Sex and the Contract Vincenzo Zeno-Zencovich, 2011-03-21 A non conventional analysis of the relationship between sexual practices and private law and of the underlying policies in the light of the growing commodification of sex *Straight Korean Female Fans and Their Gay Fantasies* Jungmin Kwon, 2019-02-15 This book is about ardent Korean female fans of gay representation in the media their status in contemporary Korean society their relationship with other groups such as the gay population and above all their contribution to reshaping the Korean media's portrayal of gay people Jungmin Kwon names the Korean female fandom for gay portrayals as FANTasy subculture and argues that it adds to the present visibility of the gay body in Korean mainstream media thus helping to change the public's perspective toward sexually marginalized groups The FANTasy subculture started forming around text based media such as yaoi fan fiction and U S gay themed dramas like Will Grace and has been influenced by diverse social political and economic conditions such as the democratization of Korea an open policy toward foreign media products the diffusion of consumerism government investment in the culture the Hollywoodization of the film industry and the popularity of Korean culture abroad While much scholarly attention has been paid to female fandom for homoerotic cultural texts in many countries this book seeks to explore a relatively neglected aspect of the subculture its location in and influence on Korean society at large *Law for Sale* Johanna Stark, 2019-02-21 Common markets open borders air traffic and the internet have made it faster and less expensive to change places and jurisdictions As a result legal forums are increasingly treated as a good that is subject to the market mechanism Individuals and corporations increasingly have free reign to choose which legal rules to apply to their company their contract their marriage or their insolvency proceedings States in turn grant these opportunities and respond to demand by competing with other suppliers of legal regimes Regulatory competition describes a dynamic in which states as producers of legal rules compete for the favour of mobile consumers of their legal products This book focuses on the philosophical underpinnings problems and consequences of such regulatory competition It argues that there is a mismatch between regulatory competition as a policy approach and the beliefs and commitments that shape our thinking about law and the state It concludes that law markets are potentially at odds with both our conception of the functions of legal rules and of key political ideals and principles such as democracy state autonomy and political authority *Medical Tourism and Inequity in India* Kristen Smith, 2022-03-28 In *Medical Tourism and Inequity in India* Kristen Smith explores Indian private hospitals and their role in the global healthcare service supply chain within various religious social cultural historical and economic contexts Drawing on critical medical anthropology theories as well as health and human rights perspectives Smith problematizes the assumed independence between the medical tourism industry the commodification of the Indian healthcare system and the local populations facing

critical health issues while highlighting the rapid transformation of healthcare services into merely another global commodity For more information check out A Conversation with Kristen Smith author of Medical Tourism and Inequity in India The Hyper Commodification of Healthcare Proceedings of the 2025 11th International Conference on Humanities and Social Science Research (ICHSSR 2025) Bootheina Majoul,Abdullah Abdullah,Sharifah Faizah Syed Mohammed,Fonny Dameaty Hutagalung,2025-08-10 This is an open access book Review ICHSSR was established in 2015 and the past five sessions have all been successfully published and indexed by CPCI we wholeheartedly welcome colleagues worldwide to join us at this momentous conference held in Beijing **Trattato di biodiritto. Localising Memory in Transitional Justice Mina Rauschenbach,Julia Viebach,Stephan Parmentier,2022-05-30 This collection adds to the critical transitional justice scholarship that calls for transitional justice from below and that makes visible the complex and oftentimes troubled entanglements between justice endeavours locality and memory making Broadening this perspective it explores informal memory practices across various contexts with a focus on their individual and collective dynamics and their intersections reaching also beyond a conceptualisation of memory as mere symbolic reparation and politics of memory It seeks to highlight the hidden unwritten and multifaceted in today s memory boom by focusing on the memorialisation practices of communities activists families and survivors Organising its analytical focal point around the localisation of memory it offers valuable and new insights on how and under what conditions localised memory practices may contribute to recognition and social transformation as well as how they may at best be inclusive or exclusive of dynamic and diverse memories Drawing on inter and multi disciplinary approaches this book brings an in depth and nuanced understanding of local memory practices and the dynamics attached to these in transitional justice contexts It will be of much interest to students and scholars of memory and genocide studies peace and conflict studies transitional justice sociology and anthropology Capitalism in the Platform Age Sandro Mezzadra,Niccoló Cuppini,Mattia Frapporti,Maurilio Pirone,2024-02-28 This open access book provides an overview of urban digital platforms such as Airbnb and Deliveroo which along with Amazon Google Facebook and other IT companies constitute by now the infrastructures for other businesses to operate on and for our social life to go on These platforms serve as standards based techno economic systems that simultaneously capture cooperation through remote coordination and organize labor via algorithm management Based on a three years research project this contributed book outlines a general theory of platform capitalism that conceives these platforms not only as technical devices but as generative engines that operate at the interface of several aspects such as digitalization of forms of social cooperation algorithm based management of labor and participation and private and vertical appropriation of profits These elements are somehow iconic of the capitalist evolution of the last decades and they open up a reflection on new forms of primitive accumulation in particular regarding data on the mechanisms used to capture and extract social surplus value and on the logistic financial dimensions of capital Finally in light of the transformations

associated with the COVID 19 pandemic the authors examine how platforms can evolve into hegemonic organizational structures Assuming we are all already living in the age of the platform this book takes a multifaceted approach combining sociology with urban studies and political sciences with economics to grasp the challenges our societies face in terms of ensuring fair economic growth adequate social protections and labor rights It will appeal to anyone interested in digital platforms and how they are changing the organization of labor urban spaces and forms of governance **Caring**

Responsibilities in European Law and Policy Eugenia Caracciolo di Torella, Annick Masselot, 2020-02-28 This book explores the emerging engagement of EU law with care and carers The book argues that the regulation of care by the EU is crucial because it enables the development of a broad range of policies It contributes to the sustainability of society and ultimately it enables individuals to flourish Yet to date the EU approach to regulating the caring relationship remains piecemeal and lacks the underpinning of a cohesive strategy Against this backdrop this book argues that the EU can and must take leadership in this area by setting principles and standards in accordance with the values of the treaty in particular gender equality human dignity solidarity and well being The book further makes a case for a stronger protection for carers who should not only be protected against discrimination but should also be supported valued and put in a position to make choices and lead full lives In order to achieve this a proactive approach to rebalancing the relationship between paid and unpaid work is necessary Ultimately the book puts forward a series of legal and policy recommendations for a holistic approach to care in the EU
