internationally to comprehensively explore the harms immigration detention imposes beyond the detainee Bringing together research from North America the UK Europe and Australia it shows how the harms immigration detention imposes ramify beyond singular bodies moments and locations reverberating through families and communities and echoing across time The book is structured in three parts Part One Human Costs examines the harms immigration detention imposes on people who are not personally incarcerated but whose lives are nonetheless entangled with detention regimes Part Two

Societal Consequences highlights the corrosive impacts of immigration detention at the societal level including the role migrant incarceration plays in naturalising and perpetuating inequalities and injustices Part Three Ending the Harm interrogates the possibilities of detention reform and detention abolition This book will be a key reference text for scholars and students in the social and behavioural sciences who are interested in immigration detention human rights and or incarceration **Human Security and Human Rights under International Law** Dorothy Estrada-Tanck, 2016-12-01

Human security provides one of the most important protections a person centred axis of freedom from fear from want and to live with dignity It is surprising given its centrality to the human experience that its connection with human rights has not yet been explored in a truly systematic way This important new book addresses that gap in the literature by analysing whether human security might provide the tools for an expansive and integrated interpretation of international human rights The examination takes a two part approach Firstly it evaluates convergences between human security and all human rights civil political economic social and cultural and constructs an investigative framework focused on the human security human rights synergy It then goes on to explore its practical application in the thematic cores of violence against women and undocumented migrants in the law and case law of UN European Inter American and African human rights bodies It takes both a legal and interdisciplinary approach recognising that human security and its relationship with human rights cuts across disciplinary boundaries Innovative and rigorous this is an important contribution to human rights scholarship

Immigration Detention Inc. Nancy Hiemstra, Deirdre Conlon, 2025-06-20 Who knew that hatred driven by racism could be so lucrative A resounding and meticulously researched expos Ravi Ragbir immigration activist and co founder of New Sanctuary Coalition A vital and troubling look at the grotesque practices of the privatized immigration detention industry Reece Jones author of *Nobody is Protected* and *White Borders* The most thorough breakdown of the immigration enforcement industrial complex that I have ever read Todd Miller journalist and author of *Build Bridges Not Walls* The United States has the largest immigration detention system in the world In the 1980s it held fewer than 5 000 people each day By 2024 that number was 39 000 and today it is increasing sharply again While Republicans are often the loudest voices against immigration the detention system expands no matter which party is in power *Immigration Detention Inc.* is a damning investigation of the ways immigration detention generates income while those imprisoned are starved sickened and exploited on a daily basis Drawing on over a decade of research and focusing on detention centers in New Jersey and New York Nancy Hiemstra and Deirdre Conlon follow the money to map public and private financial relationships and trace how detention contracts for food medical care and in facility stores are fought over to the penny By breaking down how immigration detention works they reveal a profit driven system that harms and corrupts communities across the U S At a decisive moment in history the call is clear dismantle immigration detention systems everywhere Nancy Hiemstra is the author of *Detain and Deport* *The Chaotic U S Immigration Enforcement Regime* She is Associate Professor at Stony Brook University in Long

Island New York U S Deirdre Conlon is co editor of *Carceral Spaces* and with Hiemstra of *Intimate Economies of Immigration Detention* Working in the U S and U K she is Associate Professor at the University of Leeds U K *Visiting Immigration Detention* Michelle Peterie, 2022-07-26 Michelle Peterie's revealing research offers a fresh angle on the human costs of immigration detention Drawing on over 70 interviews with regular visitors to Australia's onshore immigration detention facilities Peterie paints a unique and vivid picture of these carceral spaces The book contrasts the care and friendship exchanged between detainees and visitors with the isolation and despair that is generated and weaponised through institutional life It shows how visitors become targets of institutional control and theorises the harm detention imposes beyond the detainee As the first research in this area this book bears important witness to Australia's onshore immigration detention system and offers internationally relevant insights on immigration deterrence and the politics of solidarity

Routledge Handbook on Offenders with Special Needs Kimberly D. Dodson, 2018-05-11 Current estimates indicate that approximately 2.2 million people are incarcerated in federal state and local correctional facilities across the United States There are another 5 million under community correctional supervision Many of these individuals fall into the classification of special needs or special populations e.g. women juveniles substance abusers mentally ill aging chronically or terminally ill offenders Medical care and treatment costs represent the largest portion of correctional budgets and estimates suggest that these costs will continue to rise In the community probation and parole officers are responsible for helping special needs offenders find appropriate treatment resources Therefore it is important to understand the needs of these special populations and how to effectively care for and address their individual concerns The Routledge Handbook of Offenders with Special Needs is an in depth examination of offenders with special needs such as those who are learning challenged developmentally disabled and mentally ill as well as substance abusers sex offenders women juveniles and chronically and terminally ill offenders Areas that previously have been unexamined or examined in a limited way are explored For example this text carefully examines the treatment of gay lesbian bisexual and transgender offenders and racial and gender disparities in health care delivery as well as pregnancy and parenthood behind bars homelessness and the incarceration of veterans and immigrants In addition the book presents legal and management issues related to the treatment and rehabilitation of special populations in prisons jails and the community including police citizen interactions diversion through specialty courts obstacles and challenges related to reentry and reintegration and the need for the development and implementation of evidence based criminal justice policies and practices This is a key collection for students taking courses in prisons penology criminal justice criminology and related areas of study and an essential resource for academics and practitioners working with offenders with special needs *No Justice in the Shadows* Alina Das, 2020-04-14 This provocative account of our immigration system's long racist history reveals how it has become the brutal machine that upends the lives of millions of immigrants today Each year in the United States hundreds of thousands of people are arrested imprisoned and deported

trapped in what leading immigrant rights activist and lawyer Alina Das calls the deportation machine. The bulk of the arrests target people who have a criminal record so called criminal aliens the majority of whose offenses are immigration drug or traffic related. These individuals are uprooted and banished from their homes their families and their communities. Through the stories of those caught in the system Das traces the ugly history of immigration policy to explain how the U S constructed the idea of the criminal alien effectively dividing immigrants into the categories good and bad deserving and undeserving. As Das argues we need to confront the cruelty of the machine so that we can build an inclusive immigration policy premised on human dignity and break the cycle once and for all.

Mathematics for Health Professionals Ida Marie Martinson, G. R. Kepner, 1977

Refugee Protection in Southeast Asia Susan Kneebone, Reyvi Mariñas, Antje Missbach, Max Walden, 2024-12-01

Despite being long term hosts to refugee populations Indonesia Thailand and Malaysia are not yet part of the 1951 Refugee Convention. In all three states refugees are regulated as discretionary humanitarian exceptions to immigration legislation. With contributions from scholars within and outside the region this book promotes new thinking on protection of refugees and on resolving tensions between states actors and institutions in the region. It evaluates the key concepts of sovereignty security and humanitarianism in this context the different bases of protection by state and non state actors and the meaning of responsibility and regionalism in Southeast Asia.
