Rethinking Normalcy Rethinking Normalcy:

Rethinking Normalcy Rod Michalko, Tanya Titchkosky, 2009 The chapters in this book exemplify ways of questioning our collective relations to normalcy as such relations affect the lives of both disabled and currently non disabled people Pub desc

Theorising Normalcy and the Mundane Cassandra A. Ogden Rebecca Mallett, 2016-06-30 The wide ranging chapters from the Theorising Normalcy and the Mundane conferences explore the precarious positions e normale and its operating system e normalcy David 2010 The activists students practioners and academics offer related but diverse approaches to ponder ways in which e normale and e normalcy present clear dangers The End of Normal Lennard Davis, 2014-01-03 In an era when human lives are increasingly measured and weighed in relation to the medical and scientific notions of what is normal have changed drastically While it is no longer useful to think of a person s particular race gender sexual orientation or choice as normal the concept continues to haunt us in other ways In The End of Normal Lennard J Davis explores changing perceptions of body and mind in social cultural and political life as the twenty first century unfolds The book s provocative essays mine the worlds of advertising film literature and the visual arts as they consider issues of disability depression physician assisted suicide medical diagnosis transgender and other identities Using contemporary discussions of biopower and biopolitics Davis focuses on social and cultural production particularly on issues around the different body and mind The End of Normal seeks an analysis that works comfortably in the intersection between science medicine technology and culture and will appeal to those interested in cultural studies bodily practices disability science and medical studies feminist materialism psychiatry and psychology *Architectures of Emergency in Turkey* Eray Çayli, Pinar Aykac, Sevcan Ercan, 2021-10-21 Challenging existing political analyses of the state of emergency in Turkey this volume argues that such states are not merely predetermined by policy and legislation but are produced regulated distributed and contested through the built environment in both embodied and symbolic ways Contributors use empirical critical spatial research carried out in Turkey over the past decade exploring heritage displacement and catastrophes Contributing to the broader literature on the related concepts of exception risk crisis and uncertainty the book discusses the ways in which these phenomena shape and are shaped by the built environment and provides context specific empirical substance to it by focusing on contemporary Turkey In so doing it offers nuanced insight into the debate around emergency as well as into recent urban architectural affairs in Turkey **Cartographies of Blackness and Black Indigeneities** George J. Sefa Dei, Ezinwanne Odozor, Andrea Vásquez Jiménez, 2020-01-31 Cartographies of Blackness and Black Indigeneities acknowledges the saliency of Blackness in contemporary social formations insisting that how bodies are read is extremely important The contributors to this volume elicit or produce both tangible and intangible social political material spiritual and emotional effects and consequences on Black and African bodies globally It is a call to celebrate Blackness in all its complexities including race ethnicity class gender sexuality dis ability spiritualities and geographies Understanding Blackness is to insist on Black and African political

and cultural appreciation of the phenomenon outside of Euro colonial attempts to regulate and define how Black and African bodies are perceived This book intersperses discussions of Blackness with Black racial identity and cultural politics and the required responsibilities for the Global Black and African populations to build viable communities utilizing our differences knowledges cultures politics identities histories as strengths

Normality and Disability Gerard Goggin,Linda Steele,Jessica Robyn Cadwallader,2018-12-07 Hotly contested normality remains a powerful complex category in contemporary law and culture What is little realized are the ways in which disability underpins and shapes the operation of norms and the power dynamics of normalization This pioneering collection explores the place of law in political social scientific and biomedical developments relating to disability and other categories of abnormality The contributors show how law produces cultural meanings norms representations artefacts and expressions of disability abnormality and normality as well as how law responds to and is constituted by cultures of disability The collection traverses a range of contemporary legal and political issues including human rights mercy killing reproductive technologies hate crime policing immigration and disability housing It also explores the impact and ongoing legacies of historical practices such as eugenics and deinstitutionalization Of interest to a wide range of scholars working on normality and law the book also creates an opening for critical scholars and activists engaged with other marginalized and denigrated categories notably contesting institutional violence in the context of settler colonialism neoliberalism and imperialism to engage more richly and politically with disability This book was originally published as a special issue of the Continuum journal

