Out Of This World Otherworldly Journeys From Gilgamesh To Albert Einstein:

Out of This World I.P. Couliano, 2001-05-01 This book takes the reader on a fantastic journey through a wide range of cultures and traditions to examine the phenomenon of ecstatic visionary experiences from Sumerian Gilgamesh and the Taoist Immortals to the imaginative fiction of Jorge Luis Borges The author provides a comprehensive tour of otherworldly journeys common from immemorial times among shamans magicians and witches and illustrates their connection with such modern phenomena as altered states of consciousness out of body experiences and near death experiences **Death, Ecstasy, and Other Worldly Journeys** John J. Collins, 1995-01-01 This is a psychological and historical exploration of belief in a spirit world imperceptible to the senses as a pervasive and deeply rooted characteristic of religion **Reading the Book of Revelation** David L. Barr, 2004 The interpretation of the Apocalypse is explored through various methods including historical literary and social analysis in combination with such reading strategies as process postcolonial and religion studies perspectives Shows how diverse methods produce divergent readings of a text Paperback edition available from the Society of Biblical Literature www.sbl-site.org **Dreamgates** Robert Moss, 2010 A world renowned authority on the history uses and power of dreaming Robert Moss guides neophyte and experienced adventurers alike to open their own dreamgates Through these gates await otherwise inaccessible realms of reality as well as soul remembering the recovering of knowledge that belonged to us before we came into this life experience Exercises meditations and the mesmerizing tales of fellow dream travelers outline Moss's Active Dreaming technique a kind of shamanic soul flight that offers frequent flyers a passport between worlds In this world beyond physical reality Moss points to wellsprings of healing creativity and insight As readers move into these different ways of seeing and knowing they may also communicate with spiritual guides and departed loved ones in ways that transform their everyday lives **The Melancholy Android** Eric G. Wilson, 2012-02-01 The Melancholy Android is a psychological study of the impulses behind the creation of androids Exploring three imaginative figures the mummy the golem and the automaton and their appearances in myth religion literature and film Eric G Wilson tracks the development of android building and examines the lure of artificial doubles untroubled by awareness of self Drawing from the works of philosophers Ficino Kleist Freud and Jung writers Goethe Coleridge Shelley and Poe and movies such as Metropolis The Mummy and Blade Runner this book not only offers a range of sites from which to analyze the relationship between mind and machine but also considers a pressing paradoxical dilemma loving machines we want to hate **Fault Lines** Gus diZerega, 2013-10-14 The United States is suffering its greatest upheaval since the Civil War politically economically socially religiously With elegant sweeping vision Gus diZerega explores the complex causes leading us to this point comparing them to giant fault lines that when they erupt create enormous disturbance and in time new landscapes He traces the disruption first to America's first countercultural movement originating in the antebellum South and coming into later conflict with the counterculture of the 60s that continues now in phenomena like Burning Man and second to the

crumbling of the moral foundation birthed by the Enlightenment leading to today's nihilism. But within the loss resides hope. diZerega sees promise of a new society based more in equality, sacred feminine values, and spiritual immanence. Whether the prevailing oligarchy will abort this transformation is the question of our time. This book enables those of us now living through it to understand the powerful forces shaping our lives and calling on us for a response.

Muhammad's Ascension in Muslim Spain Frederick S. Colby, 2025-02-01. A survey of the Muslim, Jewish, and Christian debates and mystical discussions about Muhammad's heavenly journey that took place in early medieval Spain. This book demonstrates how Muhammad's heavenly journey, as discussed throughout the eleventh and twelfth centuries in the western Mediterranean, was the site both of polemical religious debates and of a rich and varied tradition of mystical commentary. Out of these fertile contexts sprang two very influential sets of ascension discourses: First, the growth of the Perfect and Complete version of the Islamic ascension tale that spread throughout the Muslim world; second, the complex and multidimensional mystical interpretations of Muhammad's journey by one of the most famous Sufis of all time, the Grand Master Muhyi al-Din Ibn Arabi, d. 1240 CE. This work surveys key sources of this Andalusí contemplative tradition and also includes a complete translation of one of its very earliest written texts preserved in a unique fragmentary Arabic manuscript, making this important historical document accessible to scholars, students, and general audiences alike for the very first time.

Authors of the Impossible Jeffrey J. Kripal, 2024-05-31. Outstanding and almost certainly controversial, Kripal has promise to revitalize and extend the reach of religious studies. Choice. Most scholars dismiss research into the paranormal as pseudoscience, a frivolous pursuit for the paranoid or gullible. Even historians of religion, whose work naturally attends to events beyond the realm of empirical science, have shown scant interest in the subject. But the history of psychical phenomena, Jeffrey J. Kripal contends, is an untapped source of insight into the sacred, and by tracing that history through the last two centuries of Western thought, we can see its potential centrality to the critical study of religion. Kripal grounds his study in the work of four major figures in the history of paranormal research: psychical researcher Frederic Myers, writer and humorist Charles Fort, astronomer, computer scientist, and ufologist Jacques Vallee, and philosopher and sociologist Bertrand Russell. Through incisive analyses of these thinkers, Kripal ushers the reader into a beguiling world somewhere between fact, fiction, and fraud. The cultural history of telepathy, teleportation, and UFOs, a ghostly love story, the occult dimensions of science fiction, cold war psychic espionage, galactic colonialism, and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible*, a dazzling and profound look at how the paranormal bridges the sacred and the scientific. An excellent book, engaging, witty, and thoughtful.

Christopher Partridge, Lancaster University. Kripal demands nothing short of a paradigm shift in order to make sense of the odd, the anomalous, and the inexplicable. Catherine L. Albanese, University of California, Santa Barbara. Quietly earth-shattering. Victoria Nelson, author of *The Secret Life of Puppets*.

Plotinus Stephen R. L. Clark, 2016-05-04. A bold work that applies a new approach to the interpretation of the thought of the founder of

Neoplatonism beautifully written Notre Dame Philosophical Reviews Plotinus the Roman philosopher c 204 270 CE who is widely regarded as the founder of Neoplatonism was also the creator of numerous myths images and metaphors They have influenced both secular philosophers and Christian and Muslim theologians but have frequently been dismissed by modern scholars as merely ornamental In this book distinguished philosopher Stephen R L Clark shows that they form a vital set of spiritual exercises by which individuals can achieve one of Plotinus s most important goals self transformation through contemplation Clark examines a variety of Plotinus s myths and metaphors within the cultural and philosophical context of his time asking probing questions about their contemplative effects What is it for example to think away the spatiality of material things What state of mind is Plotinus recommending when he speaks of love or drunkenness or nakedness What star like consciousness is intended when he declares that we were once stars or are stars eternally What does it mean to say that the soul goes around God And how are we supposed to bring the god in us back to the god in all Through these rich images and structures Clark casts Plotinus as a philosopher deeply concerned with philosophy as a way of life Highly enjoyable His book is the tool by which we learn to read Plotinus in a dynamic way that transforms our very selves Classical World

Archaeological Approaches to Shamanism Dragoş Gheorghiu, Herman Bender, Emilia Pásztor, George Nash, 2018-04-18 This long awaited book discusses both ancient and modern shamanism demonstrating its longevity and spatial distribution The book is divided into eleven thought provoking chapters that are organised into three sections mind body nature and culture It discusses the clear associations with this sometimes little understood ritualised practice and asks what shamanism is and if tangible evidence can be extracted from a largely fragmentary archaeological record The book offers a novel portrayal of the material culture of shamanism by collating carefully selected studies by specialists from three different continents promoting a series of new perspectives on this idiosyncratic and sometimes intangible phenomenon
