The Sacred Power of Language in Modern Jewish Thought Shira Wolosky, 2023-07-24 Judaic cultures have a commitment to language that is exceptional Language in many form texts books and scrolls learning interpretation material practices that generate material practices are central to Judaic conduct experience and spirituality In this Judaic traditions differ from philosophical and theological ones that make language secondary Traditional metaphysics has privileged the immaterial and unchanging as unchanging truth that language can at best convey and at worst distort Such traditional metaphysics has come under critique since Nietzsche in ways that the author explores Shira Wolosky argues that Judaic traditions converge with contemporary metaphysical critique rather than being its target Focusing on the work of Derrida Levinas Scholem and others the author examines traditions of Judaic interpretation against backgrounds of biblical exegesis sign theory as it recasts language meaning in ways that concord with Judaic textuality negative theology as it differs in Judaic tradition from those which negate language itself and lastly outline a discourse ethics that draws on Judaic language theory This study is directed to students and scholars of Judaic thought religious studies and theology theory of interpretation Levinas and other modern Jewish philosophical writers placing them in broader contexts of philosophy theology and language theory It is shown how Jewish discourses on language address urgent problems of value and norms in the contemporary world that has challenged traditional anchors of truth and meaning

The Books of Contemplation Mark Verman, 2012-02-01 The earliest medieval Jewish mystical writings or kabbalah date from the late twelfth and early thirteenth centuries This is the first book to focus on the most prodigious group active at that time the Circle of Contemplation The Circle of Contemplation generated a mystical theology that differs radically from mainstream kabbalistic

theosophy Two of this group s penetrating speculations on God and the origins of the universe are The Book of Contemplation and The Fountain of Wisdom A meticulous and systematic study of these writings forms the core of this book Verman discovered that the Circle of Contemplation produced a series of distinct treatises each entitled The Book of Contemplation and attributed to the same fictitious author These treatises embodying one of the most intriguing puzzles of medieval literature are included here The author concludes that these writings were a product of thirteenth century Spain not France as claimed by Gershom Scholem His conclusion engendered a critical evaluation of the premises of Scholem s historiography of early medieval Jewish mysticism
