Breaking the Political Glass Ceiling Barbara Palmer, Dennis Michael Simon, 2006 At the dawn of the new millennium only twenty five percent of elected state legislators were female only five states had female governors and a mere fourteen percent of the members of Congress were women Extrapolating from data on women candidates in Congressional races from 1956 to 2002 Palmer and Simon explore how incumbency social attitudes and electoral strategy affect women s decisions to run for office They dispel myths distorting our understanding of women candidates and challenge the reigning theories accounting for the low number of female Congress members Breaking the Political Glass Ceiling is the most comprehensive analysis of women in Congressional elections available

The Power of Connection Judith V. Jordan, 2013-09-13 Relational Cultural theory RCT proposes that all people grow through and toward relationships throughout the lifespan RCT challenges prevailing theories that depict the separate self as the hallmark of maturity Rather than movement toward autonomy and separation RCT suggests we develop ever more differentiated ways of connecting An increase in growth fostering relationships results in a sense of vitality and zest increasing clarity about ourselves and others augmented creativity and ability to take action an experience of worth and empowerment and a desire for more connectedness with others Disconnections are inevitable in relationships and RCT focuses on relational resilience the ways people can re establish positive and growth fostering relationships RCT further emphasizes the importance of cultural and societal forces in causing either growth fostering connection or destructive disconnection This volume explores the process of change in therapy and in other relationships how race and other forms of stratification create pain and how people develop resilience and strength in relationships characterized by mutuality This book was based on a special issue of Women and Therapy

Crossing Boundaries and Weaving Intercultural Work, Life, and Scholarship in Globalizing Universities Adam Komisarof, Zhu Hua, 2015-10-23 This book generates a fresh complex view of the process of globalization by examining how work scholarship and life inform each other among intercultural scholars as they navigate their interpersonal relationships and cross boundaries physically and metaphorically Divided into three parts the book examines 1

the socio psychological process of crossing boundaries constructed around nations and work organizations 2 the negotiation of multiple aspects of identities and 3 the role of language in intercultural encounters in particular adjustment taking place at linguistic and interactional levels The authors reflect upon and give meaning and structure to their own intercultural experiences through theoretical frameworks and concepts many of which they themselves have proposed and developed in their own research They also provide invaluable advice for transnational scholars and those who aspire to work and live abroad to improve organizational participation and mutual intercultural engagement when working in a globalizing workplace Researchers and practitioners of applied linguistics communication studies and higher education in many regions of the world will find this book an insightful resource **Shattered, Cracked, Or Firmly Intact?** Farida

Jalalzai,2013-03-28 How do men s and women s paths to political office differ Once in office are women s powers more constrained than those of men The number of women in executive leadership positions has grown substantially over the past five decades and women now govern in vastly different contexts around the world But their climbs to such positions don t necessarily correspond with social status and the existence of gender equity In *Shattered Cracked or Firmly Intact* Farida Jalalzai outlines important patterns related to women executive s paths powers and potential impacts In doing so she combines qualitative and quantitative analysis and explores both contexts in which women successfully gained executive power and those in which they did not The glass ceiling has truly shattered in Finland where to date three different women have come to executive power only cracked in the United Kingdom with Margaret Thatcher as the only example of a female prime minister and remains firmly intact in the United States While women appear to have made substantial gains they still face many obstacles in their pursuit of national executive office Women compared to their male counterparts more often ascend to relatively weak posts and gain offices through appointment as opposed to popular election When dominant women presidents do rise through popular vote they still almost always hail from political families and from within unstable systems Jalalzai asserts the importance of institutional features in contributing positive representational effects for women national leaders Her analysis offers both a broad understanding of global dynamics of executive power as well as particulars about individual women leaders from every region of the globe over the past fifty years Viewing gender as embedded within institutions and processes this book provides an unprecedented and comprehensive view of the complex contradictory and multifaceted dimensions of women s national leadership Proceedings of "Breaking Barriers: Redefining Women's Rights"
