Outsiders In A Hearing World A Sociology Of Deafness:

Outsiders in a Hearing World Paul C. Higgins, 1980-06 The deaf are outsiders in a world largely created and controlled by those who hear Based on intensive interviewing observation and the personal experience of the author whose parents are deaf *Outsiders in a Hearing World* examines the lives of deaf people within a social and historical context It examines the communities created by deaf people and the identities of their members and describes and analyzes the everyday interactions between the deaf and the hearing Drawing on the works concerning other outsiders this book not only increases our understanding of deafness and the deaf but of outsiders in general

Cultural and Language Diversity and the Deaf Experience Ila Parasnis, 1998-08-28 The perspective that deaf people should be regarded as a cultural and language minority group rather than individuals with an audiological disability is gathering support among educators linguists and researchers involved in the education of deaf people across America This book explores the notion that deaf people are members of a bilingual bicultural minority group whose experiences often overlap with the those of hearing minority group members but at other times are unique Contributors to this book include prominent deaf and hearing researchers educators and deaf community members The three sections review research on bilingualism and biculturalism the impact of cultural and language diversity on the deaf experience and offer rich experiential evidence from deaf community members which highlights the emotional impact of living in the deaf and hearing worlds

Proud to be Deaf: Saintliness in the Catholic Deaf community in South Africa from 1874-1994 Mark James, 2025-05-15 This thought provoking book details the history of Catholic ministry to the Deaf community in South Africa over 120 years This history provides a backdrop to Deaf people's emerging understanding of themselves as a people imbued with dignity and having their own language and culture The philosopher Emmanuel Levinas understanding of saintliness which is the ethical pursuit of prioritising one's neighbour's needs above those of one's own provides a lens through which to both sympathetically and critically read this history The book ends by paying tribute to the Deaf people in the Catholic Church who contributed significantly to raise Deaf people's awareness of their innate dignity and of sign language as a gift from God The book inspires newness boldness and resilience in ministry to approach the Kingdom of God and encounter the face of Christ crucified crucified by the forces of phonocentrism and audism There are many lessons to be learnt that gives voice and appeal to what Ruben Xulu's image evokes Christ was Africa crucified In sum the book pronounces words of blessing to remember and sign a new journey together from the heart Associate Professor Glenn Morrison School of Philosophy and Theology at the University of Notre Dame Fremantle Australia

Lewis,2013-05-28 Following years of theology of deafness based on the premise that Deaf people are simply people who cannot hear this book breaks new ground Presenting a new approach to Deaf people theology and the Church this book enables Deaf people who see themselves as members of a minority group to formulate their own theology rooted in their own history and culture Deconstructing the theology and practice of the Church Hannah Lewis shows how the Church unconsciously oppresses Deaf people through its view of them as people who cannot hear Lewis reclaims Deaf perspectives on Church history examines how an essentially visual Deaf culture can relate to the written text of the Bible and asks Can Jesus sign This book pulls together all these strands to consider how worship can be truly liberating truly a place for Deaf people to celebrate who they are before God The Deaf Way Carol Erting,1994 Selected papers from the conference held in Washington DC July 9 14 1989
