Russia's Strategic Culture Nicolò Fasola, 2024-07-05 This book analyses the categories of thought underpinning Russia's strategic decision making and military operations unpacking their nature development and interaction The work argues that mainstream Western analysis of Russian military and strategic behaviour is affected by two limitations first by forcing Russian choices into pre packaged logics of action it fails to grasp the peculiar assumptions and intellectual nuances underpinning Moscow's strategies second an overreliance on buzzwords such as hybridity has mystified understanding of the Russian military modus operandi its true character and strong consistencies The book addresses such limitations by stressing the influence of strategic culture on Russia's approach to strategy and war fighting After proposing an original model of strategic culture it employs this conceptual framework to interrogate Russian primary sources and military practices between 2008 and 2018 This allows general hypotheses to be formulated about the ultimate principles underpinning the Russian way of war which are then tested against three case studies Russia's interventions in Georgia 2008 Ukraine 2014 2015 and Syria 2015 2018 respectively While steering clear of making forecasts this book provides a solid basis on which to build expectations about and to chart strategies for counter acting Moscow's actions including in the context of the current war in Ukraine This book will be of much interest to students of Russian security military and strategic studies foreign policy and International Relations in general *Russia Watch* George Kolt, 2007-11-06 **Redefining Russian Literary**

Diaspora, 1920-2020 Maria Rubins, 2021-03-11 Over the century that has passed since the start of the massive post revolutionary exodus Russian literature has thrived in multiple locations around the globe What happens to cultural vocabularies politics of identity literary canon and language when writers transcend the metropolitan and national boundaries and begin to negotiate new experience gained in the process of migration Redefining Russian Literary Diaspora 1920 2020 sets a new agenda for the study of Russian diaspora writing countering its conventional reception as a subsidiary branch of national literature and reorienting the field from an excessive emphasis on the homeland and origins to an analysis of transnational circulations that shape extraterritorial cultural practices Integrating a variety of conceptual perspectives ranging from diaspora and postcolonial studies to the theories of translation and self translation World Literature and evolutionary literary criticism the contributors argue for a distinct nature of diasporic literary expression predicated on hybridity ambivalence and a sense of multiple belonging As the complementary case studies demonstrate diaspora narratives consistently recode historical memory contest the mainstream discourses of Russianness rewrite received cultural tropes and explore topics that have remained marginal or taboo in the homeland These diverse discussions are framed by a focused examination of diaspora as a methodological perspective and its relevance for the modern human condition **Russian Economic Reform** James Leitzel, 2005-06-22 Transitions from socialism to capitalism are complex both in theory and practice Russian Economic Reform enables the reader to come to a much better understanding of these momentous changes by providing a clear and accessible account of the major features of transition It argues that attempts to portray the reform

process is a disaster are misconceived because they fail to take account of just how badly the pre reform economy was doing
