Esto es completamente natural ya que el ser humano es un animal social que necesita para su supervivencia y autorrealización pertenecer a un colectivo formado por otros seres humanos. Para cualquier persona la convivencia requiere combinar sus propios intereses como individuo con los intereses colectivos de los demás. A veces estos intereses coinciden pero en otros casos las necesidades individuales y las colectivas no son del todo compatibles lo que da lugar a la aparición de conflictos. El conflicto pues es una realidad cotidiana en la vida de todos nosotros en casa en el trabajo en una relación. Las necesidades y los valores de los individuos chocan constantemente entre sí. Algunos conflictos son pequeños y relativamente fáciles de superar pero otros son mayores y requieren ser abordados mediante estrategias de resolución de conflictos porque de lo contrario crean continuas tensiones y resentimientos.
