Reproductive Disruptions Reproductive Disruptions:

Reproductive Disruptions Marcia C. Inhorn, Marcia Claire Inhorn, 2007 Based on research by leading medical anthropologists from around the world this book examines such issues as local practices detrimental to safe pregnancy and birth conflicting reproductive goals between women and men and miscommunications between pregnant women and their genetic counselors

Reproductive Endocrinology and Infertility Douglas T. Carrell, C. Matthew Peterson, 2010-03-23 Management of the modern reproductive endocrinology and infertility clinic has become very complex In addition to the medical and scientific aspects it is crucial that the modern director be aware of of incongruent fields such as marketing accounting management and regulatory issues Reproductive Endocrinology and Infertility Integrating Modern Clinical and Laboratory Practice was developed to assist the practicing reproductive endocrinologist and or laboratory director by providing an overview of relevant scientific medical and management issues in a single volume Experts in all pertinent areas present concise practical evidence based summaries of relevant topics producing a key resource for physicians and scientists engaged in this exciting field of medicine As novel technologies continue to amplify Reproductive Endocrinology and Infertility Integrating Modern Clinical and Laboratory Practice offers insight into development and imparts extra confidence to practitioners in handling the many demands presented by their work

Pregnancy and Miscarriage in Qatar Susie Kilshaw, 2020-04-16 As the bearers of the next generation in one of the richest countries in the world the social status of Qatari women is closely linked to their ability to have children Women are expected to reflect the cultural and religious values attached to motherhood and not having children puts women in a potentially vulnerable position But Qatari women must also play an essential role in reflecting the country as a centre of Arab modernity availing themselves of the new opportunities in work politics and public life This book explores the changing role of women in Qatari society and analyses how Qatari women navigate the competing expectations placed upon them Based on original interviews with pregnant women and women who have experienced miscarriage as well as interviews with doctors religious scholars and family members the book reveals how socio cultural forces shape the way miscarriage is framed and experienced It also reveals how intimate reproductive events are deeply entangled with broader societal and political issues In exploring the themes of reproduction motherhood and family relationships this unique study sheds light on the values and beliefs circulating in Qatari society and how these are mapped on to women s bodies

Inconceivable Iran Soraya Tremayne, 2022-10-14 Celebrating the 50th volume of the landmark Fertility Reproduction and Sexuality series this book offers a much needed analysis of shifting reproductive policies and practices in the Islamic Republic of Iran a society that is usually represented as either revolutionary or oppressive Instead Tremayne reflects on more than four decades of research arguing that changing reproductive behaviors on the part of ordinary Iranians must always be viewed against the backdrop of core cultural values and traditions which are often reinforced instead of radically altered by new reproductive technologies juridical opinions and state policies *The New Reproductive Order* Sarah Franklin, Marcia C. Inhorn, 2025-04-22 The transformative impact of new reproductive technologies over the past half century Both fertility

and infertility are commonly depicted as individual biological and choice dependent conditions that can be mediated by technology. In contrast, *The New Reproductive Order* documents the complex material historical and political forces that both enable and limit human reproductivity while also arguing that both fertility and infertility have become condensed symbols of wider changes to family forms, national political agendas, global economies and local environments. Combining anthropological, sociological and intersectional feminist research from across the globe, this landmark volume reveals how changing perceptions of fertility and infertility are altering how people imagine, pursue and experience reproductivity both individually and collectively. Using a comparative global methodology based on detailed case studies, *The New Reproductive Order* persuasively argues that changing perceptions of fertility and infertility are giving rise to a distinctive reproductive politics based on new models of reproductive cause and effect. This groundbreaking and sophisticated volume opens new horizons of scholarship on the relationship between fertility, infertility, reproductive technologies and social change, as well as new thinking on policy, practice and activism in the twenty-first century's new reproductive order.

Reproductive and Developmental Toxicology Ramesh C. Gupta, 2017-03-24. *Reproductive and Developmental Toxicology* Second Edition is a comprehensive and authoritative resource that provides the latest literature on this complex subject with a primary focus on three core components: parent, placenta and fetus, and the continuous changes that occur in each. Enriched with relevant references describing every aspect of reproductive toxicology, this revised and updated resource addresses the totality of the subject, discussing a broad range of topics including nanoparticles and radiation, gases and solvents, smoking, alcohol and drug abuse and metals, amongst others. With a special focus on placental toxicity, this book is the only available reference to connect the three key risk stages, also including discussions on reproductive and developmental toxicity in domestic animals, fish and wildlife. Completely revised and updated to include the most recent developments in the field, the book is an essential resource for advanced students and researchers in toxicology, as well as biologists, pharmacologists and teratologists from academia, industry and regulatory agencies. Provides a complete up-to-date integrated source of information on the key risk stages during reproduction and development. Includes new chapters covering significant developments such as dose response assessment for developmental toxicity, juvenile toxicity and neural tube defects, as well as emerging science such as stem cell application, toxicoproteomics, metabolomics, endocrine disruption, surveillance and regulatory considerations and risk assessment. Offers diverse and unique in vitro and in vivo toxicity models for reproductive and developmental toxicity testing in a user-friendly format that assists in comparative analysis.

Contemporary Ethical Dilemmas in Assisted Reproduction Françoise Shenfield, Claude Sureau, 2021-09-22. Ethical dilemmas are more common in assisted reproduction than in any other area of medicine. Providing a framework for discussing and articulating to patients the topical issues in assisted reproduction, this text examines the ever-changing interaction between ethics, society and scientific advances in the area. This third volume of ethical debates includes chapters on assisted reproduction for parents with HIV and Hep C, posthumous

reproduction and non Christian religious ethics in relation to assisted reproduction **Hormones and Reproduction of Vertebrates, Volume 1** David O. Norris, Kristin H. Lopez, 2011-05-04 This series of volumes represents a comprehensive and integrated treatment of reproduction in vertebrates from fishes of all sorts through mammals It is designed to provide a readable coordinated description of reproductive basics in each group of vertebrates as well as an introduction to the latest trends in reproductive research and our understanding of reproductive events Whereas each chapter and each volume is intended to stand alone as a review of that topic or vertebrate group respectively the volumes are prepared so as to provide a thorough topical treatment across the vertebrates Terminology has been standardized across the volumes to reduce confusion where multiple names exist in the literature and a comprehensive glossary of these terms and their alternative names is provided A complete essential and up to date reference for research scientists working on vertebrate hormones and reproduction and on animals as models in human reproductive research Covers the endocrinology neuroendocrinology physiology behaviour and anatomy of vertebrate reproduction Structured coverage of the major themes for all five vertebrate groups allows a consistent treatment for all Special chapters elaborate on features specific to individual vertebrate groups and to comparative aspects similarities and differences between them *Technologies of Reproduction Across the Lifecourse* Victoria Boydell, Katharine Dow, 2022-09-15 This book presents a dialogue between scholars on different aspects of reproductive technologies If we continue to work in disciplinary silos reproductive studies is in danger of missing and thereby reproducing the kinds of power structures that shape reproductive life
