Rethinking Aging Growing Old And Living Well In An Overtreated Society:

Rethinking Aging Nortin M. Hadler, 2011 Over the past decade Hadler has established himself as a leading voice among those who approach the menu of health care choices with informed skepticism Only the rigorous demonstration of efficacy is adequate reassurance of a treatment's value he argues if it cannot be shown that a particular treatment will benefit the patient one should proceed with caution In *Rethinking Aging* Hadler offers a doctor's perspective on the medical literature as well as his long clinical experience to help readers assess their health care options and make informed medical choices in the last decades of life **Rethinking Aging** , 2011 *Rethinking Aging* *Loving Later Life* Frits de Lange, 2015-04-27 Is loving later life possible In our youth obsessed culture nobody enjoys growing old We normally fear our own aging and generally do not love old people they remind us that death is inescapable the body frail and social status transitory In *Loving Later Life* Frits de Lange shows how an ethics of love can acknowledge and overcome this fear of aging and change our attitude toward the elderly De Lange reframes the biblical love command this way We must care for the aging other as we care for our own aging selves We can encourage positive self love by embracing life as we age taking good care of our own aging bodies staying good friends with ourselves and valuing the last season of life When we cultivate this kind of self love we are released from our aversion to growing old and set free to care about others who are aging our parents our relatives and others in their final season of life *The Cambridge Handbook of Sociology: Volume 2* Kathleen Odell Korgen, 2017-08-11 Whether a student an instructor a researcher or just someone interested in understanding the roots of sociology and our social world *The Cambridge Handbook of Sociology Volume 2* is for you This second volume of the Handbook covers specialties within sociology and interdisciplinary studies that relate to sociology It includes perspectives on race class feminist theories special topics e g the sociology of nonhuman animals quality of life social indicators research the sociology of risk the sociology of disaster the sociology of mental health sociobiology the sociology of science and technology the sociology of violence environmental justice and the sociology of food the sociology of the self the sociology of the life course culture and behavior sociology's impact on society and related fields e g criminology criminal justice studies social work social psychology sociology of translation and translation studies and women and gender studies Each essay includes a discussion of how the respective subfield contributes to the overall discipline and to society Written by some of the most respected scholars teachers and public sociologists in the world the essays are highly readable and authoritative *Sod Seventy!: The Guide to Living Well* Muir Gray, 2024-11-07 Keep fit keep the brain going and with a spot of good fortune you can be living a fulfilling active life in your 70s 80s 90s and beyond Too many people think that ageing inevitably causes problems after seventy but a lot of these can in fact be postponed or prevented because they are not caused by ageing but by a loss of fitness preventable disease ageism and the negative beliefs and pessimistic attitudes that pervade society Shake off the stereotypes and empower yourself by adopting the simple actions described in this book Keep fit eat well keep your brain active and with a

spot of good fortune you can be living a rewarding active life into your eighties nineties and beyond Live better for longer and remember seventy is the end of the beginning not the beginning of the end This edition includes new chapters on The brain and the mind including dementia prevention Managing your NHS service Taking charge of your healthcare in the digital world Fighting back after lockdown Part brain and body exercise book part manifesto for a happier healthier life this book will show you how to Sod Seventy and live life to the fullest *The Poetics and Politics of Alzheimer's Disease* *Life-Writing* Martina Zimmermann, 2017-06-07 This book is open access under a CC BY 4.0 license This is the first book length exploration of the thoughts and experiences expressed by dementia patients in published narratives over the last thirty years It contrasts third person caregiver and first person patient accounts from different languages and a range of media focusing on the poetical and political questions these narratives raise what images do narrators appropriate what narrative plot do they adapt and how do they draw on established strategies of life writing It also analyses how these accounts engage with the culturally dominant Alzheimer's narrative that centres on dependence and vulnerability and addresses how they relate to discourses of gender and aging Linking literary scholarship to the medico scientific understanding of dementia as a neurodegenerative condition this book argues that first patients articulations must be made central to dementia discourse and second committed alleviation of caregiver burden through social support systems and altered healthcare policies requires significantly altered views about aging dementia and Alzheimer's patients *Ageism and Person-Centred Care* Stephen Buetow, 2024-10-14 This thought provoking book exposes the values judgements and hierarchies that underlie ageism in care settings Destabilizing the assumption that biases like ageism are always bad Buetow suggests that ageism is normatively neutral and that truly person centred care requires situated acknowledgement of and responsiveness to its negative and positive aspects Buetow contends that respecting meaningful age differences between persons as moral agents puts ageism on the radar of care environments weakening barriers to engagement His analysis moves from concern for age friendliness to prudent ageism that enables person centred care to apply practical wisdom in everyday age sensitive judgement and decision making Challenging political correctness and advocating for justice rather than social justice Buetow discusses how prudent ageism may advantage some age groups over others in particular circumstances while providing a moral structure for managing real rather than socially constructed differences Looking at how age sensitive judgments combined with a person first approach can inform research policy and practice this book will interest students and researchers from fields like health and social care and disciplines such as sociology psychology politics and philosophy **Worried Sick** Nortin M. Hadler, M.D., 2012-02-01 Nortin Hadler's clearly reasoned argument surmounts the cacophony of the health care debate Hadler urges everyone to ask health care providers how likely it is that proposed treatments will afford meaningful benefits and he teaches how to actively listen to the answer Each chapter of *Worried Sick* is an object lesson on the uses and abuses of common offerings from screening tests to medical and surgical interventions By

learning to distinguish good medical advice from persuasive medical marketing consumers can make better decisions about their personal health care and use that wisdom to inform their perspectives on health policy issues **A Return to Healing**
