Out of Crisis David A. Westbrook, 2015-12-03 Former Federal Reserve chair Greenspan recently said that the risk management paradigm is broken thus our understanding of financial regulation no longer makes sense More generally the current financial crisis obliges us to rethink the relationships among financial markets and governments In Out of Crisis financial analyst David Westbrook illuminates the intellectual business and policy errors that have led us into the present morass Through a vivid legal and political analysis he shows how the ideologies of the right and left have distorted financial thinking and policy Learning from these errors the book sketches the emergence of a new understanding of risk management and bureaucratic regulation Out of Crisis begins the tasks of rethinking the structures that constitute financial markets and exploring how such structures may be strengthened Taking responsibility for the markets we build to do so much of our society's work we may yet become mature capitalists Searching for the Spirit of American Democracy Stephen

Kalberg, 2015-11-17 The crisis of American democracy debate is advanced in this engaging new contribution By referring to Max Weber's long term perspective Stephen Kalberg provides rich new insights into the particular contours of today's American political culture and some reasons for optimism Kalberg draws upon Weber to reconstruct political culture in ways that define America's unique spirit of democracy Developing several Weber inspired models the author reveals patterns of oscillation in American history Can these pendulum movements sustain today the symbiotic dualism that earlier invigorated American democracy Can they do so to such an extent that the American spirit of democracy is rejuvenated Whilst exploring whether Weber's explanations and insights can be generalised beyond the American case Searching for the Spirit of American Democracy forcefully argues that facilitating political cultures is indispensable if democracies are to endure **It**
