be posed in advance before solving any case will make great strides in the current ways of working and classification of legal areas Also it will pay scant attention to the existing approach where European law is seen as *corpus alienum* which influences national law from outside and creates a Hidden Civil Law A message is sent to the legal world of civil law Wake up European law is part of national law and should be studied as applicable law It should be recognised and implemented rather than being taken as a separate supplement under the flag of IPL European law or its impact It is applicable civil law
