A Viewing Guide to the Pandemic Richard Scheib, 2020-01-01 I have had a headache all day I am afraid of what will happen next A Viewing Guide to the Pandemic is a film book like no other It opens with the author's first hand account of the Covid 19 pandemic and life in lockdown His sense of dread and anxiety about his state of health were experiences shared with millions of others across the world Already committed to writing a book about plagues and pandemics in popular culture Covid 19 felt like a perverse twist of fate for Richard Scheib Media depictions of deadly contagions had to this point been speculative and often off the mark his book takes an in depth look at what filmmakers imagined would happen and contrasts it with the reality International in scope the book examines films in a wide variety of genres from the silent era to the present day Black Death Ebola Mad Cow Disease Bird Flu it explores fictionalized accounts of plague and pestilence such as box office hit Outbreak 1995 as well as mockumentary treatments Whether the threats depicted have a basis in reality the biowarfare of the Cold War era for instance or are more fantastical Scheib demonstrates how the fear of contagion has provided a wealth of inspiration for the big and small screen

The Pandemic Visual Regime Julia Ramírez Blanco, Francesco Spampinato, 2023 The Covid 19 pandemic has been expressed in various ways through visibility and performance and some of its more nuanced cultural implications have taken place in a realm that goes beyond words Through the exploration of the visual culture produced during and in response to the Covid 19 pandemic The Pandemic Visual Regime Visibility and Performativity in the Covid 19 Crisis highlights the key role played by images in shaping our understanding of the epochal transformations our society is undergoing This book argues that visibility and its relationships with the performative have played such a significant role in the Covid 19 pandemic that we can even speak of the emergence of a pandemic visual regime a new way of seeing and representing the world under this global emergency Through an interdisciplinary framework The Pandemic Visual Regime aims to answer an array of questions In which ways have the effects of the pandemic been racialized thereby reinforcing white supremacy How are our responses to Covid 19

shaped by the Hollywood outbreak narrative of films such as Contagion How has design responded to our new pandemic needs How have infographics affected our perception In which new ways have we come to inhabit private public and virtual space Regarding the latter what changes have there been in the forms of digital surveillance On the other side of the spectrum what forms has mutual aid taken and what have been our forms of relating with nature both during lockdown and after lockdown was over All these questions open the field to rethinking the viscosity of our post pandemic zeitgeist

Year of the Nurse: A Covid-19 Pandemic Memoir Cassandra Alexander, 2021-07-19 This book is for anyone nurse or otherwise who is furious about how 2020 went down and how 2021 is going On April 25th 2021 at 10 55 in the morning I messaged my chat group of girlfriends from where I work as a nurse on an ICU floor Nothing like feeling strongly suicidal at a job where you are supposed to be keeping people alive and then tweeted that my mental health wasn't great and deleted the Twitter app off of my phone because I didn't want to overshare That I felt like dying That I would've rather died than still be at work I am not alone In 2020 there were roughly four million nurses in America Only 2 7 million U S soldiers fought in the Vietnam War Those who came back from Vietnam having witnessed atrocities and in some cases participated in them were changed forever You can't send four million people into a wartime equivalent situation without psychological consequences And yet that's what America has done Nurses spent a year battling a largely unknown assailant Running low on gear Fearing we might bring something deadly home Getting coughed on by people who pretended that our fights were imaginary that our struggles watching people die day after day no matter what we did were literally fake Nurses are scarred And unless people understand what we went through and commit to never let anyone lie in the future about public health we will never become whole Year of the Nurse A Covid 19 Pandemic Memoir is Cassandra Alexander's poignant effort to come to grips with suicidal ideation and PTSD after being a covid nurse in an ICU in 2020 Comprised of original essays and her chronological journals tweets and emails as she attempted to save lives including her own this book will let you experience last year from the bedside Come and understand what it was like
