McNamara, David H. Johe, Deborah A. Endly, 2021 For over eighty years the National Ski Patrol NSP has trained people who have successfully cared for thousands of injured snow sports enthusiasts Early in its history an Advanced Red Cross first aid course was used for training Since that time pre hospital care has significantly changed The public has greater expectations of care now so the NSP has improved the patrol ler s level of training to that of an NHTSA National Highway Traffic Safety Administration Emergency Medical Responder Today there are a variety of outdoor activities available at ski areas bike parks and other land management areas that occur during all seasons of the year As a result the NSP changed the medical training of patrollers to cover not just snow sports but a variety of other non winter activities including mountain biking ziplining downhill bike racing and bike parks In the mid 1980 s Dr Warren Bowman the National Medical Advisor for the NSP creat ed a text and course called Winter Emergency Care providing prehospital medical care training for ski patrollers Today the program aptly named Outdoor Emergency Care is the backbone of the NSP s medical training program It is also the standard

of training for other organizations using an Emergency Medical Responder curriculum involved with outdoor recreation. Outdoor Emergency Care (OEC) is the primary resource for a student who wants to become a ski or bicycle patroller or prehospital first responder called an OEC Technician. It also has value for other outdoor enthusiasts. It bridges the gap between urban medical responders with immediate access to an ambulance and advanced equipment and wilderness search and rescue personnel who are several hours from advanced care. No other comprehensive medical textbook covers this niche of prehospital care. River rafters, rope course rescuers, cavers, park rangers, mountain bike race personnel, search and rescue personnel, rescuers at large sporting events and outdoor concerts will find the information in this text invaluable when providing care for patients.

Wilderness Medicine: What To Do When You Can't Call 911 Clifton Castleman, Phil Gardner II, Jennifer Kay, 2016-06-12. Wilderness Medicine: What To Do When You Can't Call 911 provides both basic and in-depth information on how to recognize, treat and manage both common injuries and illnesses as well as life-threatening conditions when professional emergency medical care is an hour away or more. Designed for those who work or travel in remote locations, this comprehensive guide will teach you what to look for, what to do in the event of an emergency, and then help direct you in the most appropriate type of care. This book is used as the course textbook for the Wilderness First Aid, Wilderness First Responder, and Wilderness EMT classes taught by the Center for Wilderness Safety online at www.wildsafe.org.

Expedition and Wilderness Medicine Gregory H. Bledsoe, Michael J. Manyak, David A. Townes, 2008-11-03. With an increase in visits to remote and dangerous locations around the world, the number of serious and fatal injuries and illnesses associated with these expeditions has markedly increased. Medical personnel working in or near such locations are not always explicitly trained in the management of unique environmental injuries such as high altitude sickness, the bends, lightning strikes, frostbite, acute dehydration, venomous stings and bites, and tropical diseases. Many health care professionals seek training in the specialty of wilderness medicine to cope with the health risks faced when far removed from professional care resources, and the American College of Emergency Medicine has recently mandated that a minimum level of proficiency needs to be exhibited by all ER physicians in this discipline. This book covers everything a prospective field physician or medical consultant needs to prepare for when beginning an expedition and explains how to treat a variety of conditions in a concise, clinically oriented format.

Mountaineering: The Freedom of the Hills The Mountaineers, 2010-08-25. If there is only one how-to book to read for the aspirant and expert alike, it is *Freedom of the Hills*. In fact, it is fair to say that *Freedom* is the definitive guide to mountains and climbing and has influenced pretty much every climber. Conrad Anker's 50th anniversary edition of the title is considered the bible of climbing. With nearly 1 million copies sold, this is the all-time bestselling mountaineering and climbing title. Printed on 100% recycled paper, since the publication of the first edition in 1960, *Freedom* as the book is known has endured as a classic mountaineering text. From choosing equipment to tying a climbing knot and from basic rappelling techniques to planning an expedition, it's all here in this essential mountaineering reference. A team of

more than 40 experts all active climbers and climbing educators reviewed revised and updated this compendium to reflect the latest evolutions in mountaineering equipment and techniques Major updates include a significant new chapter on conditioning plus detailed and extensive revisions to rescue and first response aid climbing and waterfall and ice climbing

Current Catalog National Library of Medicine (U.S.),1992 First multi year cumulation covers six years 1965 70 **The Prepper Next Door** Charlie Palmer,2012 A book for practical preppers those planning for emergencies or disasters Discusses food storage water purification and collection sanitation first aid bug out bags bug out vehicles home and self defense firearms and shooting providing lights and utilities and aspects of home construction AUTHOR BIO Charlie Palmer became a prepper back in the early 1980s when he first read The Survivor newsletter Today he recommends people make modest preparations for natural disasters and other emergencies His interests include do it yourself repairs shooting welding machining and outdoor survival
