Criminal Punishment and Human Rights: Convenient Morality Adnan Sattar,2019-03-05 This book examines the relationship between international human rights discourse and the justifications for criminal punishment Using interdisciplinary discourse analysis it exposes certain paradoxes that underpin the International Bill of Human Rights academic commentaries on human rights law and the global human rights monitoring regime in relation to the aims of punishment in domestic penal systems It argues that human rights discourse owing to its theoretical kinship with Kantian philosophy embodies a paradoxical commitment to human dignity on the one hand and retributive punishment on the other Further it sustains the split between criminal justice and social justice which results in a sociologically ill informed understanding of punishment Human rights discourse plays a paradoxical role vis vis the punitive power of the state as it seeks to counter criminalisation in some areas and backs the introduction of new criminal offences and longer prison sentences in others The underlying priorities it is argued have been shaped by a number of historical circumstances Drawing on archival material the study demonstrates that the international penal discourse produced during the late nineteenth and early twentieth century laid greater emphasis on offender rehabilitation and was more attentive to the social context of crime than is the case with the modern human rights discourse *British Museum Catalogue of printed Books* ,1891
