Mig 3 Aces Of World War 2 Aircraft Of The Aces:

MiG-3 Aces of World War 2 Dmitriy Khazanov,Aleksander Medved,2013-05-20 The MiG 1 3 family of fighters was built to satisfy a Soviet Air Force requirement for an advanced fast high altitude fighter Entering service in the spring of 1941 the problematic MiG 1 had its handling issues rectified with the hasty production of the MiG 3 Many of these were destroyed on the ground when the Germans launched Operation Barbarossa Nevertheless enough examples survived to allow pilots such as Stepan Suprun and Aleksandr Pokryshkin to claim a number of victories in the type This book tells the complete story of the men who made ace in the first examples of the famous MiG fighter **MiG-3 Aces of World War 2** Dmitriy

Khazanov,Aleksander Medved,2013-05-20 The complete story of the pilots who made ace while flying the original MiG fighters The MiG 1 3 family of fighters was built to satisfy a Soviet Air Force requirement for an advanced fast high altitude fighter Entering service in the spring of 1941 the problematic MiG 1 had its handling issues rectified with the hasty production of the MiG 3 Many of these were destroyed on the ground when the Germans launched Operation Barbarossa Nevertheless enough examples survived to allow pilots such as Stepan Suprun and Aleksandr Pokryshkin to claim a number of victories in the type This book tells the complete story of the men who made ace in the first examples of the famous MiG fighter *Croatian Aces of World War 2* Boris Ciglic,Dragan Savic,2013-01-20 Initially flying Italian supplied Fiat G 50s the Croat forces suffered heavy losses during 1942 whilst flying alongside JG 52 in the southern sector of the Russian front Despite this a significant number of kills fell to future aces such as Cvitan Galic and Mato Dubovak during this time and when the units re equipped with Bf 109G 10s in 1943 battle seasoned Croat pilots started to rack up impressive scores This book reveals how by 1944 Croat air groups were defending Yugoslavia from British and American air raids and in the final months of the war a handful of surviving pilots fought on until final defeat in May 1945 **Soviet Aces of World War 2** Hugh

Morgan,2013-01-20 At the time of publication no single volume in English had ever appeared in the West dealing with this intriguing subject area Once restrictions relaxed in the former Soviet Union the records of their elite pilots deeds detailed in this book came to light Although initially equipped with very poor aircraft and robbed of effective leadership thanks as much to Stalin s purges in the late 1930s as to the efforts of the Luftwaffe Soviet fighter pilots soon turned the tables through the use of both lend lease aircraft like the Hurricane Spitfire P 39 and P 40 and home grown machines like the MiG 3 LaGG 3 5 Lavochkin La 5 7 9 and the Yak 1 3 **Rumanian Aces of World War 2** Dénes Bérad,2012-11-20 An illustrated account of how the Royal Rumanian Air Force claimed their kills against the Soviets First seeing action in the wake of the German invasion of the USSR in June 1941 the Royal Rumanian Air Force had been allied to the Luftwaffe since the Romanian government signed a Tripartite Pact with Germany and Italy in November 1940 This book reveals how despite suffering heavy losses to the numerically superior Russian forces the Rumanians inflicted even greater casualties on the communists Locked in bitter conflict with the Soviets until September 1944 when the Red Army poured across the Rumanian frontier and

