Handbook of Reproductive Justice and Literature Beth Widmaier Capo, Laura Lazzari, 2022-09-10 This handbook offers a collection of scholarly essays that analyze questions of reproductive justice throughout its cultural representation in global literature and film. It offers analysis of specific texts carefully situated in their evolving historical, economic, and cultural contexts. Reproductive justice is taken beyond the American setting in which the theory and movement began; chapters apply concepts to international realities and literatures from different countries and cultures by covering diverse genres of cultural production including film, television, YouTube documentaries, drama, short story, novel, memoir, and self-help literature. Each chapter analyzes texts from within the framework of reproductive justice in an interdisciplinary way, including English, Japanese, Italian, Spanish, and German language literature and culture, comparative literature, film, South Asian fiction, Canadian theatre, writing, gender studies, Deaf studies, disability studies, global health, and medical humanities and sociology. Academics, graduate students, and advanced undergraduate students in Literature, Gender, Sexuality, and Women's Studies, Cultural Studies, Motherhood Studies, Comparative Literature, History, Sociology, the Medical Humanities, Reproductive Justice, and Human Rights are the main audience of the volume.

**Reproduction and Society** Carole Joffe, Jennifer Reich, 2025-05-30 The new edition of *Reproduction and Society* assembles an authoritative collection of the best scholarship on reproductive matters to help students and readers think critically and more expansively about acts of reproduction as social phenomena. The social, political, and personal meanings of reproduction have become increasingly important and surround us in the news during elections and even within popular culture. In the aftermath of the United States Supreme Court's decision to overturn a nearly 50-year-old precedent guaranteeing a constitutional right to abortion, these issues have become even more pressing. Exploring the topic from a sociological lens and drawing on influential writing from other fields including history, economics, anthropology, and medicine, editors Carole Joffe and Jennifer Reich are assured and accessible guides as they lead readers across six core thematic areas: analyzing reproductive self-determination and why it matters; from a reproductive justice perspective, the new edition examines issues related to contraception and sterilization, abortion, pregnancy, maternal-fetal conflicts, and uses of reproductive technologies. Readers will encounter classical texts that have contributed to the foundation of this exciting field, as well as more recent research that continues to push the field forward, all in the service of sharpening their understanding of why reproductive politics have been and continue to be contentious, complicated, and high stakes. Refreshed and significantly expanded with over two dozen new selections, the second edition of this reader will have wide appeal for undergraduate and graduate students who are new to the study of reproduction, both in courses that focus on the topic across different disciplines and as a supplement to courses on the family, gender, health care, social problems, and sexuality.
