Origins Of Terrorism Psychologies Ideologies Theologies States Of Mind:

Origins of Terrorism Walter Reich,1998-12 On the psychological aspects of terrorism and suicide bombing

Understanding Terrorism Gus Martin,2006-02-17 Praise for the First Edition I am very favorably impressed with this book The author is well informed and an excellent writer The recommended readings Web sites boxes tables and the like provide very attractive features There is an abundance of very good historical and current examples I would adopt this book for my courses and look forward to its publication Frank Hagan Mercyhurst College Understanding Terrorism Second Edition is a uniquely comprehensive exploration of contemporary terrorism suitable for professional as well as for academic courses of instruction It incorporates key topics as well as discussion boxes and Web exercises intended to stimulate critical thinking in readers a true one stop shop for gaining an understanding of the field New to the Second Edition new chapters on religious terrorism a consolidated chapter on ideological terrorism and a new chapter on two cutting edge topics gender focused political violence and the nexus between criminal enterprises and terrorist violence a resource Website devoted to the book to enhance learning introductory opening viewpoints in each chapter to give an overview of the concepts explored within Understanding Terrorism is one of the first core studies on the subject of terrorism offering a comprehensive review of the events ideas motivations and histories that result in terrorist activity as well as an examination of the theories helping to explain such activity Criminele organisaties en organisatiecriminaliteit (CPS 2016 - 2, nr. 39) A. Verhage,A. Jorissen,R.

Prins,J. Jaspers,2016-05-24 Organisatiecriminaliteit en georganiseerde criminaliteit lijken op het eerste gezicht twee verschillende zaken Het eerste wordt vooral geassocieerd met grote bedrijven en speelt zich grotendeels in de bovenwereld af het tweede met maffia achtige groepen gesitueerd in de onderwereld In de praktijk blijkt het onderscheid niet altijd zo gemakkelijk te handhaven Er bestaan immers allerhande tussenvormen en de grens tussen de financiële boven en onderwereld vervaagt meermaals Dit Cahier besteedt aandacht aan de aanpak van deze fenomenen variërend van financiële recherche tot het nemen van bestuurlijke maatregelen Maar ook wordt nagegaan met wie de politie samen opereert in deze kwesties Gaat het om een probleem dat een louter nationale federale aanpak vraagt of heeft de lokale overheid hier ook een rol in Wat is de rol van de politie binnen de samenwerking en hoe verloopt de informatiedeling De auteurs brengen het empirisch onderzoek in kaart en gaan verder in op de verschillende verschijningsvormen en de dilemma's bij de aanpak hiervan Waarom mensen radicaliseren Kees van den Bos,2019-03-26 In Waarom mensen radicaliseren toont Kees van den Bos aan dat radicalisering van moslims rechts extreme groeperingen en links extreme individuen wordt aangewakkerd door waargenomen onrechtvaardigheid Dit komt omdat waargenomen onrechtvaardigheid niet alleen maar een indruk is van mensen maar als echt aanvoelt Als iets als echt onrechtvaardig wordt ervaren dan leidt dit vaak tot boosheid en vervolgens tot radicaal en extremistisch gedrag Dit boek beoogt radicalisering gewelddadig extremisme en terroristisch gedrag te verklaren zodat we het kunnen voorspellen en waar mogelijk voorkomen of verminderen Hiertoe moeten we radicaliserende

personen serieus nemen en zorgvuldig nagaan hoe zij de wereld waarnemen Kees van den Bos geeft niet alleen een wetenschappelijke analyse van radicalisering maar schetst ook hoe belangrijk het is om radicaliserende personen te wijzen op hun serieuze verantwoordelijkheden ten aanzien van een democratische rechtsstaat Kees van den Bos is hoogleraar sociale psychologie en hoogleraar empirische rechtswetenschap aan de Universiteit Utrecht Ik heb van dit boek genoten Wat een helder en overtuigend betoog Door de systematische aandacht voor de rol die waargenomen onrechtvaardigheid speelt in radicalisering van mensen levert dit boek een belangrijke bijdrage aan het debat en de versnipperde literatuur over radicalisering deradicalisering en terrorisme Het overzicht en de concrete handvatten zijn echt heel erg verrijkend Beatrice de Graaf In deze tijd verscherpt het debat rond radicalisering Terroristen lijken te gemakkelijk hun doel te bereiken angst zaaien Kees van den Bos verschaft ons een helder en goed gefundeerd inzicht in oorzaken en achtergronden van radicalisering extremisme en terrorisme Met deze studie bewijst hij een waardevolle dienst aan onze samenleving Alex Brenninkmeijer

