Australian national bibliography ,1961 Training Manual on International Environmental Law ,2006 It is widely recognized that most environmental problems challenges and solutions are transboundary regional or global in scope The environment is an area where states and stakeholders are cooperating extensively and progressively This manual seeks to provide a comprehensive overview of the current body of environmental law Publisher s description **Green Australia** Steve Lancaster, 2012 Green Australia A snapshot examines the ways in which Australians are attempting to reduce their ecological footprint both at home and at work In 2009 the CO2 Energy Emissions Index found that Australia had overtaken the USA to become the largest per capita emitter of greenhouse gases in the world a legacy of dependence on coal fired power stations the widespread adoption of conventional farming techniques heavy reliance on vehicles powered by fossil fuel dirty industrial practices and a growing mountain of waste Yet in recent years there has been a growing awareness that climate change is beginning to bite the recent drought and devastating floods suggesting that more extreme weather patterns are likely unless significant steps are taken to combat global warming Using case studies and up to date research this book demonstrates that although much more needs to be done if Australia is to secure a carbon neutral future some Green shoots are beginning to emerge Residential Construction Law Philip Britton, Matthew Bell, Deirdre Ní Fhloinn, Kim Vernau, 2025-09-18 This new edition tells you all you need to know about how construction defects in homes occur how they might be prevented and how they might be cured Her Honour Frances Kirkham CBE Atkin Chambers The first edition of Residential Construction Law in 2021 offered the only systematic and analytical overview of the legal framework for residential construction Since then there have been significant legislative and caselaw developments across the UK Aotearoa New Zealand Australia and Ireland In this second edition the authors and their team of specialist contributors have completely revised the content taking these changes into account This new edition refers to more than 350 new cases along with ground breaking reforms like the UK s Building Safety Act 2022 and lessons from the September 2024 Phase 2 report of the Grenfell Tower Inquiry The book also anticipates planned reforms including sweeping changes in several Australian states The revised edition retains the book s highly accessible structure and readability making it an indispensable guide for

lawyers industry professionals and homeowners seeking to come to grips with the principles of residential construction law It also provides an essential starting point for students and practitioners needing to understand the detail of this specialist area It provides clear statements of the relevant law explaining aided by case studies diagrams text tables and a glossary the law s intended policy outcomes and techniques It also provides a critical view of areas where those goals have not been attained requiring further reform Accompanying online resources for this title can be found at bloomsbury pub residential construction law
