Researching Japanese War Crimes Records Introductory Essays:

Researching Japanese War Crimes Records: Introductory Essays , Japanese war crimes committed in Asia and the Pacific between 1931 and 1945 concerned few Americans in the decades following World War II Japan's crimes against Asian peoples had never been a major issue in the postwar United States and with the notable exceptions of former U S prisoners of war held by the Japanese even remembrance of Japanese wartime atrocities against Americans dimmed as years passed American attitudes about Japanese war crimes changed markedly following the 1997 publication of Iris Chang's *The Rape of Nanking* 2 Chang's moving testament to the Chinese victims of the sack of Nanjing in 1937 graphically detailed the horror and scope of the crime and indicted the Japanese government and people for their collective amnesia about the wartime army's atrocious conduct The bestselling book spurred a tremendous amount of renewed interest in Japanese wartime conduct in China Korea the Philippines Southeast Asia and the Pacific The Rape of Nanking raised many issues that demanded further explanation Why were the Japanese not punished as severely as the Nazis for their crimes Did the United States suppress evidence of the criminal responsibility of activity by the emperor to ensure a smoothly running occupation of Japan Did the U S government protect Japanese medical officers in exchange for data on human experimentation Chang also charged the U S government with inexplicably and irresponsibly returning confiscated wartime records to Japan before microfilming them making it impossible to determine the extent of Japan's guilt 3 Others were convinced that the U S government retained highly classified documents that would prove Japanese guilt beyond doubt and implicate the highest levels of Japanese government and society in the crimes These issues led concerned parties to investigate Japanese wartime records among the holdings at the U S National Archives and Records Administration NARA in College Park Maryland and at other U S government agencies Thorough documentation of Japanese war crimes and criminal activities among these holdings seemed unavailable leading to speculation of an official cover up Suspicions that the U S government was deliberately concealing dark secrets were fueled when instead of finding the records they sought researchers encountered a card stating the records had been withdrawn for security reasons as well as when they received a notice that requested information could not be located

Researching Japanese War Crimes Records Edward J. Drea, 2006 **Japanese War Crimes during World War II** Frank Jacob, 2018-06-08 A challenging examination of Japanese war crimes during World War II offers a fresh perspective on the Pacific War and a better understanding of reasons for the wartime use of extreme mass violence The 1937 Rape of Nanjing has become a symbol of Japanese violence during the Second World War but it was not the only event during which the Japanese used extreme force This thought provoking book analyzes Japan's actions during the war without blaming Japan helping readers understand what led to those eruptions In fact the author specifically disputes the idea that the forms of extreme violence used in the Pacific War were particularly Japanese The volume starts by examining the Rape of Nanjing then goes on to address Japan's acts of individual and collective violence throughout the conflict Unlike other works on the

subject it combines historical sociological and psychological perspectives on violence with a specific study of the Japanese army seeking to define the reasons for the use of extreme violence in each particular case Both a historical survey and an explanation of Japanese warfare the book scrutinizes incidents of violence perpetrated by the Japanese vis vis theories that explore the use of violence as part of human nature In doing so it provides far reaching insights into the use of collective violence and torture in war overall as well as motivations for committing atrocities Finally the author discusses current political implications stemming from Japan s continued refusal to acknowledge its war time actions as war crimes

Men to Devils, Devils to Men Barak Kushner, 2015-01-05 The Japanese Army committed numerous atrocities during its pitiless campaigns in China from 1931 to 1945 Focusing on the trials of Japanese war criminals Barak Kushner analyzes the political maneuvering and propagandizing in both China and Japan that would roil East Asian relations throughout the Cold War with repercussions still felt today

