Reproducing Race The Paradox Of Generation Mix

Kieran C. O'Doherty, Darrin Hodgetts

Reproducing Race The Paradox Of Generation Mix:

Reproducing Race Rainier Spencer, 2011 Is postraciality just around the corner How realistic are the often heard pronouncements that mixed race identity is leading the United States to its postracial future In his provocative analysis Rainier Spencer illuminates the assumptions that multiracial ideology in fact shares with concepts of both white supremacy and antiblackness Spencer links the mulatto past with the mulatto present in order to plumb the contours of the nation s mulatto future He argues cogently and forcefully that the deconstruction of race promised by the American Multiracial Identity Movement will remain an illusion of wishful thinking unless we truly address the racist baggage that serves tenaciously to conserve the present racial order

Reproducing Race Stephen Chilton, 2022 Is postraciality just around the corner How realistic are the often heard pronouncements that mixed race identity is leading the United States to its postracial future In his provocative analysis Rainier Spencer illuminates the assumptions that multiracial ideology in fact shares with concepts of both white supremacy and antiblackness Spencer links the mulatto past with the mulatto present in order to plumb the contours of the nation s mulatto future He argues cogently and forcefully that the deconstruction of race promised by the American Multiracial Identity Movement will remain an illusion of wishful thinking unless we truly address the racist baggage that serves tenaciously to conserve the present racial order

The Colors of Love Melinda A. Mills, 2021-12-07 This book explores the experiences of multiracial people in intimate romantic relationships The author considers how preferred racial identity shapes partner choice and the experiences of being racially mixed in romantic relationships The book also examines patterns in multiracial people s romantic careers to assess how much they are blending and blurring racial borders or reinforcing them It illustrates the extent to which members of the two or more races population participates in and upholds the current racial hierarchy

International Perspectives on Racial and Ethnic Mixedness and Mixing Rosalind Edwards, Suki Ali, Chamion Caballero, Miri Song, 2012-06-14 People from a mixed or inter racial and ethnic background and people partnering and parenting across different racial and ethnic backgrounds are of increasing political public and intellectual interest internationally Contributors to this interdisciplinary collection interrogate notions of mixedness and mixing and challenge stereotypical assumptions They advance debates in the field through illuminating the complexity of specific historical trajectories administrative practices and lived experience Recurrent themes woven throughout the chapters include boundaries and categorisation in terms of administration and government and also of lived experience the explicit and implicit politics of mixedness and mixing in terms of nation state interests agenda and policies as well as on the ground social relations the ways that mixedness and mixing shift in meaning and implications across time and place shaped by different national regional and or local contexts This volume shows that who is and is not mixed is contested and understandings of mixedness and mixing however conceived need to be situated in the larger complex of ideas about race and its classification International Perspectives on Racial and Ethnic Mixedness and Mixing is an

