Moebius Giraud and Philippe Druillet and the brass tacks realism of classic war cartoonists such as John Severin and Russ Heath His comics defamiliarize popular genres especially superheroes war stories and science fiction with his philosophical musings and pointedly satirical political perspective Yet Veitch's capacious mind reaches beyond these familiar genres too as his long running autobiographical dream comic Roarin Rick's Rare Bit Fiends attests Ranging across topics such as his early days at the Joe Kubert School the controversial end of his Swamp Thing run his muckraking work as a comics journalist and his educational comics publishing venture Eureka Comics the interviews collected here reveal Veitch to be both a shrewd observer of the pitfalls of the marketplace and an eloquent spokesman for the boundless potential of creativity A comics maker since childhood and a fierce advocate of creator's rights and the possibilities of self publishing Veitch knows all too well the many persistent obstacles to creating comics that challenge readers instead of condescending to them Yet Veitch remains optimistic about the potential of comics According to Veitch comics might be the form of the future If that's the case then his work is a map to that future
