comparisons easier and that the internet has reduced information costs to a considerable extent *The Handbook of Post Crisis Financial Modelling* Emmanuel Haven, Philip Molyneux, John Wilson, Sergei Fedotov, Meryem Duygun, 2016-04-29 The 2008 financial crisis was a watershed moment which clearly influenced the public's perception of the role of finance in society. Since 2008 a plethora of books and newspaper articles have been produced accusing the academic community of being unable to produce valid models which can accommodate those extreme events. This unique Handbook brings together leading practitioners and academics in the areas of banking, mathematics and law to present original research on the key issues affecting financial modelling since the 2008 financial crisis. As well as exploring themes of distributional assumptions and efficiency, the Handbook also explores how financial modelling can possibly be re-interpreted in light of the 2008 crisis.

Financial Management from an Emerging Market Perspective Soner Gokten, Guray Kucukkocaoglu, 2018-01-17 One of the main reasons to name this book as *Financial Management from an Emerging Market Perspective* is to show the main differences of financial theory and practice in emerging markets other than the developed ones. Our many years of learning, teaching and consulting experience have taught us that the theory of finance differs in developed and emerging markets. It is a well-known fact that emerging markets do not always share the same financial management problems with the developed ones. This book intends to show these differences which could be traced to several characteristics unique to emerging markets and these unique characteristics could generate a different view of finance theory in a different manner. As a consequence, different financial decisions, arrangements, institutions and practices may evolve in emerging markets over time. The purpose of this book is to provide practitioners and academicians with a working
