Our Shrinking Globe Implications Pediatric:

Our Shrinking Globe: Implications for Child Safety, An Issue of Pediatric Clinics of North America Avinash Shetty, 2016-01-19 Pediatricians in the United States and around the World continue to face a myriad of global health threats affecting child and adolescent health including 1 infectious diseases of poverty e.g. human immunodeficiency virus HIV tuberculosis malaria and neglected tropical diseases in low and middle income countries LMIC especially in sub-Saharan Africa 2 emerging and reemerging infectious diseases such as Ebola 3 rise of non-communicable diseases e.g. common mental disorders 4 unintentional injuries and 5 environmental health hazards e.g. climate change Despite the promising news about rapid declines in maternal and child mortality in the era of Millennium Development Goals MDGs which originated from the United Nations Millennium Declaration in 2000 only 20% and 7% of LMIC are currently on track to attain the maternal and child mortality targets For example 44% of deaths in children younger than 5 years occur in neonates Besides discovery of life-saving interventions e.g. development of new and improved vaccines for maternal and child health we also need to do a better job at bridging the knowledge implementation gap and increase the effectiveness of proven interventions For example despite the availability of effective vaccines to prevent pneumococcal pneumonia rotavirus gastroenteritis and human papilloma virus related diseases e.g. cervical cancer use of these vaccines remain suboptimal in LMIC We need to recognize that global health is also local public health For example improving access equity and quality of care for orphans and vulnerable children immigrant and newly arrived refugee children in the U.S remains a challenge Timely access to psychiatric care for children and adolescents with mental illness is a major concern The explosion of new age technology such as the internet also poses a considerable risk to children and adolescents Pediatricians also need to be aware of diverse socio-cultural determinants of health and ethical issues in global health service and delivery This issue of Pediatric Clinics of North America aims to address the above crucial global health challenges affecting children and adolescents As practicing pediatricians we have the unique opportunity to influence local and global public health In the post MDG era beyond 2015 collaborative partnerships between various disciplines and across research education and service is vital to reduce health inequities in children worldwide Oxford Textbook of Global Health of Women, Newborns, Children, and Adolescents Delan Devakumar, Jennifer Hall, Zeshan Qureshi, Joy Lawn, 2019 The aim of this book is to provide a summary of the current concepts and challenges in global maternal and child health in a format that appeals to students of the subject the general public and current practitioners in the field It also provides study exercises that may inform tutors on undergraduate and postgraduate courses Advances in Pediatrics 2017 Carol D. Berkowitz, Leslie L. Barton, Jane Carver, Edward M. Barksdale Jr., Surendra Varma, 2017-07-15 Advances in Pediatrics reviews the most current practices in pediatrics A distinguished editorial board led by Dr Carol Berkowitz identifies key areas of major progress and controversy and invites expert pediatricians to contribute original articles devoted to these topics These insightful overviews bring concepts to a clinical

level and explore their everyday impact on patient care Topics such as fetal diagnosis and surgical intervention updates in pharmacology and fatty liver disease are represented highlighting the most current and relevant information in the field

Pediatric Prevention, An Issue of Pediatric Clinics Earnestine Willis, 2015-09-07 Preventive pediatrics remains the foundation for pediatricians to offer benefits for future generations Social conditions often complicate health status and bureaucracies pose challenges for families and children to navigate service systems Therefore it is crucial to emphasize a host of topics that children and families face in addition to highlighting opportunities for overcoming some of those challenges In this issue an array of authors will update pediatricians on the prevalence and management of chronic health and social conditions such as childhood poverty youth violence oral health asthma foster care toxin exposures including tobacco and childhood obesity Promising interventions that pediatricians should continue to examine include how pediatricians can advocate for breastfeeding as a wellness concept for working mothers in the workplace promotion of childhood literacy development maximizing immunization compliance monitor the impact of public policy such as the Affordable Care Act ACA on children s health and how community health workers CHWs can be vital to community health improvement Proposed interventions include a description of how the medical and legal partnership model can be an empowering strategy for families to address social determinants of health SDH when lawyers are included as a member of the health care team In addition pediatricians and all other child healthcare professionals must investigate epigenetic mechanisms that might predispose children to risk factors or good health outcomes

Pediatric Endocrinology and Diabetes, An Issue of Pediatric Clinics of North America Denis Daneman, 2015-11-12 The Guest Editors have compiled a comprehensive issue that includes both disorders of

endocrinology as well as diabetes Authors have addressed the following clinical topics disorders of menstruation thyroid function gender dysphoria hypoglycemia in the nondiabetic child preventing DKA short and long term outcomes in diabetes and whole genome sequencing in endocrinology These topics represent the current knowledge in the field and pediatricians will have the most updated clinical information as they evaluate and treat children with diabetes or endocrinology disorders

Evidence-Based Imaging in Pediatrics Hansel J. Otero, Summer L. Kaplan, L. Santiago Medina, C. Craig Blackmore, Kimberly E. Applegate, 2024-08-31 This book provides evidence based guidance for pediatric imaging to radiologists pediatricians and all subspecialists caring for children as well as policy advocates While the majority of pediatric radiology books concentrate on diagnosis this book highlights how imaging should be used in optimal care allowing comparisons between different modalities and addressing follow up complications and the issue of timing of imaging The primary objective of this book is to provide a summary of appropriate imaging use in terms of modality and timing based on the best available evidence The book therefore acts as a resource for optimized clinical care of children and effective decision making A secondary objective is to collate the evidence based practices that constitute quality care for children in the setting of value based imaging Radiologists are often in the position of helping clinicians decide when and how to image children with suspected diseases or confirmed diagnoses However traditional residency training has done little to fulfill the need for this up to date evidence knowledge Moreover in spite of furthering subspecialization of the field the great majority of children's imaging and care occur outside of children's hospitals where clinicians and radiologists might need this type of general guidance for establishing best practices The book is divided in two parts non diagnostic considerations such as evidence based imaging safety value and the practice of radiology in low resource settings and a second larger clinical component divided in prenatal oncology neurological musculoskeletal cardiothoracic and abdominal imaging This new edition incorporates changes in practice and guidelines in the decade since the first edition was written with many new chapters in emerging topics including prenatal oncology and neurological imaging This is an ideal guide for radiologists pediatricians policy advocates and all healthcare professionals caring for children
