The Silent Game David Stafford, 2012-02-01 The Silent Game traces the history of spy writers and their fiction from creator William Le Queux of the Edwardian age to John le Carr of the Cold War era David Stafford reveals the connections between fact and fiction as seen in the lives of writers with experience in intelligence including John Buchan Compton Mackenzie Somerset Maugham Ian Fleming and Graham Greene Le Queux used his spy fiction as xenophobic propaganda before and after World War I and le Carr's novels have provided reflections on the Cold War and the decline of Britain's influence Anxieties about the decline of the American empire have helped stimulate a more vigorous American literature of espionage providing an index of contemporary American concerns about power relations As Stafford suggests the genre of espionage fiction rarely intends to document the real world of intelligence Rather it provides a popular vehicle for exploring themes of imperial decline international crisis and impending war

Children's Propaganda Games of the Second World War Nicholas Milton, 2025-11-04 From puzzles and cards to pinball and die games find out about the children's games produced as propaganda during World War II During the Second World War hundreds of games were manufactured by the British Germans and Americans aimed at children Despite being cheaply made due to the wartime economy the games were often fun to play and challenging to win They also had considerable propaganda value helping to manipulate children into supporting the war To get their attention many of the games incorporated dramatic artwork and were based on real wartime events from the evacuation of children in 1939 to the dropping of the atomic bomb in 1945 This book features a large selection of different games produced by the British Germans and Americans and tells the stories behind their wartime propaganda The Nazis in particular prided themselves on producing games which promoted and glamourised war exploiting children's patriotism and pride in German conquests Some of their most insidious games included Juden Raus Jews Out and Bomber ber England Bomber over England However the British and Americans also produced unethical games like Target for Tonight which promoted the carpet bombing of Germany and Atomic Bomb a dexterity puzzle about the nuclear bombing of Japan The games featured in this book include roll and move games with a board and die pinball and similar shooting games dexterity and other puzzles and card games They were made out of paper card wood rubber bakelite plastic and initially metal Remarkably despite wartime restrictions games were manufactured throughout the conflict to meet the demand from boys and girls as they closely followed the changing fortunes of the war Today many of the games have become scarce so for

collectors a guide to their value and rarity is included

Not Playing the Game Xavier Fowler, 2021-11-02 War remembrance and sport have become increasingly entwined in Australia with AFL and NRL Anzac Day fixtures attracting larger crowds than dawn services National representative teams travel halfway around the world to visit battle sites etched in military folklore To validate their integration into this culturally sacred occasion promoters point to the special role of sport in the development of the Anzac legend and with it the birth of the nation The air of sombre reflection that surrounds each Anzac Day is accompanied by a celebratory nationalism that sport and war supposedly embody But what exactly is being remembered and indeed forgotten in these official commemorations and tributes In *Not Playing the Game* Xavier Fowler reveals that the place of sport in the Great War was highly contested Civilian patriots and public officials complained that spectator sport distracted young men from enlisting and wasted public finances better spent elsewhere Sport's defenders argued it was a necessary escape for a population weary of the pressures of war These competing views often reflected differences of class politics and ethnicity and resulted in ferocious sometimes violent clashes *Not Playing the Game* challenges the way our memories of the war are influenced by the fervour of sport painting a picture not of triumph but immense turmoil and tragedy

 and the media alike the games bring out the best sport has to offer unity patriotism friendly competition and the potential for
 stunning upsets Yet wherever international competition occurs politics are never far removed Early in the Cold War when all
 U S Soviet interactions were treated as potential matters of life and death each side tried to manipulate the International
 Olympic Committee Despite the IOC s efforts to keep the games apolitical they were quickly drawn into the superpowers

 sources this book looks at six consecutive Olympiads to show how high the stakes became once the Soviets began competing
 in 1952 threatening America s athletic supremacy **Extreme Cinema** Aaron Kerner, 2016-06-14 Extreme Cinema
 examines the highly stylized treatment of sex and violence in post millennial transnational cinema where the governing
 convention is not the narrative but the spectacle Using profound experiments in form and composition including jarring
 editing extreme close ups visual disorientation and sounds that straddle the boundary between non diegetic and diegetic
 registers this mode of cinema dwells instead on the exhibition of intense violence and an acute intimacy with the sexual body
 Interrogating works such as *Wetlands* and *A Serbian Film* as well as the sub culture of YouTube reaction videos Aaron
 Michael Kerner and Jonathan L Knapp demonstrate the way content and form combine in extreme cinema to affectively
 manipulate the viewing body
