South Asian Pornographies Darshana Sreedhar Mini, Anirban K. Baishya, 2024-06-21 *South Asian Pornographies* is the first consolidated volume that explores the relationships between pornography obscenity law and desire in South Asia. Focusing on case studies from India Sri Lanka and Bangladesh while gesturing towards other countries in South Asia the authors of this volume come from fields as varied as history literature media and communication and the visual arts. The book proposes that as a geo political location South Asia has a unique relationship to pornography given the multiplicity of cultural and legal censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms finding reflection in various modes of popular and sometimes underground culture bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural identities rather than identity this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies Cultural Studies Film Studies History Sociology and Social and Cultural Anthropology. The chapters in this book were originally published in the journal *Porn Studies*. **Rated A** Darshana Sreedhar Mini, 2024-08-06 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. In the 1990s India's mediascape saw the efflorescence of edgy soft porn films in the Malayalam speaking state of Kerala. In *Rated A* Darshana Sreedhar Mini examines the local and transnational influences that shaped Malayalam soft porn cinema such as vernacular pulp fiction illustrated erotic tales and American exploitation cinema and maps the genre's circulation among blue collar workers of the Indian diaspora in the Middle East where pirated versions circulate alongside low budget Bangladeshi films and Pakistani mujra dance films as South Asian pornography. Through a mix of archival and ethnographic research Mini also explores the soft porn industry's utilization of gendered labor and trust based arrangements as well as how actresses and production personnel who are marked by their involvement with a taboo form negotiate their social lives. By locating the tense negotiations between sexuality import policy and censorship in contemporary India this study offers a model for understanding film genres outside of screen space emphasizing that they constitute not just industrial formations but entire fields of social relations and gendered imaginaries. **Eroticism** Salman Akhtar, Rajiv Gulati, 2019-09-06 With contributions from distinguished scholars and clinicians who view human erotic desire from modern developmental relational societal and cross cultural perspectives *Eroticism: Developmental Cultural and Clinical Realms* offers a multifaceted and up to date glimpse into what we find sexually attractive and why. While psychoanalysis has unshackled itself from the narrow confines of instinct theory to include ego psychology object relations theory self psychology and the contemporary relational paradigm such heuristic and clinical advance is sorely needed to further our grasp of human eroticism and love. Accommodation also needs to be made for the cultural changes that have occurred over

the last five or six decades These include the feminist corrective to the phallocentrism of classical psychoanalysis the new insights into human subjectivity and personality development provided by the gay and lesbian movement the contemporary de centering of the essentialist and binary gender formulations and the post colonial voices of the non Western people By providing theoretically anchored clinical guidelines Eroticism provides not only an update on the early analytic understanding of human eroticism but advances clinical praxis as well
