Rereading East Germany Karen Leeder, 2015 The first volume in English about the German Democratic Republic GDR as a cultural phenomenon with essays by leading scholars providing a chronological and genre based overview along with close readings of individual works It addresses the history and context of GDR culture including the two decades since its decline

Rereading East Germany Karen Leeder, 2016-01-14 This volume is the first to address the culture of the German Democratic Republic GDR as a historical entity but also to trace the afterlife of East Germany in the decades since the fall of the Berlin Wall An international team of outstanding scholars offers essential and thought provoking essays combining a chronological and genre based overview from the beginning of the GDR in 1949 to the unification in 1990 and beyond with in depth analysis of individual works A final chapter traces the resonance of the GDR in the years since its demise and analyses the fascination it engenders The volume provides a rereading of East Germany and its legacy as a cultural phenomenon free from the prejudices that prevailed while it existed offering English translations throughout a guide to further reading and a chronology

German Reunification and the Legacy of GDR Literature and Culture, 2018-04-17 Since the tumultuous events of 1989 1990 writers cultural practitioners and academics have responded to reconstructed and reflected upon the process and enduring impact of German reunification This bilingual volume provides a nuanced understanding of the literature and culture of the GDR and its legacy today It explores a broad range of genres combines perspectives on both lesser known and more established writers and juxtaposes academic articles with the personal reflections of those who directly experienced and engaged with the GDR from within or beyond its borders Whether creative practitioners or academics contributors consider the broader literary and intellectual contexts and traditions shaping GDR literature and culture in a way that enriches our understanding of reunification and its legacy Contributors are Deirdre Byrnes Anna Chiarloni Jean E Conacher Sabine Egger Robert Gillett Frank Thomas Grub Jochen Hennig Nick Hodgkin Frank H rnigk Therese H rnigk Gisela Holfter Jeannine Jud Astrid K hler Marieke Krajenbrink Hannes Krauss Reinhard Kuhnert Katja Lange M ller Corina L we Hugh Ridley Kathrin Schmidt Postsocialist Memory in Contemporary German Culture Michel

Mallet, Maria Mayr, Kristin Rebien, 2024-08-06 Scholarship on Eastern Europe after 1989 often focuses narrowly on the socialist past as authoritarian dictatorial or totalitarian This collection by contrast illuminates an additional dimension of post socialist memory it traces the survival of hopes and dreams born under socialism and the legacy of the unrealized alternative futures embedded within the socialist past Looking at contemporary German language literature film theater and art the volume analyzes reflections on everyday socialist realities as well as narratives of opposition and dissent The texts discussed here not only revisit the past but also challenge the present and help us imagine alternative futures Rather than framing the unrealized futures envisioned in the pre 1989 era as failures this collection probes post socialist memory for its future oriented potential to rethink issues of community equity and equality and late stage capitalism Foregrounding the

complexities of Eastern European legacies also helps us reimagine the relationship between East and West both in Germany and in Europe as a whole

Remapping Cold War Media Alice Lovejoy, Mari Pajala, 2022-06-21 Why were Hollywood producers eager to film on the other side of the Iron Curtain How did Western computer games become popular in socialist Czechoslovakia's youth paramilitary clubs What did Finnish commercial television hope to gain from broadcasting Soviet drama Cold War media cultures are typically remembered in terms of an East West binary emphasizing conflict and propaganda Remapping Cold War Media however offers a different perspective on the period illuminating the extensive connections between media industries and cultures in Europe's Cold War East and their counterparts in the West and Global South These connections were forged by pragmatic technological economic political and aesthetic forces they had multiple at times conflicting functions and meanings And they helped shape the ways in which media circulates today from film festivals to satellite networks to coproductions Considering film literature radio photography computer games and television Remapping Cold War Media offers a transnational history of postwar media that spans Eastern and Western Europe the Nordic countries Cuba the United States and beyond Contributors draw on extensive archival research to reveal how media traveled across geopolitical boundaries the processes of translation interpretation and reception on which these travels depended and the significance of media form content industries and infrastructures then and now

Screening Art Seán Allan, 2019-02-18 With internationalist aspirations and wide ranging historical perspectives East German films about artists and their work became hotly contested spaces in which filmmakers could look beyond the GDR and debate the impact of contemporary cultural policy on the reception of their pre-war cultural heritage Spanning newsreels documentaries and

feature films *Screening Art* is the first full length investigation into a genre that has been largely overlooked in studies of DEFA the state owned Eastern German film studio As it shows artist films played an essential role in the development of new paradigms of socialist art in postwar Europe *Writing in Red* Thomas W. Goldstein, 2017 In the German Democratic Republic words and ideas mattered both for legitimizing and criticizing the regime No wonder then that the ruling SED party created a Writers Union to mold what writers publicly wrote and said Its chief task was ideological creating a socialist and antifascist culture But it was also supposed to advance its members professional interests and enable them to act as public intellectuals with a say in the direction of socialism Many writers demanded that it pursue this second function as well which brought it into conflict with the SED This book explores how the union became a site for the contestation of writers roles in GDR society with consequences well beyond the literary community Union leaders pressured by the SED or the secret police usually acquiesced in enforcing regime demands but by the 1980s many authors had adapted to the rules of the game exploiting their union membership to insulate themselves from reprisal for their carefully worded critiques and in so doing beginning to break down limitations on public speech The book explores how and why in the 1970s the Writers Union helped normalize relations between writers and state yet over the course of the 1980s inadvertently aided the expansion of permissible speech ultimately helping destabilize the East German system Thomas W Goldstein is Assistant Professor of History at the University of Central Missouri **The German Democratic Republic** Ned Richardson-Little, 2025-07-24 The German Democratic Republic has come to stand as a symbol of communist tyranny a source of Cold War nostalgia and socialist kitsch and a failed alternative to the worst excesses of 21st century capitalism In this book Ned Richardson Little delves into the central contradictions of the GDR state This book illustrates the fault lines of GDR society the worldviews and experiences of not only those who ruled the GDR but also those who rebelled against the strictures of state socialism and those in between who sought a normal life under dictatorship The German Democratic Republic is a succinct and comprehensive history of East Germany that traces its story from the country s origins as the Soviet Zone of Occupation after World War II through key events such as the 1953 Uprising the building of the Berlin Wall the Helsinki Accords and the collapse of state socialism in 1989 Some of the themes explored include the memory of Nazism and national identity everyday life under dictatorship including consumerism sexuality and racism the global politics of the GDR the diversity of dissenting voices and the competing visions for East Germany s democratic future *Contested Selves* Katja Herges, Elisabeth Krimmer, 2021 Investigates the field of German life writing from Rahel Levin Varnhagen around 1800 to Carmen Sylva a century later from D blin Becher women s WWII diaries German Jewish memoirs and East German women s interview literature to the autofiction of Lena Gorelik