The Psychology of Terrorism John G. Horgan, 2014-06-16 This new edition of John Horgan's critically acclaimed book is fully revised and expanded The book presents a critical analysis of our existing knowledge and understanding of terrorist psychology Despite the on going search for a terrorist pathology the most insightful and evidence based research to date not only illustrates the lack of any identifiable psychopathology in terrorists but demonstrates how frighteningly normal and unremarkable in psychological terms are those who engage in terrorist activity By producing a clearer map of the processes that impinge upon the individual terrorist a different type of terrorist psychology emerges one which has clearer implications for efforts at countering and disrupting violent extremism in today's world In this 2nd edition Horgan further develops his approach to the arc of terrorism by delving deeper into his IED model of Involvement Engagement and Disengagement the three phases of terrorism experienced by every single terrorist Drawing on new and exciting research from the past decade with new details from interviews with terrorists ranging from al Qaeda to left wing revolutionaries biographies and autobiographies of former terrorists and insights from historic and contemporary terrorist attacks since 2005 Horgan presents a fully revised and expanded edition of his signature text This new edition of The Psychology of Terrorism will be essential reading for students of terrorism and political violence and counterterrorism studies and recommended for forensic psychology criminology international security and IR in general

The Oxford Handbook of Terrorism Erica Chenoweth, Richard English, Andreas Gofas, Stathis N. Kalyvas, 2019-03-14 The Oxford Handbook of Terrorism systematically integrates the substantial body of scholarship on terrorism and counterterrorism before and after 9/11 In doing so it introduces scholars and practitioners to state of the art approaches methods and issues in studying and teaching these vital phenomena This Handbook goes further than most existing collections by giving structure and direction to the fast growing but somewhat disjointed field of terrorism studies The volume locates terrorism within the wider spectrum of political violence instead of engaging in the widespread tendency towards treating terrorism as an

exceptional act Moreover the volume makes a case for studying terrorism within its socio historical context Finally the volume addresses the critique that the study of terrorism suffers from lack of theory by reviewing and extending the theoretical insights contributed by several fields including political science political economy history sociology anthropology criminology law geography and psychology In doing so the volume showcases the analytical advancements and reflects on the challenges that remain since the emergence of the field in the early 1970s

Aanpak van gewelddadige radicalisering (CPS 2017 - 1, nr. 42) Maarten De Waele, Jannie Noppe, Hans Moors, Aart Garssen, 2017-02-21 Het huidige maatschappelijk debat wordt overheerst door waaromvragen die peilen naar de oorzaken van radicalisering Waarom trekken jongeren naar Syrië Wat trekt jongeren aan in het islamgeïnspireerd extremisme En wat is die fameuze voedingsbodem die leidt tot terroristische acties De vraag blijft echter of het fenomeen wel op de juiste manier gevat wordt en of we de juiste vragen stellen De laatste jaren schieten studies naar het fenomeen radicalisering als paddenstoelen uit de grond Deze studies focussen echter voornamelijk op de root causes van terroristisch gedrag en het proces van radicalisering Deze uitgave zoomt vooral in op de rol van lokale actoren in de aanpak van het fenomeen Hoe wordt het fenomeen vandaag op het lokale niveau praktisch en beleidsmatig aangepakt Kunnen daarin misschien andere accenten gelegd worden

Volatile Social Movements and the Origins of Terrorism Christine Sixta Rinehart, 2012-12-15 Although many scholars have studied terrorism few scholars have ever studied terrorism from the aspect of its initial origins in social movements Not only is research concerning this phenomenon outdated but there has also been no consensus as to what causes terrorism Many contemporary terrorist organizations were once social movements that formed for a specific purpose using nonviolent tactics to accomplish their agenda Eventually terrorist tactics became the method of choice for these once peaceful social movements

Volatile Social Movements and the Origins of Terrorism The Radicalization of Change by Christine Sixta Rinehart focuses on why this transition occurred why did a peaceful social movement transition to a terrorist organization The case studies in this book include the Muslim Brotherhood the ETA the FARC and the LTTE The study focuses on the individual characteristics group dynamics and external forces that caused social movements to use terrorist tactics It is ascertained who made the decision to use terrorism and why and how that person or group of people ascended to a leadership position within the social movement After the person people time and place are found pertaining to the first decision to use terrorism Sixta Rinehart examines why terrorism became an attractive option for each social movement

Volatile Social Movements and the Origins of Terrorism asks a necessary question for scholars and researchers in counterterrorism and international policy Under what conditions do social movements resort to the use of terrorist tactics

The Psychology of Terrorism Director International Center for the Study of Terrorism and Associate Professor of Psychology John Horgan, JR, 2004-06 One of the leading psychologists in the field undertakes a comprehensive examination on one of the most important yet neglected areas in the study of terrorism

Root Causes of Terrorism Tore Bjørgo, 2005-06-30 This team of international experts analyses the possibilities

and limitations of preventing or reducing terrorism by addressing the factors that give rise to it and sustain it The key questions raised include what are the main circumstances that provide preconditions for the emergence of various types of terrorism what are the typical precipit