invaluable book for students and scholars of race and ethnicity **The Schematic State** Debra Thompson, 2016-10-20 By examining the political development of racial classifications on the national censuses of the United States Canada and Great Britain *The Schematic State* maps the changing nature of the census from an instrument historically used to manage and control racial populations to its contemporary purpose as an important source of statistical information employed to monitor and rectify racial discrimination Through a careful comparative analysis of nearly two hundred years of census taking it demonstrates that changes in racial schemas are driven by the interactions among shifting transnational ideas about race the ways they are tempered and translated by nationally distinct racial projects and the configuration of political institutions involved in the design and execution of census policy This book argues that states seek to make their populations racially legible turning the fluid and politically contested substance of race into stable identifiable categories to be used as the basis of law and policy *The Turn to Racism and Anti-racism in Latin America* Mónica G. Moreno Figueroa, Peter Wade, 2025-04-18 This book highlights the growing mainstream focus on racism and anti racism in Latin America It reveals the diverse social transformation projects addressing racism reflecting a complexity not previously evident Inspired by a research project involving Indigenous and Black organizations the chapters in this book explore cases in Brazil Colombia Ecuador and Mexico where anti racist efforts are significant though not always central to organizational agendas These chapters share a common theme of valuing varied anti racist actions and discourses while critically acknowledging the structural shifting nature of racism The issues explored are racial visibility naming racism racial data legal rights and recognition entrepreneurship mestizo identity the possibilities of alliances and racially aware struggles against class and gendered oppression Though not exhaustive the chapters provide valuable insights into the antiracist shift in Latin America offering broader perspectives on global anti racism efforts This book was originally published as a special issue of the *Ethnic and Racial Studies* journal *Passing Interest* Julie Cary Nerad, 2014-06-16 The first volume to focus on the trope of racial passing in novels memoirs television and films published or produced between 1990 and 2010 *Passing Interest* takes the scholarly conversation on passing into the twenty first century With contributors working in the fields of African American studies American studies cultural studies film studies literature and media studies this book offers a rich interdisciplinary survey of critical approaches to a broad range of contemporary passing texts Contributors frame recent passing texts with a wide array of cultural discourses including immigration law the Post Soul Aesthetic contemporary political satire affirmative action the paradoxes of colorblindness and the rhetoric of post racialism Many explore whether one drop of blood still governs our sense of racial identity or to what extent contemporary American culture allows for the racially indeterminate individual Some essays open the scholarly conversation to focus on ethnic passers individuals who complicate the traditional black white binary while others explore the slippage between traditional racial passing and related forms of racial performance including blackface minstrelsy and racial masquerade *The Routledge Companion to the Philosophy of Race*

Paul Taylor, Linda Alcoff, Luvelle Anderson, 2017-11-28 For many decades race and racism have been common areas of study in departments of sociology history political science English and anthropology Much more recently as the historical concept of race and racial categories have faced significant scientific and political challenges philosophers have become more interested in these areas This changing understanding of the ontology of race has invited inquiry from researchers in moral philosophy metaphysics epistemology philosophy of science philosophy of language and aesthetics The Routledge Companion to Philosophy of Race offers in one comprehensive volume newly written articles on race from the world's leading analytic and continental philosophers It is however accessible to a readership beyond philosophy as well providing a cohesive reference for a wide student and academic readership The Companion synthesizes current philosophical understandings of race providing 37 chapters on the history of philosophy and race as well as how race might be investigated in the usual frameworks of contemporary philosophy The volume concludes with a section on philosophical approaches to some topics with broad interest outside of philosophy like colonialism affirmative action eugenics immigration race and disability and post racialism By clearly explaining and carefully organizing the leading current philosophical thinking on race this timely collection will help define the subject and bring renewed understanding of race to students and researchers in the humanities social science and sciences **The SAGE Handbook of Applied Social Psychology** Kieran C.

O'Doherty, Darrin Hodgetts, 2019-01-14 In the present epoch of global change movement interconnection and the intensification of social issues within and across many societies applied social psychology is more relevant than ever The SAGE Handbook of Applied Social Psychology offers an overview of the field and the disparate and evolving approaches Through an international team of contributors the handbook brings prominent research literature together and organises it around ten key areas Part 01 Culture race indigeneity Part 02 Gender Sexuality Part 03 Politics Part 04 Health and mental health Part 05 Work Part 06 Ageing Part 07 Communication Part 08 Education Part 09 Environment Part 10 Criminal Justice Law Crime This handbook is a uniting and invigorating resource for the field of Applied Social Psychology **Multiracial**

Identity in Children's Literature Amina Chaudhri, 2017-02-10 Racially mixed children make up the fastest growing youth demographic in the U S and teachers of diverse populations need to be mindful in selecting literature that their students can identify with This volume explores how books for elementary school students depict and reflect multiracial experiences through text and images Chaudhri examines contemporary children's literature to demonstrate the role these books play in perpetuating and resisting stereotypes and the ways in which they might influence their readers Through critical analysis of contemporary children's fiction Chaudhri highlights the connections between context literature and personal experience to deepen our understanding of how children's books treat multiracial identity
