Refurbishment Manual Georg Giebeler, Harald Krause, Rainer Fisch, Florian

Musso, Bernhard Lenz, Alexander Rudolphi, 2012-12-10 Planning tasks involving existing structures are currently among the most common types of contract and almost every structure makes different demands and raises individual problems. Reflecting this state of affairs there are a dizzying number of publications on the market most of which are quite specialized. The Refurbishment Manual cuts through this jungle of publications. It defines terms and concepts, combines the narrowly focused perspectives of the specialists and offers concrete approaches to this wide ranging topic. The Refurbishment Manual closes the gap between basic constructional literature and one sided highly specialized technical literature. It constitutes a practical planning aid on the subject of refurbishment providing a basic introduction to the relevant aspects of building physics, fire protection, sustainability and energy, hazardous materials, construction materials for interior and facade, historic preservation and technical building equipment. It offers concrete tips on planning steps, methods of building analysis and cost benchmarks as well as clear constructional solutions with built projects as examples. A unique feature of the volume is the specially developed timeline which allows the planner to quickly grasp, categorize and evaluate a concrete building task and thus obtain an efficient planning overview. Planungsaufgaben im Bestand gehen derzeit zu den häufigsten Auftragsarten und nahezu jedes Bauwerk stellt andere Anforderungen und weist individuelle Probleme auf. Analog dazu gibt es auf dem Markt eine fast unüberschaubare Anzahl Publikationen in meist sehr spezialisierter Form. Der Sanierungsatlas möchte Licht in diesen Publikationsdschungel bringen. Er definiert Begrifflichkeiten, vereint die fokussierenden Betrachtungsweisen der Fachleute und vermittelt konkrete Herangehensweisen an diese weit gefächerte Thematik. Der Sanierungsatlas schließt die Lücke zwischen grundlegender Baukonstruktion und sehr einseitig spezialisierter Fachliteratur. Das Buch stellt eine praktische Planungshilfe zum Thema Sanierung dar und zwar in Form von relevanter Grundlagenvermittlung zu Bauphysik, Brandschutz, Nachhaltigkeit und energetischen Aspekten, Schadstoffen, Baustoffen im Innenraum und an der Fassade zu Aspekten der Denkmalpflege ebenso wie zur technischen Gebäudeausstattung. Er liefert konkrete Hinweise zu Planungsschritten, Methoden der Bauanalyse und Kostenkennwerten sowie anschauliche Konstruktionslösungen am Beispiel gebauter Projekte. Einzigartig ist die speziell entwickelte Zeitschiene mit deren Hilfe eine konkrete Bauaufgabe schnell erfasst, kategorisiert und bewertet werden kann und die dem Planer somit einen effizienten Planungsüberblick verschafft. Model-Driven Software Migration: A Methodology Christian Wagner, 2014-03-10 Today reliable software systems are the basis of any business or company. The continuous further development of those systems is the central component in software evolution. It requires a huge amount of time, manpower as well as financial resources. The challenges are size, seniority and heterogeneity of those software systems. Christian Wagner addresses software evolution, the inherent problems and uncertainties in the process. He presents a model driven method which leads to a synchronization between source code and design. As a result the model layer will be the central part in further evolution and source code becomes a by product. For

the first time a model driven procedure for maintenance and migration of software systems is described The procedure is composed of a model driven reengineering and a model driven migration phase The application and effectiveness of the procedure are confirmed with a reference implementation applied to four exemplary systems **Official Gazette of the United States Patent and Trademark Office** ,1992 **PC Mag** ,1987-05-12 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **Ovation** ,1984
