Craig S. Keener

Our Kingdom Ministry April 2014 For Jehovah Witnesses:

Shutting the Door to the Kingdom of God Eric Michael Wilson, 2022-08-20 This book uses the New World Translation of the Holy Scriptures to prove that all the teachings of Jehovah's Witnesses concerning the Last Days and the good news of salvation are unscriptural. The author, an elder of Jehovah's Witnesses for 40 years, shares the results of the last ten years of his research into such Watch Tower teachings as the 1914 invisible presence of Christ, the overlapping generation doctrine, the failed prophecies of 1925 and 1975, the fact that the Governing Body had evidence long ago showing that 607 BCE was not the date of the Babylonian exile, and most important of all, the abundant evidence that the salvation hope offered to the JW Other Sheep is a Rutherford invention wholly without support in Scripture. He also shares his experience on how Witnesses who continue to believe in Jehovah and Jesus can move beyond JW.org without sacrificing their faith. This is a must read for any Jehovah's Witness who is a seeker of truth and unafraid to put his or her beliefs to the test. **Miracles Today** Craig S. Keener, 2021-10-19 Do miracles still happen today? This book demonstrates that miraculous works of God, which have been part of the experience of the church around the world since Christianity began, continue into the present. Leading New Testament scholar Craig Keener addresses common questions about miracles and provides compelling reasons to believe in them today, including many accounts that offer evidence of verifiable miracles. This book gives an accessible and concise overview of one of Keener's most significant research topics. His earlier two-volume work on miracles stands as the definitive word on the topic, but its size and scope are daunting to many readers. This new book summarizes Keener's basic argument but contains substantial new material, including new accounts of the miraculous. It is suitable as a textbook but also accessible to church leaders and laypeople. **Jehovah's Witnesses and the Secular World** Zoe Knox, 2018-01-29 This book examines the historic tensions between Jehovah's Witnesses and government authorities, civic organisations, established churches, and the broader public. Witnesses originated in the 1870s as small, loose-knit groups calling themselves Bible Students. Today there are some eight million Witnesses worldwide, all actively engaged in evangelism under the direction of the Watch Tower Society. The author analyses issues that have brought them global visibility and even notoriety, including political neutrality, public ministry, blood transfusion, and anti-ecumenism. It also explores anti-Witness discourse from media portrayals of the community as marginal and exotic to the anti-cult movement. Focusing on varied historical, ideological, and national contexts, the book argues that Witnesses have had a defining influence on conceptions of religious tolerance in the modern world. **The Pope** Gerhard Cardinal Müller, Gerhard Ludwig Müller, 2021-10-22 This book offers an introduction to the theological and historical aspects of the papacy, an office and institution that is unique in this world. Throughout its history up to our present time, the Petrine ministry is both fascinating and challenging to people both inside and outside the Catholic Church. Gerhard Cardinal Müller speaks from a particular and personal viewpoint, including his experience of working closely with the pope every day as Prefect of the Congregation for the Doctrine of the Faith. He addresses in

particular those dimensions of the papal office which are crucial for understanding more deeply the pope as a visible principle of the church's unity 500 years after the Protestant reformation the book offers insights into the ecumenical controversies about the papacy throughout the centuries in their historical context The book also exposes prejudices and clichés and points to the authentic foundation of the Petrine ministry

Jehovah's Witnesses in Europe Gerhard Besier, Katarzyna Stokłosa, 2021-08-18 The history of Jehovah's Witnesses in Europe has always been one of persecution This third volume documents this history turning eastward For the first time the circumstances of a religious minority under different political systems can be compared across the continent The studies gathered here provide insight into the methods of repression used by governments and mainstream churches the survival strategies of Jehovah's Witnesses and their various experiences under Eastern European dictatorships The initially cordial relationship with Jehovah's Witnesses that developed after 1990 has steadily reverted to religious discrimination culminating in Russia's renewed ban of Jehovah's Witnesses in 2017 and the confiscation of their properties By violating the universal human right of religious freedom the same conditions that prevailed in the Soviet era have now returned to modern Russia With severest discrimination and abusing jurisdictional procedures to reach their political aspirations the State tries to crush a religious community Against this background it is all the more important not to turn a blind eye to the situation of religious minorities in Eastern Europe but instead to take an honest public stance against it

Cult Shock Mark Stengler, 2017-07-04 Two Christian Bible scholars outline arguments anyone can use to counter and evangelize to Jehovah's Witnesses and Mormons when they come knocking Cult Shock is an easy to follow resource of Christian apologetics that teaches you how to defend your Christian faith against the claims of Jehovah's Witness and Mormon missionaries Mark Stengler Jr and Mark Stengler Sr a father and son team of Christian scholars explain the beliefs of these groups and demonstrate through scripture and logic how Biblical Christianity refutes their worldview Readers will gain confidence witnessing to these groups based on the Stengler's recommended engagement techniques from their years of experience Cult Shock provides all the tools you need to proclaim the real Jesus with fearless confidence

Religious Freedom Gerhard Besier, Olaf Lange, Ilkka Huhta, 2019-05 Restrictions with respect to religious freedom have been in place in authoritarian states for a number of years We can observe a new period of co-operation between authoritarian states and state churches Some churches have assumed a clearly political position even in belligerent conflicts by justifying wars criminalizing their religious competitors and thereby exploiting the Christian Gospel for non-Christian purposes In this volume scholars from Europe and North America discuss the core objective of religious freedom in the West and East seeking measures to encourage religions to act and interact independent of deliberate political stances to maintain their distance from territorial governments and to strengthen the principle of religious freedom and thereby their own denomination as well