Japanese Spy Gear & Special Weapons Stephen C. Mercado, 2025-10-30 Uncovers Japan s secret Noborito Research Institute detailing its wartime spy gear weapons and postwar influence The technicians of the 9th Military Technical Research Institute known as the Noborito Research Institute toiled in the shadows of the Second World War to develop spy gear and special weapons for the Imperial Japanese Army IJA Their espionage devices including secret inks bugging devices and miniature cameras helped the Army s dreaded Kempeitai and the shadowy Yama Agency counter foreign spies and track domestic dissent Operatives of the IJA s Nakano School for intelligence operatives and commandos took the equipment into the field with them Noborito s forgers reproduced Chinese currency in an operation to wreck China s economy Scientists and technicians tested biological weapons on Chinese prisoners as part of a top secret project fielded by the IJA s infamous Unit 731 and developed a virus into a weapon to strike at America s cattle herds Others developed bombing balloons to attack the American heartland a target that lay far beyond Japan s reach by conventional means Stephen Mercado provides in this first book in English on an intelligence organization little known outside Japan an absorbing account of Noborito s activities The author further recounts how in the shadows of Occupied Japan Noborito veterans entered US military service in secret then applied their skills to operations during the Korean War and for years afterwards in the Cold War Other veterans applied their skills to rebuilding Japan and turning the vanquished empire into a postwar industrial power This story is one of talented technicians who served their country in war and peace

The Politics of War Memory in Japan Kamila Szczepanska, 2014-05-09 Since the 1990s questions of Japanese wartime conduct apologies for aggression and compensation to former victims of the country s imperial policies have been brought to the fore of national and regional politics The state is undoubtedly the most important actor in the process of memory production and along with conservative legislators and the grass root revisionist movement there has been a consistent trend towards denying or undermining the existing acknowledgments of responsibility for Japan s wartime past However to fully comprehend war memory in Japan due attention must be paid to competing discourses that demand an alternative view and only then can the complexity of

Japanese war memory and attitudes towards the legacies of the Asia Pacific war be understood The Politics of War Memory in Japan examines the involvement of five civil society actors in the struggle over remembering and addressing the wartime past in Japan today In studying progressive war memory activists it quickly becomes clear that the apologia by conservative politicians cannot be treated as representative of the opinion of the majority of the Japanese public Indeed this book seeks to remedy the disparity between studies devoted to the official level of addressing the history issue and the grass root historical revisionist movement on the one side and progressive activism on the other Furthermore it contributes to scholarly debates on the state of civil society in Japan challenging the characterisation of Japanese civil society as a depoliticised space by demonstrating a more contentious side of civil society activism Drawing important new empirical research this book will be of huge interest to students and scholars of Japanese civil society Japanese politics Japanese history and memory in Japan

Flee United Nations High Commissioner for Refugees, 2022-02-16 People in danger have received protection in communities beyond their own from the earliest times of recorded history The causes war conflict violence persecution natural disasters and climate change are as familiar to readers of the news as to students of the past It is 70 years since nations in the wake of World War II drew up the landmark 1951 Convention relating to the Status of Refugees People Forced to Flee marks this milestone It is the latest in a long line of publications stretching back to 1993 that were previously entitled The State of the World's Refugees The book traces the historic path that led to the 1951 Convention showing how history was made by taking the centuries old ideals of safety and solutions for refugees to global practice It maps its progress during which international protection has reached a much broader group of people than initially envisaged It examines international responses to forced displacement within borders as well as beyond them and the protection principles that apply to both It reviews where they have been used with consistency and success and where they have not At times the strength and resolve of the international community seems strong yet solutions and meaningful solidarity are often elusive Taking stock today at this important anniversary is all the more crucial as the world faces increasing forced displacement Most is experienced in low and middle income countries and persists for generations People forced to flee face barriers to improving their lives contributing to the communities in which they live and realizing solutions Everywhere an effective response depends on the commitment to international cooperation set down in the 1951 Convention a vision often compromised by efforts to minimize responsibilities There is growing recognition that doing better is a global imperative Humanitarian and development action has the potential to be transformational especially when grounded in the local context People Forced to Flee examines how and where increased development investments in education health and economic inclusion are helping to improve socioeconomic opportunities both for forcibly displaced persons and their hosts In 2018 the international community reached a Global Compact on Refugees for more equitable and sustainable responses It is receiving deeper support People Forced to Flee looks at whether that is enough for what could and should help define the next 70 years
