Sapega, 2008 A study of art architecture and literature produced in Portugal and Cape Verde during the period 1933-1948 Documents artistic responses to images of the Portuguese nation promoted by the Salazar government's Office of State Propaganda Examines the works of José de Almada Negreiros Irene Lisboa and Baltasar Lopes Provided by publisher

Immigration and Xenophobia Rosana Barbosa, 2008-12-17 In *Immigration and Xenophobia* Rosana Barbosa discusses Portuguese migration to Rio de Janeiro from 1822 to 1850 as a significant aspect of the city's history During the first half of the nineteenth century many Portuguese fled the difficult economic and social conditions in Portugal for better economic opportunities in post independence Brazil which was experiencing a boom that was fuelled by such commodities as coffee Its retail commercial sector attracted many immigrants from France England Spain Italy Germany and most especially from Portugal The arrival of Portuguese migrants was facilitated by the fact that they were mostly well received by the Brazilian government and elite who wanted to create a white nation while still continuing to import thousands of Africans every year Although they were well received by the government the Portuguese sometimes faced hostility and aggression from the population at large for reasons arising from nationalism and competition for jobs Despite the presence of this hostility most Portuguese immigrants in Rio de Janeiro adapted well to their new environment They married or developed relationships with local people bought properties in Brazil and most did not return to Portugal

Consensus and Debate in Salazar's Portugal: Visual and Literary Negotiations of the National Text, 1933-1948, **A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942**, 1942 **Subject Index of Modern Books Acquired** British Library, 1971 **Art, Travel, and Exchange between Iberia and Global Geographies, c. 1400-1550**, 2024-12-16 Traditional narratives hold that the art and architecture of the Iberian Peninsula in the late 15th century were transformed by the arrival of artists objects and ideas from northern Europe The year 1492 has been interpreted as a radical rupture marking the end of the Islamic presence on the peninsula the beginning of global encounters and the intensification of exchange between Iberia and Renaissance Italy This volume aims to nuance and challenge this narrative considering the Spanish and Portuguese worlds in conjunction and emphasising the multi directional migrations of both objects and people to and from the peninsula This long marginalised region is recast as a diffuse artistic centre in close contact with Europe and the wider world The chapters interweave varied media geographies and approaches to create a rich tapestry held together by itinerant artworks artists and ideas Contributors are Luis Urbano Afonso Sylvia Alvares Correa Vanessa Henriques Antunes Piers Baker Bates Costanza Beltrami António Candeias Ana Cardoso Maria L. Weitz **Revista da Academia Fluminense de Letras** Academia Fluminense de Letras,1957 *The Italian and Iberian Influence in Accounting History* Michele Bigoni,Warwick Funnell,2017-10-02 The Italian and Iberian Influence in Accounting History provides compelling evidence of how accounting when conceived of as a technology rather than simply as a tool to increase efficiency can work as a means to sustain power relations in different sites such as the Church the State or the factory This book drawing upon the growing body of work which focuses on Italy and the Iberian Peninsula demonstrates how accounting practices were effective in the subjugation of single individuals or entire populations whether Roman Catholic priests State functionaries inhabitants of conquered lands or workers The effectiveness of accounting as a tool of power is linked to its neutral and technical appearance which makes it difficult for those oppressed and controlled by its practices to oppose it Its adaptability to different organizational contexts as documented in *The Italian and Iberian Influence in Accounting History* makes it a valuable tool for sustaining existing power relations and reproducing inequalities and exploitation The Italian and Iberian Influence in Accounting History is vital reading for academics and researchers in the fields of accounting accounting history political management and sociology and European history Tecnologia e Educação Empreendedora: Estamos no Caminho Certo?
