focus of the strategy to lift them and their children out of poverty but there are concerns that the Jobseekers Allowance regime is not sufficiently flexible to reflect the complexity of lone parents lives To eradicate child poverty by 2020 the Government needs a long term strategy on benefit income for those who are unable to work If benefits are uprated in line with inflation the gap between the incomes of those in work and those on benefits will only get wider as benefits will not keep pace with earnings As poverty is measured as a percentage of median earnings the implications for the 2020 target in particular are serious
