Understanding Hubert Selby, Jr James Richard Giles, 1998 Since the publication in 1964 of his novel Last Exit to Brooklyn which arguably achieved the status of a cult classic Hubert Selby Jr has held a place as one of the foremost exponents of American underground literature His work has yet to receive extensive critical attention in part because of its deliberately shocking subject matter and its resistance to precise classification In Understanding Hubert Selby Jr James R Giles examines the writer s four novels and one collection of short stories to make the case that the full complexity of his fiction has not previously been understood Giles contends that Selby s writings which are usually labelled as either naturalistic or surrealistic represent an innovative merger of both narrative modes The Solaris Effect Steven Dillon, 2010-01-01 What do contemporary American movies and directors have to say about the relationship between nature and art How do science fiction films like Steven Spielberg s A I and Darren Aronofsky s represent the apparent oppositions between nature and culture wild and tame Steven Dillon s intriguing new volume surveys American cinema from 1990 to 2002 with substantial descriptions of sixty films emphasizing small budget independent American film Directors studied include Steven Soderbergh Darren Aronofsky Todd Haynes Harmony Korine and Gus Van Sant as well as more canonical figures like Martin Scorsese Robert Altman David Lynch and Steven Spielberg The book takes its title and inspiration from Andrei Tarkovsky s 1972 film Solaris a science fiction ghost story that relentlessly explores the relationship between the powers of nature and art The author argues that American film has the best chance of aesthetic success when it acknowledges that a film is actually a film The best American movies tell an endless ghost story as they perform the agonizing nearness and distance of the cinematic image This groundbreaking commentary examines the rarely seen bridge between select American film directors and their typically more adventurous European counterparts Filmmakers such as Lynch and Soderbergh are cross cut together with Tarkovsky and the great French director Jean Luc Godard in order to test the limits and possibilities of American film Both enthusiastically cinephilic and fiercely critical this book puts a decade of U S film in its global place as part of an ongoing conversation on nature and art The Beat Generation and the Popular Novel

in the United States, 1945-1970 Thomas Newhouse, 2000-06-30 The Beat Generation that emerged after World War II and reached its zenith in the 1960s represented an era of new perspectives The questioning anti establishment view of the world prevalent among the various members of the Beat Movement found its voice in both novels and poetry The novels especially or what might be called underground narratives were a driving force within the literary social and cultural revolution that characterized the Beats This study of the American novel during that era presents the forerunners of the literary tradition of the Beats and examines the major genres of the Beat novel the juvenile delinquent novel the self discovering novel of individuality the gay novel the drug novel the new journalism and novels taking on topics of defiance and submission From novels that have found a mainstream acceptance like *The Blackboard Jungle* *The Electric Kool Aid Acid Test* and *On the Road* to lesser known works like *Go Young Adam* and *Flee the Angry Strangers* numerous representative works are examined in depth Also included is a chronology of underground narratives showing the development of these novels from their early twentieth century antecedents to current works

Darren Aronofsky's Films and the Fragility of Hope

Jadranka Skorin-Kapov, 2015-11-19 *Darren Aronofsky's Films and the Fragility of Hope* offers the first sustained analysis of the current oeuvre of the film director screenwriter and producer Darren Aronofsky. Including *Pi* 1998, *Requiem for a Dream* 2000, *The Fountain* 2006, *The Wrestler* 2008, *Black Swan* 2010, and *Noah* 2014, Aronofsky's filmography is discussed with respect to his style and the themes of his films, making astute connections with the work of other directors, other movies, and works of art, and connecting his films with other disciplines such as math, philosophy, psychology, and art history. Jadranka Skorin-Kapov deploys her background in philosophy and math to analyze an American filmmaker with an individual voice working on both independent productions and big budget Hollywood films. Aronofsky is revealed to be a philosopher's director considering the themes of life and death, addiction and obsession, sacrifice and the fragility of hope. Skorin-Kapov discusses his ability to visually present challenging intersections between art and philosophy. Concluding with a transcript of a conversation between the author and Aronofsky himself, *Darren Aronofsky's Films and the Fragility of Hope* is a much needed study on this American auteur.

Choose Life Choose Leith, Tim Bell, 2024-04-03. Much more than transgression, Irvine Welsh's book *Trainspotting* and its derivatives is a window into the social mayhem that was everyday life in one of the most deprived areas in 1980s Britain: Thatcherism, Greed, Poverty, Heroin, HIV, Disenfranchised youth. In the back garden of posh, prosperous Edinburgh, Leith had the lot. For 20 years, Bell has interpreted *Trainspotting* on the streets of Leith for locals, tourists, aficionados, and academics. In this book, a critical analysis of *Trainspotting*, the book, the play, and the film, he splices well-researched erudition with street-level wisdom and lived experience, testimony to tell the story behind the story. This new edition refocuses *Trainspotting* as a creative chronicle of the early years of the ongoing and