forced an armistice the modest fighter force claimed 1500 kills using primarily Bf 109 s E s P-36 Hawk Aces of World War 2 Lionel Persyn,Kari Stenman,Andrew Thomas,2012-12-20 A fascinating account of a plane that served on both sides during World War 2 and in a variety of environments from Pearl Harbor to the deserts of North Africa to the barren forests of Karelia and the jungles of Burma The Curtiss P 36 was considered a revolution in performance design in comparison to other US fighters Yet by the time of the Japanese attack on Pearl Harbor the P 40 was increasingly supplanting the P 36 which the US then exported to France under the guise of the Hawk 75 Flown by the French captured by the Germans sold to the Finns transferred to India and Africa and even incorporated into the RAF the Hawk 75 saw service in every theatre of operations and in a variety of combat environments This book depicts the interesting life of this plane with colour artwork photographs and first hand accounts Brewster F2A Buffalo Aces of World War 2 Kari Stenman,Andrew Thomas,2013-06-20 A complete survey of all of the pilots who achieved Aces status using the Brewster F2A Buffalo Although designed and built for the US Navy the F2A fought in only one major US engagement the battle of Midway in which F2A pilots managed to shoot down a number of Japanese fighters Soon replaced by the navy the F2A was exported to Britain where it was nicknamed the Buffalo thanks to its stubby appearance The British sent most of these fighters to the Far East where they were used in the defence of Singapore and Malaya It was in the Winter War however that the F2A truly found a home Calling the plane simply the Brewster the Finnish flew it against the invading Russians As this volume shows overall 37 Finns achieved ace status flying the Brewster and it was the Finnish fighter of choice until succeeded by the Bf 109 in 1943 **Soviet Hurricane Aces of World War 2** Yuriy Rybin,2012-08-20 In 1942 about 80 per cent of the fighters serving with Air Forces of the Karelian and Northern Fronts were Hurricanes This book explores the bitter struggle against well drilled Luftwaffe and Finnish units flying in the polar regions of northern Russia Following the destruction wrought on the Red Army Air Forces during the first days of Operation Barbarossa in June 1941 the Soviet Union found itself desperately short of fighter aircraft Premier Josef Stalin duly appealed directly to Prime Minister Winston Churchill for replacement aircraft and in late 1941 the British delivered the first of 3360 Hurricanes that would be supplied to the Soviet Union under the Lend Lease agreement Specifically requested by the USSR the Hurricanes were quickly thrown into action in early 1942 the Soviet Air Forces most difficult year in their opposition to the Luftwaffe Virtually all the Hurricanes were issued to Soviet fighter regiments in the northern sector of the front where pilots were initially trained to fly the aircraft by RAF personnel that had accompanied the early Hawker fighters to the USSR The Hurricane proved to be an easy aircraft to master even for the poorly trained young Soviet pilots allowing the Red Army to form a large number of new fighter regiments quickly in the polar area In spite of a relatively poor top speed and only a modest rate of climb the Hurricane was the mount of at least 17 Soviet aces

Morane-Saulnier MS.406 Aces Kari Stenman,Christian-Jacques Ehrengardt,2014-05-20 The story of the aces who flew the MS 406 an important aircraft not only because it was built in larger numbers than any other French fighter of the period but

also because it was the first modern fighter in the Arm e de l Air inventory Although comparable to the British Hurricane and early models of the German Bf 109 it was outclassed when flown against the more powerful and faster Bf 109E With little or no protection no armour or self sealing tanks the MS 406 sustained heavy losses during the Battle of France Too lightly armed and fitted with unreliable weaponry the French fighter struggled to down German bombers It therefore comes as no surprise that only a dozen French pilots became fully fledged aces on the type during this period despite the aircraft being present in significant numbers However a score of pilots who bagged their very first kills at the controls of the MS 406 fought on after the fall of France flying Dewoitine D 520s Spitfires and even Soviet Yak 3s to attain ace status against both Allied and Axis opponents

LaGG & Lavochkin Aces of World War 2 George Mellinger, 2012-10-20 This book examines the LaGG family of fighters that were amongst the first modern piston engined interceptors made available to the Red Air Forces in early 1941 and proved far better fighters than their radial engined predecessors Despite technical maladies and political interference from Moscow the LaGG 3 matured into an effective fighter when flown to its strengths at low level Many early Soviet aces were weaned on the LaGG 3 and if they survived the early massacres of 1941 42 they went on to fly the Lavochkin family of fighters Indeed as this book demonstrates the Lavochkin La 3 5 and 7 were the fighters of choice for Heroes of the Soviet Union such as Ivan Kozhedub who claimed 62 kills
