Outside The Fold (Oip) Gauri Viswanathan, 2001-06-04 *The Secret Life of Another Indian Nationalism* Shail Mayaram, 2022-06-16 It highlights shifts over two centuries as the geopolitical context has transitioned from the Pax Britannica to the Pax Americana **Beyond Crisis** Naveeda Khan, 2012-04-27 Through the essays in this volume we see how the failure of the state becomes a moment to ruminate on the artificiality of this most modern construct the failure of nationalism an opportunity to dream of alternative modes of association and the failure of sovereignty to consider the threats and possibilities of the realm of foreignness within the nation state as within the self The ambition of this volume is not only to complicate standing representations of Pakistan It is take Pakistan out of the status of exceptionalism that its multiple crises have endowed upon it By now many scholars have written of how exile migrancy refugeedom and other modes of displacement constitute modern subjectivities The arguments made in the book say that Pakistan is no stranger to this condition of human immigrancy and therefore can be pressed into service in helping us to understand our present condition

towards Jihadism over the last decade to draw critical conclusions about the relationship between war and the secular She points to a surprisingly coherent body of secular beliefs that have fuelled policies in Iraq Afghanistan and counter terrorism and that have had mixed results responsible for both positive strategies and tragic errors The theory Gutkowski develops on the impact of this secular approach to warfare holds a broader global significance and cannot be viewed as just a British phenomenon This book addresses ongoing and critical debates such as the overreach of Western liberal interventionism in the Middle East and speaks to policy makers security analysts and students of IR Foreign Policy and Security Studies The Invention of Religion Derek R. Peterson, Darren R. Walhof, 2002 Is religion an obstacle to the values of modernity Popular and scholarly opinion says that it is In a world gripped in a clash of civilizations religious absolutism seems to threaten the modern virtues of tolerance reason and freedom This collection of historical essays argues that this popular view religion versus modernity is used by the politically powerful to construct the religious as irrational and antimodern The authors study how nationalists state officials missionaries and scholars in the West and in the colonized world defined and redefined the relationship between the political and the religious From publisher s description *Christianity and the State in Asia* Julius Bautista, Francis Khek Gee Lim, 2009-09-11 This book examines how Christians in Asia express their religion under the spectre of the nation state and processes of globalization Considering Christianity s growing prominence and the various ways Asian nation states respond to this growth this book brings into sharper analytical focus the ways in which the faith is articulated at the local regional and global level *Postcolonial Moves* P. Ingham, M. Warren, 2015-12-17 Much theoretical and historical work engaged with the question of the postcolonial is built upon an imagined unified premodern Middle Ages in Europe One of the results of this has been that in recent years scholars in medieval and early modern studies have been critically assessing the uses of postcolonial and subaltern theoretical perspectives in their fields and considering what their periods have to say to postcolonial theorists This book offers a series of original essays that explore with specificity the methodological textual cultural and historiographic moves required for postcolonial engagements with premodern times
