World Politics, Human Rights, and International Law Francis A. Boyle, 2021-02-04 World Politics Human Rights and International Law examines the functional dynamics between these concepts based upon the author's professional experiences dealing with real world situations problems and crises from the Bush Obama and Trump administrations Iraq Iran Palestine Israel and Syria Bosnia and Herzegovina successfully litigating genocide at the World Court indicting Slobodan Milosevic at the International Criminal Tribunal for the Former Yugoslavia prosecuting American torture and enforced disappearances at the International Criminal Court opposing nuclear chemical and biological weapons citizen civil resistance against state crimes protecting Indigenous Peoples etc The reader can see how the author defined these predicaments from the perspective of international law and human rights and then proceeded to grapple with them and to rectify them This book demonstrates the power of international law and human rights to make a positive difference for international peace and justice as well as for the good of humanity in the real world of international power politics By reading this book the citizen will be empowered and inspired to do the same

Restoring the Kingdom of Hawaii Francis Anthony Boyle, 2015 In 1993 the United States Congress enacted a solemn Apology for the United States invasion of Hawaii admitting one hundred years later that the indigenous Hawaiian people never directly relinquished their claims to their inherent sovereignty as a people or over their national lands to the United States It thereby admitted the illegality of its incorporation of Hawaii into America as its 50th state opening the door for Hawaiian Independence and the restoration of the Kingdom of Hawaii This book chronicles the legal battle waged toward that end by international law expert Francis A Boyle on behalf of his Kanaka Maoli clients and friends that spans almost two and a half decades As of this publication that struggle has reached a decisive turning point which if pursued following Boyle's strategy will lead on to the victory of restoring the 1893 Kingdom of Hawaii by the Kanaka Maoli This book serves as a guide for the pursuit of self determination by occupied nations and indigenous

peoples who can no longer claim numerical majorities over the whole of their native lands It incorporates insights derived from legal work Boyle has done for Palestine Lithuania Bosnia and Herzegovina Puerto Rico Ireland and elsewhere around the world Francis Boyle outlines what the Kanaka Maoli have done and must do to restore their state s independence de facto and de jure He details the arduous process of self organization by disempowered peoples necessary to replicate the sovereign status of governments and states in today s world from setting up governing structures and an economic system to the sophisticated process of embarking on establishing relationships with and gaining recognition by states There is much to learn here on how to create a state for peoples who don t have one yet This book is of critical importance to those scholars leaders and activists working in the fields of International Law Human Rights Indigenous Peoples Oppressed Nations and Nation Building There is no other such book in print synthesizing expertise in all these areas into a coherent whole for the benefit of oppressed nations and persecuted peoples all over the world **Decolonizing Native Histories** Florencia E.

Mallon,2012 An interdisciplinary collection that addresses the racial and ethnic politics of knowledge production and indigenous activism in the Americas this book analyzes the relationship of language to power and advocates for collaboration between community members scholars and activists that prioritize the right of Native people to decide how their knowledge is used *Paradoxes of Hawaiian Sovereignty* J. Kehaulani Kauanui,2018-10-18 J K haulani Kauanui examines contradictions

of indigeneity and self determination in U S domestic policy and international law showing how Hawaiian elites approaches to reforming land gender and sexual regulation in the early nineteenth century that paved the way for sovereign recognition of the kingdom complicate contemporary nationalist activism which too often includes disavowing the indigeneity of indigenous Hawaiians **106-2 Joint Hearing: Native Hawaiian Federal Recognition, S. Mapping Abundance for a Planetary Future Candace Fujikane,2021-01-11 In *Mapping Abundance for a Planetary Future* Candace Fujikane contends that the practice of mapping abundance is a radical act in the face of settler capital s fear of an abundance that feeds Cartographies of capital enable the seizure of abundant lands by enclosing wastelands claimed to be underdeveloped By contrast Kanaka Maoli Native Hawaiian cartographies map the continuities of abundant worlds Vital to restoration movements is the art of kilo intergenerational observation of elemental forms encoded in storied histories chants and songs As a participant in these movements Fujikane maps the ecological lessons of these elemental forms reptilian deities who protect the waterways sharks who swim into the mountains the navigator M ui who fishes up the islands the deities of snow and mists on Mauna Kea The laws of these elements are now being violated by toxic waste dumping leaking military jet fuel tanks and astronomical industrial complexes As K naka Maoli and their allies stand as land and water protectors Fujikane calls for a profound attunement to the elemental forms in order
