Rethinking New Testament Textual Criticism:

Rethinking New Testament Textual Criticism David Alan Black, 2002-10-01 New Testament textual criticism is an important but often overlooked field of study. Results drawn from textual studies bear important consequences for interpreting the New Testament and cannot be ignored by serious students of Scripture. This book introduces current issues in New Testament textual criticism and surveys the various methods used to determine the original text among variant readings. These essays from Eldon Jay Epp, Michael Holmes, J. K. Elliott, Maurice Robinson, and Moisés Silva provide readers with an excellent introduction to the field of New Testament textual criticism. **New Testament Textual Criticism and**

Exegesis Joël Delobel, 2002 For many years Professor Joel Delobel has served as a member of the Department of Biblical Studies of the Faculty of Theology, KU Leuven, 1969-2001. His research has tended to focus on Luke-Acts, Pauline Literature, and especially Textual Criticism; he is a member of the *Das Institut für Neutestamentliche Textforschung*, Münster. His friends and colleagues in the Department of Biblical Studies of the Faculty of Theology and elsewhere have honoured him with a *Festschrift* on the occasion of his retirement. The congratulatory volume deals with an issue that is dear to him: the mutual link between textual criticism and exegesis, which he himself once referred to as the Siamese twins. A number of international scholars in the field of textual criticism have treated different aspects of this relationship. Some contributions are of a more general nature. B. Aland deals with the criteria used to judge the value of smaller New Testament Papyrus fragments. J. Lust compares the textual critical investigation of the Old Testament to that of the New. W. L. Petersen studies the earliest form of the text of the Gospel. Other contributions are related to a specific text: Mt 21:28-32 (J. K. Elliott), Mk 16:8 (C. Focant), Lk 7:42b (T. Baarda), Lk 22:43-44 (C. M. Tuckett), Lk 24:12 (F. Neirynck), Jn 4:1 (G. Van Belle), Jn 12:31 (M. E. Boismard), Jn 16:13 (R. Bieringer), Acts 15:20-29 (J. Lambrecht), 1 Cor 2:1 (V. Koperski), The Epistle of James (D. C. Parker), Rev 13:9-10 (J. Lambrecht), and Rev 13:18 (J. N. Birdsall). J. Verheyden deals with the New Testament text in the 2nd Century, more specifically in the writings of Justin. **Rethinking New Testament Textual Criticism** David Alan Black, 2002-10 In this

concise guide leading scholars survey the discipline and present three current approaches to determining the text of the New Testament. A Student's Guide to Textual Criticism of the Bible Paul D. Wegner, 2006-03-09 In plain language and with ample illustration Paul D. Wegner presents an overview of the history and methods, aims and results of textual criticism of the whole Bible: the Hebrew Old Testament and the Greek New Testament. You will gain an appreciation for the vast work that has been accomplished in preserving the text of Scripture and find a renewed confidence in its reliability. Textual

Criticism and the New Testament Text Eberhard W. Götting, 2020-09-25 The fruit of more than three decades of research. This collection of fourteen essays by Eberhard W. Götting covers important aspects of editorial science with a particular focus on New Testament textual criticism. Essays cover textual emendation, text-critical procedures, literary criticism, history of scholarship, advantages and disadvantages of online manuscripts, and text-critical studies of words and phrases. The addition

of a substantial introduction to text criticism makes this a valuable resource for students and teachers Features Essays concerned with establishing the original text of New Testament writings Nine essays published in English for the first time Two previously unpublished essays *Perspectives on New Testament Textual Criticism, Volume 2* Eldon Jay Epp, 2020-11-30 Eldon Jay Epp's second volume of collected essays consists of articles previously published during 2006-2017 All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings More specific emphasis falls upon the nature of textual transmission and the text critical process and heavily on the criteria employed in establishing that earliest available text Moreover textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text for they have stories to tell regarding theological ethical and real life issues as the early Christian churches sought to work out their own status practices and destiny *Perspectives on New Testament Textual Criticism* Eldon Jay Epp, 2005-06-01 This collection of frequently cited articles and chapters published from 1962 to 2004 provides perspective on the history and development of New Testament textual criticism with descriptions and critique of the major text critical theories and methods Specific manuscripts and text types such as the Codex Bezae and the D text are discussed as well as issues such as anti Judaic tendencies the ascension narratives and the relationship of text and canon Many of the essays from the last fifteen years emphasize the earliest period and papyrus manuscripts particularly those found at Oxyrhynchus and assess their socio cultural and intellectual contexts while articles from the last five years advocate or engage the more controversial aspects of current New Testament textual criticism especially the issue of original text No Longer Written Ryan Donald Wettlaufer, 2013-03-01 This is an important time for textual criticism of the New Testament A fundamental re evaluation is underway of both the purpose of the discipline and the nature of the manuscripts upon which it relies The place of the controversial method of conjectural emendation is a debate that encompasses both of these issues In this study Ryan Wettlaufer explores the theory and practice of the method and then using the Epistle of James as a case study argues that conjectural emendation is an important tool that can be used to restore readings which were once found in the original text but now are No Longer Written Book jacket Changing the Goalpost of New Testament Textual Criticism Abidan Paul Shah, 2020-10-02 Before the 1960s the goal of New Testament Textual Criticism was singular to retrieve the original text of the New Testament Since then the goalpost has incrementally shifted away from the original text to retrieving any text or many texts of the NT Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with any confidence or accuracy Other scholars have gone a step further to claim that the idea of an original text itself is a misconception that needs to be abandoned If this new approach in NTTC is correct then the authority of Scripture is weakened or no longer valid It will be shown in this book that such is not the case Furthermore emphasis will be placed on the need to return to the traditional goalpost of NTTC i e to retrieve the original text Without a generally definitive text the

door will be left wide open to recreate any desired text of the NT An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text Consequently it will lead to an unsettled Christian faith and practice

New Testament Textual Criticism: The Application of Thoroughgoing Principles James Keith Elliott, 2010-12-17 J K Elliott has been identified as one of the Main exponents of so called thoroughgoing textual criticism In this collection of fifty seven of his essays from the past forty years are articles on methodology as well as on praxis with a selection of important textual variants including some of especial interest for exegesis Also included are several essays on textual criticism which emphasise its relevance for the discussion of the synoptic problem and there are also a number of assessments of printed editions of the Greek New Testament A bibliography of Elliott s writings is appended Those interested in the New Testament text and in Greek manuscripts as well as scholars working on the history of exegesis or the Greek language which thoroughgoing criticism encourages will find this collection of value The selection will enable readers to have an overview of Elliott s contribution to the discipline