Science and Other Cultures Sandra Harding,Robert Figueroa,2013-10-31 In this pioneering new book Sandra Harding and Robert Figueroa bring together an important collection of original essays by leading philosophers exploring an extensive range of diversity issues for the philosophy of science and technology The essays gathered in this volume extend current philosophical discussion of science and technology beyond the standard feminist and gender analyses that have flourished over the past two decades by bringing a thorough and truly diverse set of cultural racial and ethical concerns to bear on questioning in these areas Science and Other Cultures charts important new directions in ongoing discussions of science and technology and makes a significant contribution to both scholarly and teaching resources available in the field

Disability in the Global Sport Arena Jill M. Le Clair,2013-09-13 Sport is often at the centre of battles for rights to inclusion linked to class race and gender and this book explores struggles centred on disability in different cultural settings in Europe North America Africa Asia and Oceania It challenges oversights and assumptions about the normal body and describes how individual and organizational transformations can occur through sport The abilities of a person are recognised and placed centre stage instead of the individual being forgotten excluded or placed at the margins simply because they have a disability National regional and global change is part of the shift to the rights based approach reflected in the 2006 UN Convention on the Rights of Persons with Disabilities Making sport inclusive affects the accessibility of facilities funding the media policies programs

organisations sponsors and spectators and at the same time changes the cultural values of the wider society It also raises issues about competition access and eligibility for different and technologically enhanced cyborg bodies and for those most socially disadvantaged Addressing these questions which ultimately touch on the real meaning of sport can lead to profound changes in people s attitudes and how sport is organized locally and globally Growth in the influential global organisations of the Paralympic Games Special Olympics and Deaflympics is examined as is the approach to disability in sport in both advantaged and resource poor countries The embodied lives of persons with disabilities are explored utilizing new theoretical models perspectives and approaches This book was previously published as a special issue of *Sport in Society* **Branding and Designing Disability** Elizabeth DePoy, Stephen Gilson, 2014-06-27 Over the past fifty years design and branding have become omnipotent in the market and have made their way to other domains as well Given their potential to divide humans into categories and label their worth and value design and branding can wield immense but currently unharnessed powers of social change Groups designed as devalued can be undesigned redesigned and rebranded to seamlessly and equivalently participate in community work and civic life This innovative book argues that disability as a concept and category is created reified and segregated through current design and branding that begs for creative change Transcending models of disability that locate it either as an embodied medical condition or as a socially constructed entity this book challenges the very existence and usefulness of the category itself Proposing and illustrating creative and responsible design DePoy and Gilson include thinking and action strategies that are useful and potent for undesigning redesigning and rebranding to meet the full range of human needs and to enhance full participation in local through global communities Divided into two parts the first section presents a critical examination of disability as a designed and branded phenomenon exploring what exactly is being designed and branded and how The second part investigates the redesign of disability and provides principles for redesign and rebranding illustrated with examples from high tech to place based sustainable strategies The book provides a unique and contemporary framework for thinking about disability as well as providing relevant design and branding guidance to designers and engineers interested in embodiment issues *Women's Health Advocacy* Jamie White-Farnham, Bryna Siegel Finer, Cathryn Molloy, 2019-07-17 Women s Health Advocacy brings together academic studies and personal narratives to demonstrate how women use a variety of arguments forms of writing and communication strategies to effect change in a health system that is not only often difficult to participate in but which can be actively harmful It explicates the concept of rhetorical ingenuity the creation of rhetorical means for specific and technical yet extremely personal situations At a time when women s health concerns are at the center of national debate this rhetorical ingenuity provides means for women to uncover latent sources of oppression in women s health and medicine and to influence matters of research funding policy and everyday access to healthcare in the face of exclusion and disenfranchisement This accessible collection will be inspiring reading for academics and students in health communication medical humanities and women s studies as well as for activists
